THE WINNERS

L to R: Arkansas A&M (First Place) — Oklahoma State (Third Place) — Georgia (Second Place).

PRESIDENT SPEAKS

By Billy Watson

To say that hosting a Conclave is a bowl of cherries would be a gross error. It takes work and planning right up to and even beyond the day of theconclave to make the meeting a success. We were very fortunate to have advisors who were familiar with the jobs to be done and who kept us on our toes, as well as faculty and staff to help us when we needed it.

The initial planning steps for the 10th Annual Conclave were begun fall quarter, 1965, by John Williams, then our Club's Conclave Chairman. He appointed permanent committees which went to work locating a place for the Conclave, arranging food and housing, and looking into the matter of awards. Also at this time, an all-out effort was initiated in fund raising.

After we returned from the Ninth Conclave, the Club elected slave drivers (or slaves depending on how you look at it) to get the momentum going. During the summer months, we formulated ideas and came back to school in the fall ready for action. The money-making process seemed to be a slow grind at times but there were those ever faithful who were there every Saturday morning even when the temperature could be written with one digit.

At times the difference in a most successful and a not-so-successful meeting is a very fine line. This year we were most grateful to the visiting team captains who spoke up when they found flaws and who helped to keep this Conclave on the right side of this line.

The enthusiasm and spirit shown this year made every ounce of energy put into the Conclave seem to be paid back in full. There is no finer training opportunity anywhere than we had in hosting this event, but I do rest easier at nights knowing I'll be gone when it comes Georgia's turn at host again.

ACKNOWLEDGEMENTS

There were some people who have never received their just recognition for their efforts on our behalf:

GRADUATE STUDENTS

Harold Burkhart
Syd Kinne
Bob Bailey
David Lenhart
Willie Tisthendorf
Edmond Howard

John Williams

PROFESSORS AND ADVISORS

Mr. Julian Bedwith
Mr. J. Reid Parker
Dr. Peter J. Dyson
Mr. Archie E. Patterson
Dean A. M. Herrick
Dr. Leon Hargreaves

SECRETARIES

Mrs. Joe Moore
Mrs. Melonie Ginn
Miss Evelyn Dowdy
Mrs. Linda Hamilton
Mrs. Carole Harrison
Mrs. Margaret Gregg

JUDGES

Mr. T. M. Folger
Mr. T. E. Connell
Mr. Jack Snelling
Mr. David Almond
Mr. John Cooper
Mr. Malcolm Dillard
Mr. Walter Carl
Mr. Sherwood Hall
Mr. Dewel Lawrence

Mr. "Rip" Fontain of The Georgia Forestry Commission for handling the publicity.

The staff of the U. S. Forest Service Sciences Laboratory and especially Mr. Louis Goby.

THE ASFC

RECOGNIZES THE FOLLOWING COMPANIES

FOR THEIR SUPPORT IN MAKING

THE TENTH ANNUAL CONCLAVE A GREAT SUCCESS:

DONATIONS

Appalachian Oak Flooring and Hardwood Corporation

Armstrong Cork Company

International Paper Company

McCulloch Chain Saw Dealers

Rayonier, Incorporated

ADVERTISEMENTS

Bowaters Carolina Corporation

Brunswick Pulp and Paper Company

The Buckeye Cellulose Corporation

Georgia–Pacific Corporation

Owens–Illinois

TOTAL POINTS

A tremendous gathering of THE SONS OF PAUL!

Byron Dyer, District Supervisor, Cooperative Extension Service, Banquet speaker.

President Billy Watson receives recognition for a job well done.

"Smokey Bear" in the 100 yard back stroke.

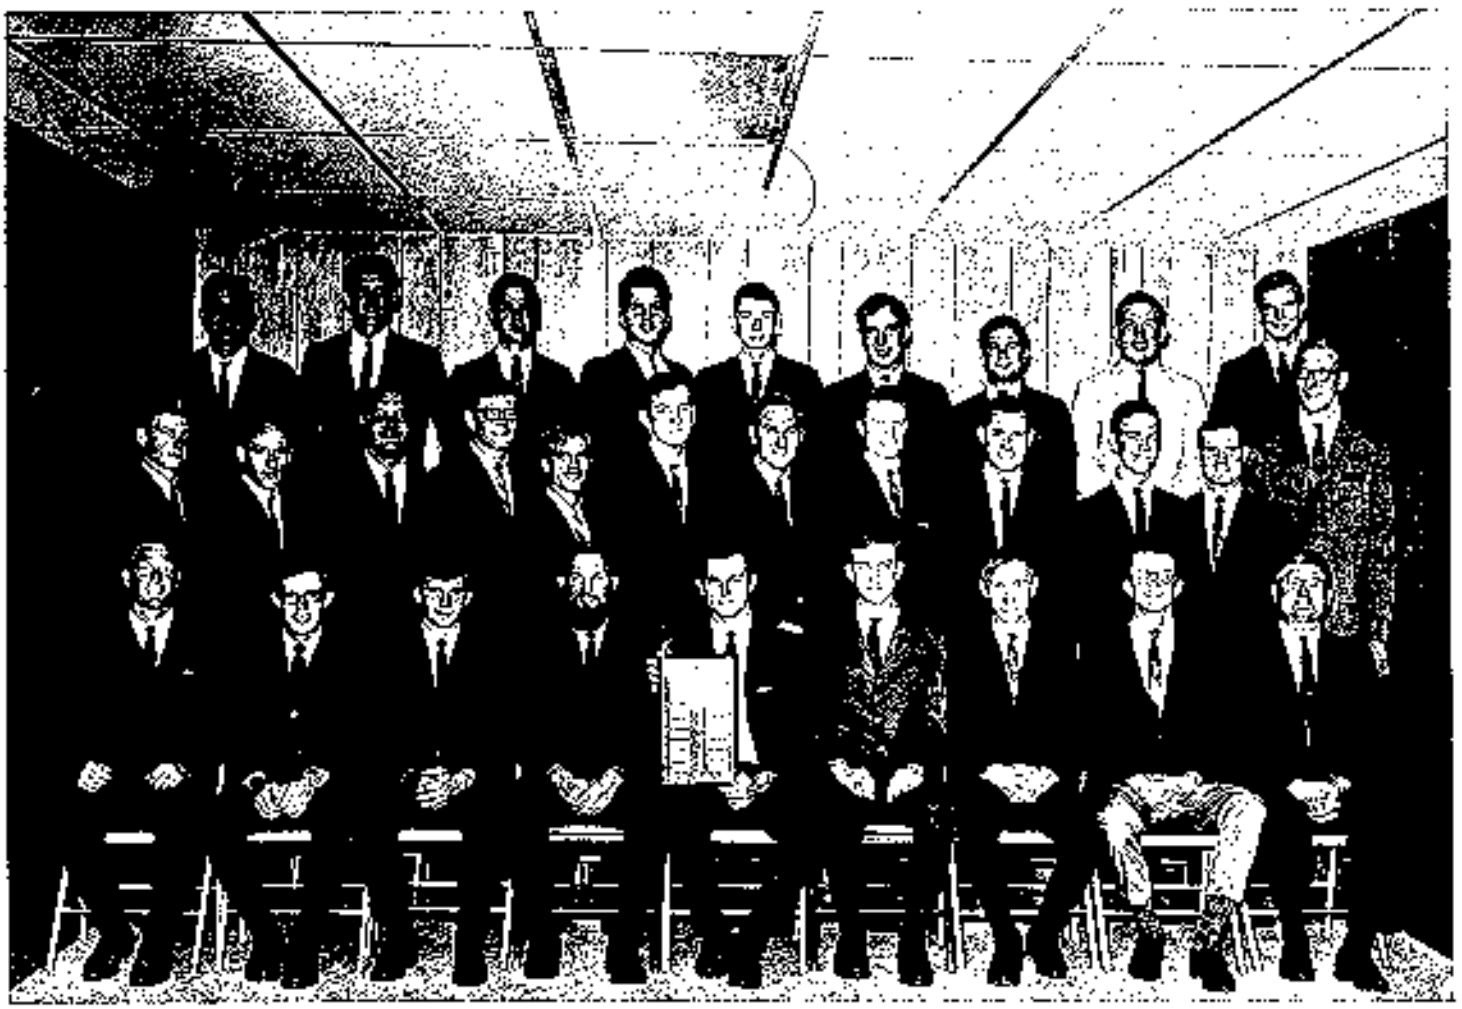

Relaxing after a tiring day of fierce competition.

Dean A. M. Harrick welcomes the foresters to the 10th Annual Conclave.

FIRST PLACE

THE ARKANSAS A&M FORESTRY CLUB

By Ronnie Boughman

The A&M Forestry Club, formed in the mid 1940's, is one of the largest and most active organizations on the A&M campus.

Our Club placed second in the homecoming decoration contest this year and placed among the top teams in the Intramural sports program.

Each year we harvest pine cones for both state and private agencies to help finance our activities. We also do stand improvement work and planting in the school forest areas for this same purpose.

This year at several of our meetings we have had various outdoor films and speakers as our program.

We have two socials and one banquet each year besides our bimonthly meetings. At our banquet we announce the winners of our annual Field Day contests who represent the school at the Conclave. Two scholarship awards and one leadership award are also presented at this activity.

We are proud of our club and feel that it is one of the best ways of promoting scholarship, leadership, and fellowship within our Forestry School.

SECOND PLACE

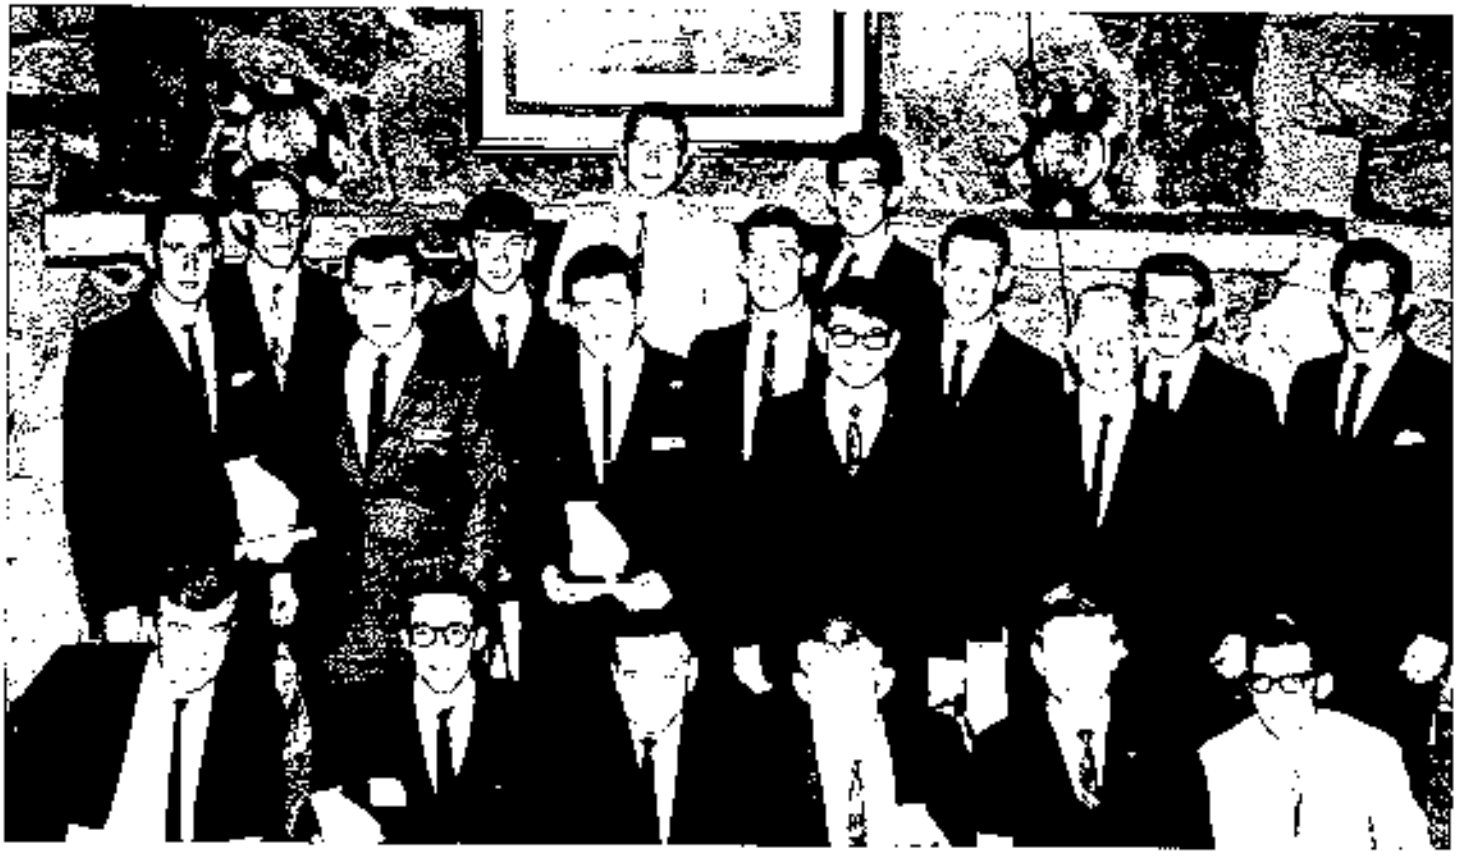

The University of Georgia Forestry Club.

University of Georgia Forestry Club Officers for Spring Quarter, 1967

L–R: Gerald Green (President), Gerald Frazier (Vice-President), Ronnie Mac Williams (Treasurer), Augo San Frotello (Secretary).

THIRD PLACE

THE O.S.U. FORESTRY CLUB

By Dwight Tallent

The Oklahoma State University Forestry Club was first established in 1947 when the recently retired Professor Glenn R. Durrell was the departmental head of forestry. Since the establishment in 1947, the O. S. U. Forestry Club has grown to become one of the most active and participating clubs on campus.

Our present departmental head of forestry is Dr. Edward E. Sturgeon who is really the "big man" since he stands 6' 5". Dr. Sturgeon, a native of Michigan, has received his degrees at the University of Michigan. He has served as the head of the Forestry Department at Sault St. Marie College in Northern Michigan, and he has served on the staff at Michigan Technological University. He was the head of the Department of Forestry at Humbolt State College in California prior to accepting the title as head of the Forestry Department at Oklahoma State University.

Advisors of the O. S. U. Forestry Club are Professor Ed Wheeler and Professor Ted Silker. Our club meetings are held each first and third Thursday of each month. The purpose of the O. S. U. Forestry Club is to provide leadership opportunity for club members through their participation in club activities, committees, and in serving as Forestry Club Officers.

The O. S. U. Forestry Club employs three fund producing projects through the school year to help finance such activities as:

"Log Jam" — A picnic scheduled at the beginning of the school year to acquaint all new members and Forestry Club queen contestants.

"Forestry Club Timber Carnival" — A pace-setter for the annual Conclave meet.

"Spring Awards Banquet" — A banquet honoring outstanding forestry students.

Fund making projects for these and other various club activities are financed through profits from wood-cutting and sales, football concessions, and Christmas tree sales.

THE AUBURN FORESTRY CLUB

There are two forestry associated clubs or organizations available for Auburn forestry students. The honorary fraternity, Xi Sigma Pi, is for those forestry students who excel in their studies; and the "Forestry Club" is for all forest management and wood technology students. The basic purpose of the club is to bring the students in these two courses closer together to establish a better group relationship. The club assembles periodically and a program and or business is presented. The programs are variable in nature and consist of movies, student summer work reports and films, Conclave pictures and interesting presentations by people in the field of forestry and other associated areas. The Club always has a volleyball, basketball and football team which represents the forestry students and department in the Intramural sports program.

THE CLEMSON FORESTRY CLUB

by Larry Walker

The past school year proved to be a rewarding and enjoyable year for the Clemson Forestry Club. A wide participation by the members in the club functions was indicative of the enthusiasm and willingness on the part of everyone. Foresters are far from being in a slothful profession, and it is our belief that the work done by the club members illustrates that they will be assets to the forestry profession.

The first activity of the club was the cookout for all freshmen, prospective members, present members, and faculty. At this cookout club members and prospective members become acquainted with each other.

The best big event was the Homecoming Display; the Forestry Club continues to maintain its excellent performance in this area by taking second place. This project involved a lot of work and member participation. Although we did not place first, we are quite proud of our accomplishment and will try to get first place next year.

In the realm of finances the Clemson Forestry Club is staying well "in the black" and is almost a money-making organization! By cutting and selling pulpwood in addition to firewood, the club enjoys an opportunity to do some hard work and really make some money.

During the fall and spring initiations, 17 new members entered the club. Everyone enjoyed the "rites" of initiation—even the initiates (after it was over); and the food and other "refreshments" were enjoyed also.

In the early spring some of the members barbequed a section of deer that Dr. William A. Shain so generously donated. This turned out to be the outstanding cookout of the year.

The local conclave was held in March, and again we had a large turnout and good competition. Winners in the local conclave were selected to represent the club at the regional conclave at the University of Georgia.

During the year it was attempted to have a junior work with a senior on every club activity. The purpose of this was to insure that next year's club leaders and members be more familiar with the activities and organization and thereby ease and ameliorate the continuity of the club functions from one year to the next. We hope that this proves beneficial and will be continued every year.

Special thanks go to our advisors, Dr. W. A. Shain and Dr. B. M. Cool, for their help and making the 1966-1967 Clemson University Forestry Club a success.

THE SYLVANS CLUB

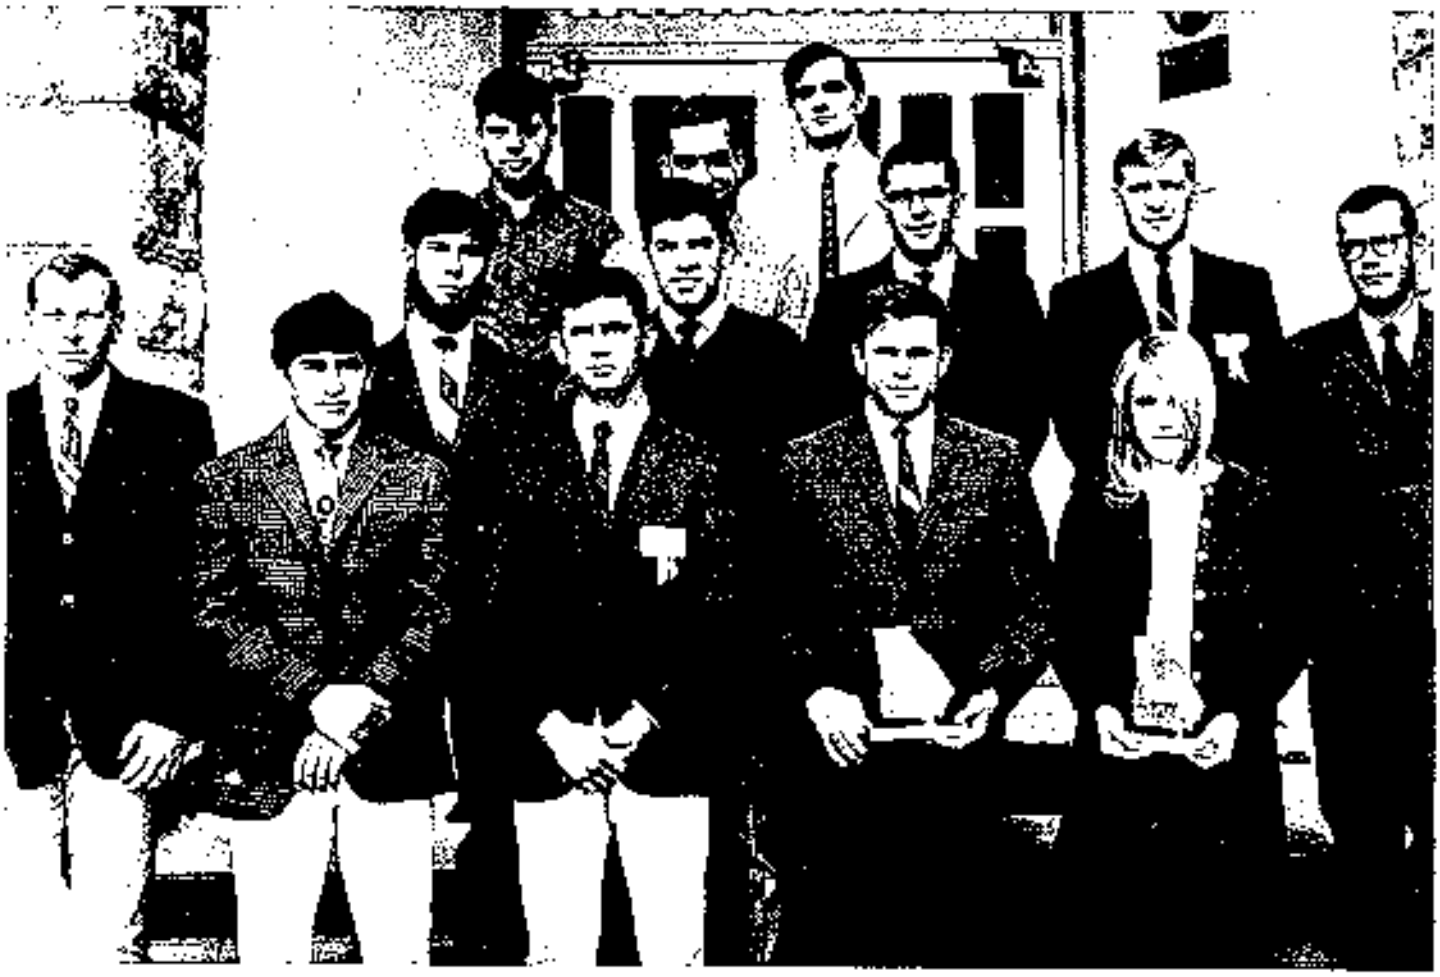

Stephen F. Austin State College

The Sylvans Club at Stephen F. Austin State College was organized in the fall of 1946. The club was organized for the purpose of furthering and promoting fellowship among forestry students and to increase their knowledge by having programs highlighting speakers well versed in the many phases of forestry. The club has grown from a modest beginning to one of the most outstanding and active social and professional clubs on campus. It has an active membership of 93 members and one faculty advisor.

The Sylvans Club sponsors many annual events such as a forestry field day, hunting and fishing trip, Christmas Dinner-Dance, Sylvans Scholarship, and publishment of the Texas Tally Forestry Annual.

The Sylvans Club has been an active participant in intramural sports. The Sylvans have also taken an active part in the promoting of school spirit and each year enters a float in the homecoming parade.

Last year, 20 acres of private forest land was set aside for the club's use and recently the club finished construction of a log cabin to serve as a meeting place for picnics, parties, and various club functions.

THE FORESTRY CLUB AT VPI

by Chuck Moody

Since its founding in 1948, the VPI Forestry Club has provided an informal meeting ground for students both among themselves and with their faculty. Accreditation of the Virginia Tech School of Forestry by the Society of American Foresters in October 1965 has resulted in a rapid increase in the number of students enrolled in the department. In terms of undergradvate enrollment the Forestry and Wildlife department is now the largest in the College of Agriculture. This places the Forestry Club in a position to play an extremely important role in student life at Virginia Tech.

During the fall quarter the membership of the Forestry Club welcomed the largest number of initates into the organization. Following a successful field day and picnic with faculty, the pledges subjected themselves to the rigors of the traditional 'Possum Hunt' initiation ceremony. As far as can be determined, the first two members of the fairer sex participated in the 1966 'Possum Hunt to become Forestry Club members.

Imaginative thought and hard work on the part of the club's officers brought the club a number of thought provoking speakers who presented their diverse and often interesting views of the forestry profession today. These speakers in presenting their arguments served to widen the horizon of all who attended the meetings at which they presented their views.

In the past year other activities of the organization have included winning third prize in the Homecoming parade, a Tech Festival exhibit, and a winter social for the members. Seedling sales and seedling planting projects to raise money for operating expenses and for what has become an annual trip to the ASFC Conclave were also a part of the Forestry Club program for the past year.

The closing of the academic year found the Forestry Club undergoing a critical examination of its future plans and goals so that it may play an even more active role in student life at VPI. As the department expands, makes plans for its new building, and admits increasing numbers of freshmen, the members and officers of the Forestry Club have come to realize that the organization can and must play an even more active part in the life of the undergraduates in their career at Virginia Tech. It is toward that goal that the VPI Forestry Club continues to strive.

The club advisor this year was Dr. Robert E. Martin.

THE N.C.S.U. FORESTRY CLUB

The North Carolina State University Forestry Club was started in 1929 from a core of students who transferred from Mont Alto Forestry School in Pennsylvania. There were about forty-seven of them, all living in adjacent houses, so a club naturally grew. The first few years' activities consisted of social functions with a few speakers to keep things forestry orientated.

In those early days, it was difficult to distinguish the Agriculture Club from the Forestry Club because each student was required to pay a fee which automatically made them members of the Ag Club. Finally, in 1937, the clubs were separated and a true Forestry Club was born.

The first Rolleo, the State version of a Conclave, with competition between classes, was held in 1932 under the name of Jamboree. The events were dendrology, smoke chasing, track and field (in forestry?!), and a liar's contest.

This year's activities included the Rolleo and the Logger's Brawl. By this time, the events held in the Rolleo have changed somewhat to correspond with the events held in the Conclave. Of course, for the sake of nonsense a few others are thrown in. The Logger's Brawl is an annual affair with square dancing to the tune of a country music band.

The most continuous activity for the members, besides regular meetings, is fund raising. This is accomplished by cutting pulpwood every Saturday on Schenck Forest which is nearby. This year, however, severe ice damage to another school-owned forest forced us to move our operation there for salvage work.

The club also entered a float in the Homecoming parade this year. The pine needles and crepe, plus a couple of volunteeres were shakily perched on the bed of a logging truck that miraculously managed to keep running for the entire parade route.

All in all, the year's activities have been many and varied—and more than enough to keep the members busy.

UNIVERSITY OF FLORIDA FORESTRY CLUB 1966–67

By Charles Taylor

While the School of Forestry is the smallest college on campus, the Forestry Club serves to unite students and faculty in common interests and good fellowship. The 1966-67 year has been a growth year for the University of Florida School of Forestry. A new philosophy has accompanied this growth. Specifically, the activity of the Club has increased and a spirit of competition has emerged.

Our first meeting each trimester is a traditional "smoker" to enable the students and faculty to get better acquainted. Director Gray is on hand to welcome new students and introduce the School of Forestry Faculty. Of course a membership drive begins.

The most popular meeting of the year occurs during the Fall Trimester. Seniors are given the opportunity to describe summer jobs. Bob DeNeve told of his work with Dow Chemical Company and Terry Meyer presented slides of his work with the New Jersey Recreation Porgram. Later in the term, Mr. Harry Doud, Personnel Manager of Western Electric, told us what to expect when being interviewed for a job.

During the Fall term the membership enjoyed two steak fries with all the trimmings. At the last steak fry, which was held just before the Christmas vacation, Jim Miller, Doug Lyell, Charles Taylor, and Tom Hart were elected president, vice-president, secretary, and treasurer respectively.

When most of the members went home for Christmas, Ardy Streit and company did not. With the cooperation of Professor Frazer and Paul Mott, Ardy and his crew sold Christmas trees.

The new year brought the Forestry Club renewed excitement and enjoyment. On the agenda for the term were the Annual Forestry Club Banquet, the pulpwood cut, the Field Day, two steak fries and the Conclave.

The Eleventh Annual Forestry Club Banquet was held at the University Inn on February 17, 1967. John H. Trescot, Jr., Vice-President of the Hudson Paper Company, spoke on "How to Approach Our Occupation with a Professional Attitude". Awards were presented to outstanding students for their achievements. Larry Bishop was awarded the Adkins Memorial Award by Dr. Verne L. Harper. Ardy Streit received the Newins-Ziegler Award from Robert D. Sage. Erdman West, Jr. presented the S.A.F. Award to Paul Mott. Harry Van Looch, III received the Tau Alpha Nu Award from Paul Mott. Jim Gooding was the recipient of the Ring Power Company Scholarship, presented by L. C. Ringhaver. Professor J. W. Miller, Jr. presented the Rayonier Senior Fellowship to Doug Lyell.

The 1967 pulpwood cut was the biggest in Florida history. On February 25th, thirty members cut 31.5 cords of pulpwood from the Austin Cary Forest game management area. Following the principle—replace four for every one cut—the members also planted 500 sand pine for use as future Christmas trees.

Although the 1967 Conclave was at an inconvenient time for our club this year, we did hold our Annual Field Day. Following the conclave rules, our program began at eight o'clock Saturday morning, March 4th, and included thirteen of the seventeen conclave events. To the one hundred persons in attendance, the Field Day was a complete success. Prizes donated by Florida Industries were awarded the winners of each event.

As in the Fall Trimester, the Winter Trimester included speakers at the bi-weekly meetings. Some of the speakers were: Dr. Robert C. Stanley of the Univ. of Florida, who spoke on his research trip to Holland; Professor Post of the School of Forestry, who demonstrated the proper use of the chain saw in cutting pulpwood; Mr. Clyde Matson of the Bureau of Fisheries and Wildlife, who discussed control of wildlife causing damage to domestic environments; and, Dr. Keith Arnold of Michigan State University, who explained the importance of fire control techniques for mass fires.

The 1967 Conclave caught us the week before final exams. However, six of our members attended as the Florida delegation: John Barraclough, Tom Renison, George Wright, Jack Vogel, Harry Van Locke, Dr. Wayne Smith (advisor), and Charles Taylor.

At our last regular meeting of the term, we elected offices for the summer. Jim Gooding was elected President, John Pribbey was elected Vice-President, Tom Hurt - Secretary, and John Barraclough - Treasurer.

Throughout the 1966-67 school year the University of Florida School of Forestry has advanced the purpose of education, indicative of the Forestry Club Preamble:

"We, the students of the School of Forestry at the University of Florida, realizing that special advantages are to be derived from a student organization, and having in view the development of a greater knowledge of forestry and a greater interest and comradship between students: Resolve, that an organization be perfected as shall be deemed proper to serve this purpose".

For this purpose we progress.

MINUTES OF THE BUSINESS MEETING TENTH ANNUAL CONCLAVE OF THE A. S. F. C.

APRIL 8, 1967 COVINGTON, GEORGIA

At 5:30 P.M., Saturday, April 8, 1967, the Meeting of Team Captains was called to order by A.S.F.C. President Billy Watson. Secretary William Walton called the roll and all members were present. The minutes of the last meeting were approved as printed in the 1966 SOUTHERN FORESTER.

President Watson called for old business, and discussion on the site of the 11th Annual A.S.F.C. Conclave in 1968 began. After some time, further discussion was temporarily postponed. President Watson suggested that discussion concerning the financing of the Conclave might be prerequisite to the decision of which school would serve as host in 1968. For this reason further discussion on the selection of a host was temporarily tabled in order to consider means of relieving the host school of the heavy demands of financing. President Watson mentioned two methods which the University of Georgia Forestry Club had considered: (1) raising the yearly dues of each member school to $100 and (2) charging each attendant of the Conclave full price for lodging and food.

After some discussion, Arkansas A & M moved that the dues be raised to $100 per member club and that some provision be made for other clubs wanting to join. Stephen F. Austin suggested that the motion be amended to provide for the $100 to be in by the first of each year and that the University of Tennessee be charged dues of $35 for the first year.

Arkansas A&M accepted this amendment. The motion as amended was seconded and passed unanimously.

Insuring members at the Conclave was discussed next. Stephen F. Austin suggested that, since some schools carry their own insurance, the host school be informed whether or not the member schools are insured. Oklahoma State said they understood the host school could be sued and suggested the host school insure everyone. Stephen F. Austin then suggested that each school provide its own insurance and moved that the host school provide on-site insurance only. Oklahoma State suggested that each school send in insurance money to the host school. Georgia commented that the Association should pick one insurance company and then stick with them year after year. Stephen F. Austin then withdrew their motion. No further action was taken other than to call attention to the problem for the next host school.

Discussion as to the host school for 1968 was re-opened. Clemson suggested a schedule for the next nine years be set up. The schedule is as follows:

1968 – Clemson University
1969 – Oklahoma State University
1970 – Virginia Polytechnic Institute
1971 – Arkansas A&M College
1972 – University of Florida
1973 – Stephen F. Austin State College
1974 – Auburn University (tentative - N. C. State Univ., alternate)
1975 – N. C. State University
1976 – University of Georgia

VPI moved that the earliest date of the Conclave be the third week in April. The motion was defeated because of lack of a second.

Tennessee presented a petition for membership. VPI moved that they be accepted. The motion was seconded and after little discussion passed unanimously. At this point the meeting was adjourned until after the awards banquet.

At 9:45 P.M. the meeting reconvened and rules changes were considered. Changes were made or memoranda to the host club were proposed in the following events:

COMPASS AND PACING – Arkansas A&M asked for a rule change to insure uniformity between the multiple courses. After considerable discussion they moved that each course have the same number of bearings and that the total distance of each course be within one chain of all others. This was seconded and passed unanimously.

TIMBER ESTIMATION – Oklahoma State moved that memoranda to the host school be attached to the rules as follows: (1) information concerning the specific volume tables and what diameter intervals are to be used be sent at an early date to all members and (2) volumes ought to be in board feet.

POLE CLASSIFICATION – N. C. State moved that values be required on each pole and that total value be used only to break ties. Motion was seconded and passed.

N. C. State suggested a memo to the effect that the host school should indicate which pole classification system is to be used. This was accepted by all present.

WOOD TECHNOLOGY – Stephen F. Austin moved that only fresh wood samples be used. The motion was seconded by Arkansas A&M and passed unanimously.

POLE CLIMBING – Stephen F. Austin made a motion that the use of resin be eliminated. Georgia made a substitute motion that no adhesives be used on shoes or barefeet. After some discussion the motion was amended to the effect that nothing be allowed on the contestant's shoes or barefeet. The motion was seconded by Florida and passed unanimously.

BOW SAWING – Stephen F. Austin moved that a memo be added to the effect that the cants be prevented from shaking during the event. This is to apply to cross-cut sawing also. A memo to the effect that the host school inform the members of the height of the cants was also called for. These were all accepted by those present.

LOG ROLLING – N. C. State moved that the contestants be required to roll the log through the end stakes with disqualification resulting if this provision be violated and an additional penalty be assessed for knocking down more than two laths in succession. After some discussion, N. C. State amended this motion so that an additional penality of 20 seconds would be assessed for knocking down more than two laths in succession. Arkansas A&M seconded the amended motion and it was passed unanimously.

CROSS-CUT SAWING – Stephen F. Austin moved that the height of the cants be lowered to 18". Oklahoma State amended the mo-

tion to read 20" to the bottom of the cant. The amendment was accepted. The amended motion was then seconded and passed.

LOG CHOPPING — N. C. State moved that the rules be changed so as to read "that sufficient ground clearance be allowed for the cants." Arkansas A & M seconded the motion and it was passed unanimously.

Oklahoma State moved that soft hard wood species, without interlocked grain, be used for the cants. The motion was passed unanimously.

BAIT CASTING — Oklahoma State suggested that points be awarded on the basis of where the plug first hits.

Stephen F. Austin suggested that bait casting be made a dry land event using a flat, or slightly elevated, wooden target with rings painted on it. After some discussion they made this into a motion, with points to be awarded on the basis of where the plug first hits. Should the plug hit on a line, the higher score will be awarded. The motion was seconded and passed.

POLE FELLING — Stephen F. Austin moved that a time limit of 15 minutes be placed on this event. The motion was seconded but was defeated.

LOG BIRLING — Arkansas A&M suggested that two limiting lines be drawn on the log so that contestants won't interfere with each other.

Stephen F. Austin moved that an 18" line be placed at the center of buoyance of the log. Contestants will not be allowed to cross the line. The motion was seconded and passed unanimously.

Stephen F. Austin moved that a new scoring system be used in future Conclaves. The value or number of points would be based on the number of teams participating in the Conclave. The following is an illustration of the system based on ten participating schools.

CONSTITUTION OF THE ASSOCIATION OF SOUTHERN FORESTRY CLUBS

As amended April 8, 1967 at the Tenth Annual Conclave

Article I. Name.

The name of the organization shall be the Association of Southern Forestry Clubs.

Article II. Objectives.

A. To benefit the forestry clubs of the various southern schools by an interchange of ideas and stimulation of good fellowship among the club members.

B. To establish and maintain:
1. Unity of purpose and action within and among the southern forestry clubs.
2. A high standard of professional ethics.
3. Closer cooperation and relationship between students and professional foresters.

C. To hold an annual conclave.

Article III. Membership.

A. Qualifications.
1. Any forestry club of a university or college of Alabama, Arkansas, Florida, Georgia, Kentucky, Louisana, Mississippi, North Carolina, Oklahoma, South Carolina, Tennessee, Texas, Virginia, or West Virginia granting a baccalaureate degree in forestry, or equivalent, with a major of forestry, or a higher degree in forestry, shall be eligible for a voting membership in this association upon a majority approval of a petition submitted to the voting member clubs; or by application by representation at the Annual Conclave.
2. Charter Members: Louisiana State University, University of Florida, Stephen F. Austin State College, Mississippi State University, Arkansas A & M College, University of the South, Auburn University, Oklahoma State University, University of Georgia, North Carolina State College and Clemson Agricultural College.
3. Any Forestry Club of a senior university or college within the states listed in Part I of this section not granting a baccalaureate degree in forestry, shall be eligible for associate membership upon a majority approval of a petition submitted to the voting member clubs.

B. Privileges.
Members (each club) are entitled to one vote and full participation in all conclave activities.

C. Dues.
1. The Annual dues shall be one hundred ($100) dollars for each member club. Entering clubs shall pay a reduced rate to be set by the Association.
2. The dues shall be used to pay for correspondence, publications, and other association expenses of the host club and any excess funds may be the host club's.
3. The dues for the year will be paid to the host school by January 1, preceeding the Conclave.

Article IV. Officers.

A. The officers of the association shall be:
1. President—elected from and by the host club.
2. Vice-President—one elected from and by each member club.
3. Secretary—elected from and by the host club.
4. Treasurer—elected from and by the host club.
5. Editor—elected from and by the host club.

B. The Duties of the Officers
1. The duties of the President shall be:
   a. To preside at all meetings of the association.
   b. To appoint committees.
   c. To be responsible for submitting an officers report to the accumulative files upon the completion of ASFC Conclave.
   d. To be responsible for obtaining reports from each of his committees and officer heads of the host club.
   e. To perform all other duties necessary.
2. The duties of the Vice-President shall be:
   a. To act as a representative of his club.
   b. To notify the president of his election.
   c. To complete a report of the activities of the association and be responsible for submitting materials to the host club for annual publication.
   e. To be responsible for submitting to member clubs publications within his club and maintaining an accumulative file of ASFC correspondence.
3. The duties of the Secretary shall be:
   a. To keep the minutes of all meetings of the association and to conduct all correspondence relative to the business of the association.
   b. To submit an officer's report for the accumulative files completion of the ASFC Conclave.
4. The duties of the Treasurer shall be:
   a. To receive and have custody of all money paid to the association
   b. To keep a careful record of all receipts and expenditures.
   c. To prepare a financial report for publication in the annual issue of "THE SOUTHERN FORESTER.
   d. To be responsible for the collection of dues.
5. Duties of the Editor shall be:
   a. To gather and edit all material for the annual publication "THE SOUTHERN FORESTER.
   b. To see that the provisions of Article VII are carried out.

C. Tenure of Office.
1. Officers are to hold office until the next Annual Conclave with the exception of the editor, who will serve until the publication is distributed.

D. Election of Officers.
1. The President, Secretary, Treasurer, and Editor of the Association shall be elected by the host club at their first club meeting following the conclave.
2. Vice-Presidents of the Association shall be elected by their respective clubs at their first meeting following the Conclave.

Article V. Meetings

A. Time of meetings.
1. Meetings shall be during the annual spring Conclave on the last night of the Conclave.
2. The exact time of the meetings is to the discretion of the host club.

B. Election of Host Club.
1. The host club shall be selected from bids submitted by member clubs at each annual meeting by a roll call majority vote two years in advance.
2. In case of tie, the president shall cast the deciding vote.
3. No club shall be host more than once in three years.
4. If a previously elected host notifies the members of the ASFC, by October 1 of the year before it is to hold the conclave, that it cannot hold the conclave, the president shall solicit bids from the members and then send a ballot to each member club to be voted on in writing.
5. The host club shall be alternated from east to west whenever possible.

C. Files.
1. Accumulative files shall be maintained by the host club and shall include all member reports and correspondence.
2. Each file shall contain a copy of the ASFC Constitution.

Article VI. Amendments

The constitution may be amended or revised by a two-thirds vote of the voting member clubs.

Article VII. Publications

A. Title. The title of the publication shall be "THE SOUTHERN FORESTER."

B. The constitution shall be published annually in the publication of "THE SOUTHERN FORESTER."

C. The past host club shall publish the ASFC periodical within one month after the Annual Conclave.

D. Securing items for publications.
1. The articles shall be edited by the member club and submitted to the host club.
2. Article to be printed in the current issue must be in the hands of the publishing editor not later than the time of the Annual Conclave.

E. Distribution.
Each conclave contestant will receive one (1) copy of "THE SOUTHERN FORESTER." A minimum of twenty (20) will be sent to participating member clubs.

F. Proceedings of the Conclave.
Proceedings of each Annual Conclave, including minutes of the business meetings, will be published by the past host club in the annual publication.

Article VIII. Contests

A. Competitive events will be held at each Annual Conclave.

B. There will be 15 standard competitive contests at each Annual Conclave.
1. Standard events:
   a. Dendrology
   b. Compass and pacing
   c. Timber estimation
   d. D.B.H. estimation
   e. Pole classification
   f. Wood technology
   g. Chain throwing
   h. Axe throwing
   i. Knife throwing
   j. Pole climbing
   k. Bow sawing
   l. Log rolling
   m. Cross-cut sawing
   n. Log chopping
   o. Bait casting

2. Scoring will be based on the number of schools participating in the Conclave. First place winners in field events will be awarded a number of points equal to the total number of schools participating. Second place winners will receive 1 less point than the total number of participating schools, third place winners will receive 2 less points than the total number of participating schools, and so on with each succeeding participant who satisfactorily completes the event receiving one or more points.

   First place winners in technical events will be awarded a number of points equal to the number of participating schools multiplied by 1.5. Second place winners will receive 1.5 points less than the total number of points awarded first place winners, third place winners will receive 3 points less than the total numbered points awarded first place winners, and so on with each succeeding participant who satisfactorily completes the event receiving 1.5 or more points.

C. In addition to the 15 standard events established in Section B, there may be a maximum of five (5) contests at the discretion of the host club, provided that these contests be specified with rules and explanations at the preceding Annual Conclave. Requests for omission of any standard contests will be made at the preceding Annual Conclave with a two-thirds (2/3) majority vote necessary for approval.

D. The standard set of rules will be made and approved by the voting members of the ASFC.

E. Selection of judges of all contests will be left to the discretion of the host club except in the event the host club participates; then judging will not be done by members of the host club.

F. Only students presently enrolled in a school or department of forestry will be eligible to enter ASFC events. In the case of the University of Florida and the University of the South, freshmen and sophomore students presently enrolled and who have declared an an intention of enrolling in the forestry department or school at the beginning of their junior year will also be eligible for participation.

G. The contestant must meet the same requirements as are specified for individual participation in school athletics. The contestant must be an undergraduate student and he must meet his own school's requirements both scholastically and in credit for athletic participation.

H. In the event that the Conclave delegation or spectators from any member school intentionally or otherwise interfere with the progress of any event in the Conclave, that delegation shall forfeit its rights to score any points in that event.

I. VPI is hereby considered a member of the ASFC by vote taken on May 4, 1963.

J. A table of random numbers will be used to choose order of team's participation in each event. This order will be sent, to each participating school before the Conclave.

K. Contest protests must be filed with a committee of staff members within fifteen (15) minutes of the individual infraction.

L. Contestants in the log chopping event must wear hard-toed footwear; the use of shin guards is left to the individual's discretion.

M. Tennessee is hereby considered a member of the A.S.F.C. by unanimous vote taken on April 8, 1967.

This is where our products grow

Our corrugated boxes and multiwall bags. Our linerboard and corrugating medium. They all begin in the timberlands.

That's why forestry is such a vital subject with us. And why we're so interested in the programs and policies of professional foresters everywhere. Your problems are our problems. Your progress is our progress.

Owens-Illinois Forest Products Division continues to contribute to the cultivation and utilization of our nation's valuable timber resources. After all, that's where our products grow. And where we grow, too.

OWENS-ILLINOIS

MEMORANDA TO HOST CLUBS

The following memoranda to the host club were approved at the Team Captain's meeting Saturday night, April 8, 1967.

TIMBER ESTIMATION — host school shall send out information concerning which volume tables will be used and what inch intervals will be used.

POLE CLASSIFICATION — host school shall tell which classification system is to be used.

BOW SAWING — (1) host school shall make sure the cants are well secured during the event so that no movement is possible, and (2) host school shall state the height of the cants from the ground.

CROSS-CUT SAWING — same as bow-sawing.

THE FORESTER'S OPPORTUNITY

You will soon be a graduate forester, equipped with the knowledge that tomorrow's forests must be planted today. An important part of your job will be to tell others how important trees are to the South's economy, and inspire them to plan, plant and nurture their forests as an investment for the future.

TOMORROW'S FOREST?

Yes, but what kind of forest will best be produced there?

THE CHALLENGE IS FOR: *superior trees/ faster-growing trees/ protection from insect, disease, fire/ removal from forest faster and more easily/ new techniques in nurseries/ new uses for trees/ broader research in university and industry laboratories/ lower costs/ legal rights/ communications/*

It's all there in that future forest.

This new day in forestry embraces computerized thinking.... scientific background in genetics, in nutrients, in climate.... and understanding of mechanization and assembly-line handling in the forest....knowledge of cost accounting and of legal rights....of experimentation and control in disease and insect danger.... of communications with many segments of the public.

WHAT INDUSTRY SAYS IS: *"Give us young men ready to search for the answers in the expanded forestry of tomorrow."*

BRUNSWICK PULP AND PAPER COMPANY

Brunswick, Georgia

Georgia-Pacific "shoots" for super trees

Super trees that grow to harvestable size much faster than average may be an answer to the increasing demand for timber... demand the U.S. Forest Service says may double by the year 2000.

Georgia-Pacific has developed a strain of young trees that shows promise of being rated in the "super" class. To get them, Georgia-Pacific foresters gathered scions from superior Douglas fir and grafted them to nursery trees. Then cone flowers were pollinated with a hypodermic needle. The resulting "super-seeds" were planted and have grown much faster than normal trees alongside.

Our Genetics Research Foresters are doing much more than just take care of the 35-billion board feet of timber we own or control. G-P is striving to change sustained yield to accelerated yield, growing more and better wood faster. This is an objective you would expect from The Growth Company.

For information on career possibilities with G-P, write us at 375 Park Avenue, New York, New York 10022; or P.O. Box 311, Portland, Oregon 97207.
