18th ANNUAL CONCLAVE 1975

THE SOUTHERN FORESTER 1975

Staff:

Chester Hunt
Steve Taylor
Barry Fox

From The President

Well another conclave has come and gone and we at Mississippi State enjoyed hosting the annual event and are glad it's over. I feel sure this 18th Annual Conclave will be remembered as the conclave with the most last minute corrections and set-ups, and, unfortunately, the most casualties. One good thing about this year's conclave was the weather. It was cool at night but beautiful during the day and rained only Sunday afternoon.

The competition was very close in all the events and more clubs participated. It was evident some serious practicing and hard work had been done and all teams had to hustle to stay in the running. This is great and I hope it continues in all future conclaves. Congratulations to all individuals and teams that participated in each event.

Georgia is the host of the next A.S.F.C. Conclave. I wish them luck in their preparations and much success in the 19th Annual Conclave. I hope they can learn from our mistakes and make next years conclave the best ever.

I would like to welcome Texas A&M into the association and wish them luck in their competition and in future dealings with other member clubs.

Thanks to each judge that helped in the conclave and a special word of appreciation to the conclave advisors. I would also like to thank each person that worked on the conclave, especially my fellow officers and committee members.

We at Mississippi State consider it a privilege to have hosted the 18th Annual A.S.F.C. Conclave and hope the conclaves grow bigger and better each year.

Bruce Wilson
Conclave President

ASFC OFFICERS

President	Bruce Wilson
Vice-President	Rollin Turnage
Treasurer	Glenn Hughes
Secretary	Emily Devine
Editor	Chester Hunt

For someone whose only previous experience with an ASFC Conclave was attendance at the 1968 event, the 16th Conclave at Mississippi State was quite an educational experience to me. Aside from the growth in numbers, longer hair, and the vastly improved sex ratio, several other changes bare mentioning. The level of competition in all events is quite impressive now, as is the degree of sophistication in rules, judges, and standards. School spirit and esprit de corps is perhaps more evident, and opportunities for getting to know forestry students from other states seem greater. All in all, a Conclave now is a much greater event than it was 15 years ago.

For us at Miasiasippi State, the Conclave was a challenge, a burden, and a pleasure. We're glad so many people came, and we hope everyone left with a few good memories and impressions. We feel fortunate that no one was seriously injured, and are thankful that no one was under the reviewing stand when it collapsed. We're pleased that the protests on judging weren't too numerous, and proud of the way in which our students, faculty, and support personnel handled the many crises and routine details.

As Dean of the host School, I'd like to congratulate not only the winners, but everyone who competed. I hope every participant and spectator learned a little and grew a lot from their experiences. I'd like to personally thank everyone who made the Conclave a success, particularly the Conclave officers and their faculty advisors. To our visitors, I say "We're glad you came - please come again".

R. Rodney Foil, Dean
School of Forest Resources
Mississippi State University

The following organizations and individuals deserve special thanks for their efforts in preparing for the 18th Conclave:

Industry

Forest Suppliers
Masonite
International Paper Company
Georgia Pacific
Hammermill
K. M. Distributing Company
Ben Meadows
St. Regis
Union Camp
Weyerhaeuser
American Can

Judges

David Smith - U. S. F. S.
Dene Enlow - Westvaco
Johnny McReynolds - Champion International
W. F. Miller - MSU
F. W. Taylor - MSU
Ralph Robertson - MSU
E. L. Prine - Consultant Forester
R. C. Parker - MSU
Jimmy Therrell - Consultant Forester
Randy Clements - Tennessee River Pulp and Paper
Jerry Johnson - Tennessee River Pulp and Paper
Jack Nutter - International Paper
Bill McKee - Weyerhaeuser
Randy Rice - Forest Owners
Jim Inkster - Forest Suppliers
J. R. Petty - Masonite
Gerald Clark - Union Camp
G. A. Hurst - MSU
Gene Avery - Texas A&M
J. R. Watson - MSU
Craig Hays - Noxubee Refuge
G. A. Chastain - Noxubee Refuge
Ron Honea - Consultant Forester
Kevin Nolan - Weyerhaeuser
Willie LeBlanc - International Paper
Ed Chaufty - Weyerhaeuser
Bynum Meeks - St. Regis
Chuck Myers - U. S. F. S.
Andy Bailey - Weyerhaeuser
Van Williams - Weyerhaeuser
Randy Toms - Tennessee Pulp and Paper
Max West, Billy Butler, Opie Moss, Larry Clanton, Jim Poe, Rayford Williams, Taylor Maddox - Mississippi Forestry Commission

Special thanks go to:

Daniel Glover - Oktibbeha County Extension Agent - use of the Agricultural Center
Army ROTC - Loan of tents
H. M. Barnes - Scoutmaster - Loan of tents
E. H. Wallington - Scoutmaster - Loan of tents
Lynn Cook and Department of Agricultural and Biological Engineering - Cant holders
Marvin Crowley and Forest Products Utilization Lab - Sawing cants
Maurice Mitchell, Howell Ivy, Tom Wallace, and James Berry - for an untold number of things.
Leslie Kostka - For drawings.
Bulova Sports Times Program and Montgomery Jewelers - Timers.

CLUB
-RUSAS

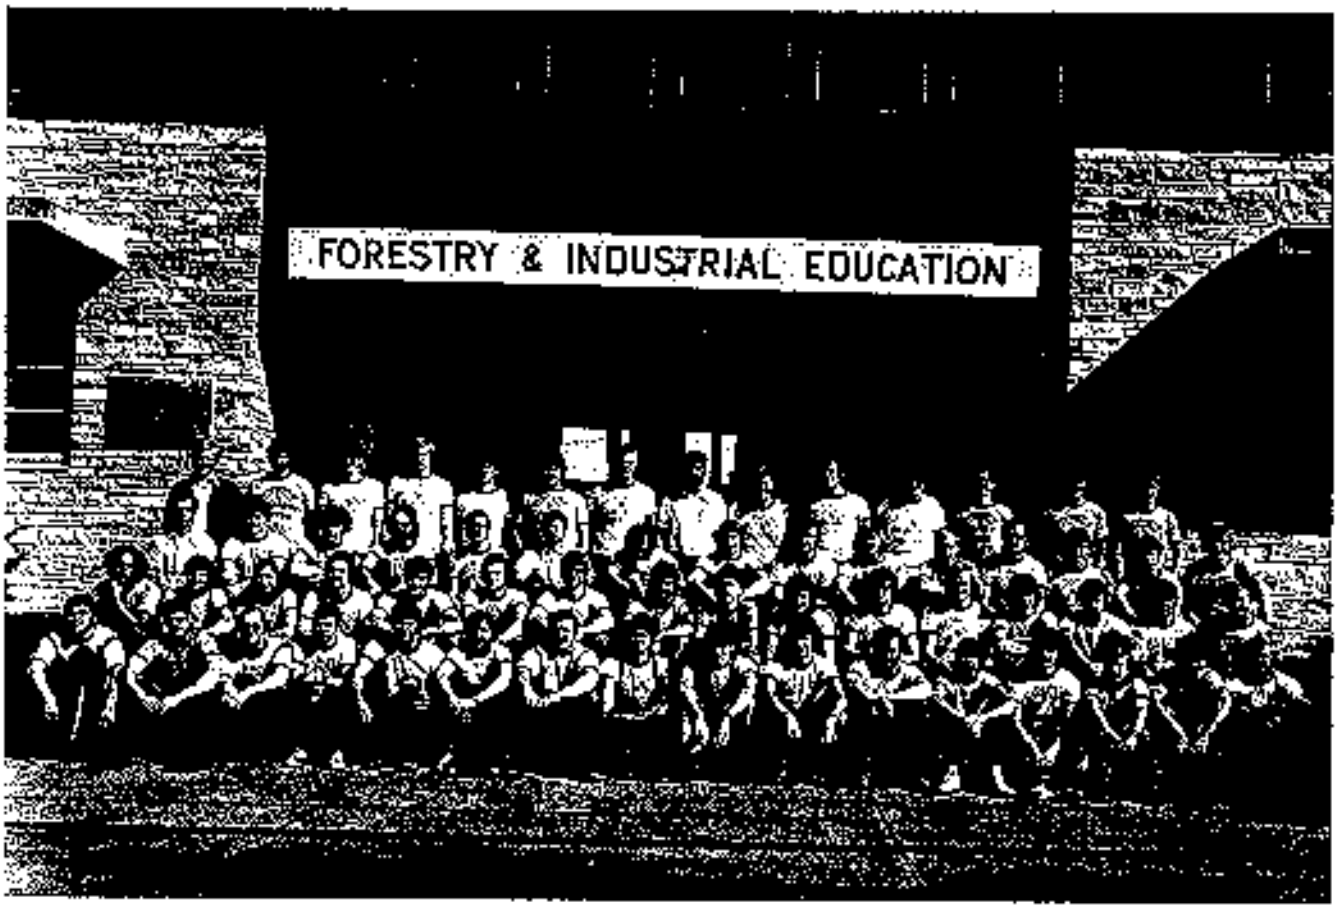

UNIVERSITY OF ARKANSAS
1st PLACE

The Forestry Club here at the University of Arkansas at Monticello is in the process of getting ready for the 18th annual Conclave at Mississippi State.

We just had our field day recently and it looks as if we are going to have a good year. We have about 25 freshmen coming up in the Forestry Club, and this puts the total membership to around 70.

The new freshmen really seem to feel enthusiastic about forestry, and its career opportunities as well as the more informal aspects while they are still in school, such as the ice cream socials and initiations into the club. The upperclassmen also seem to enjoy the extracurricular activities carried on by the club.

The U.A.M. Foresters have had several projects to raise money for the club's use. Last year we sponsored an equipment show which netted a sizeable amount. The equipment demonstrated at the show ranged from skidders and loaders to more mechanized equipment such as feller-bunchers, and automatic buckers.

Another project was the sponsoring of the Southeast Arkansas Junior Miss Pageant. We not only made some money, but we also had some fine scenery!

Our final project was the selling of programs at our home football games. This was a project which the new freshmen in the club were assigned to show how they were willing to work for the club's benefit. This was a very demanding and time consuming task.

We plan to top the year out with an Annual Awards Banquet which is held towards the end of the year. At the banquet, awards and scholarships are given to the deserving upperclassmen for accomplishments for participation and academic activities in the club.

Finally, we would like to say that we are looking forward to conclave this year and the participation in the events with the rest of the schools.

VIRGINIA POLYTECHNIC INSTITUTE
2nd PLACE

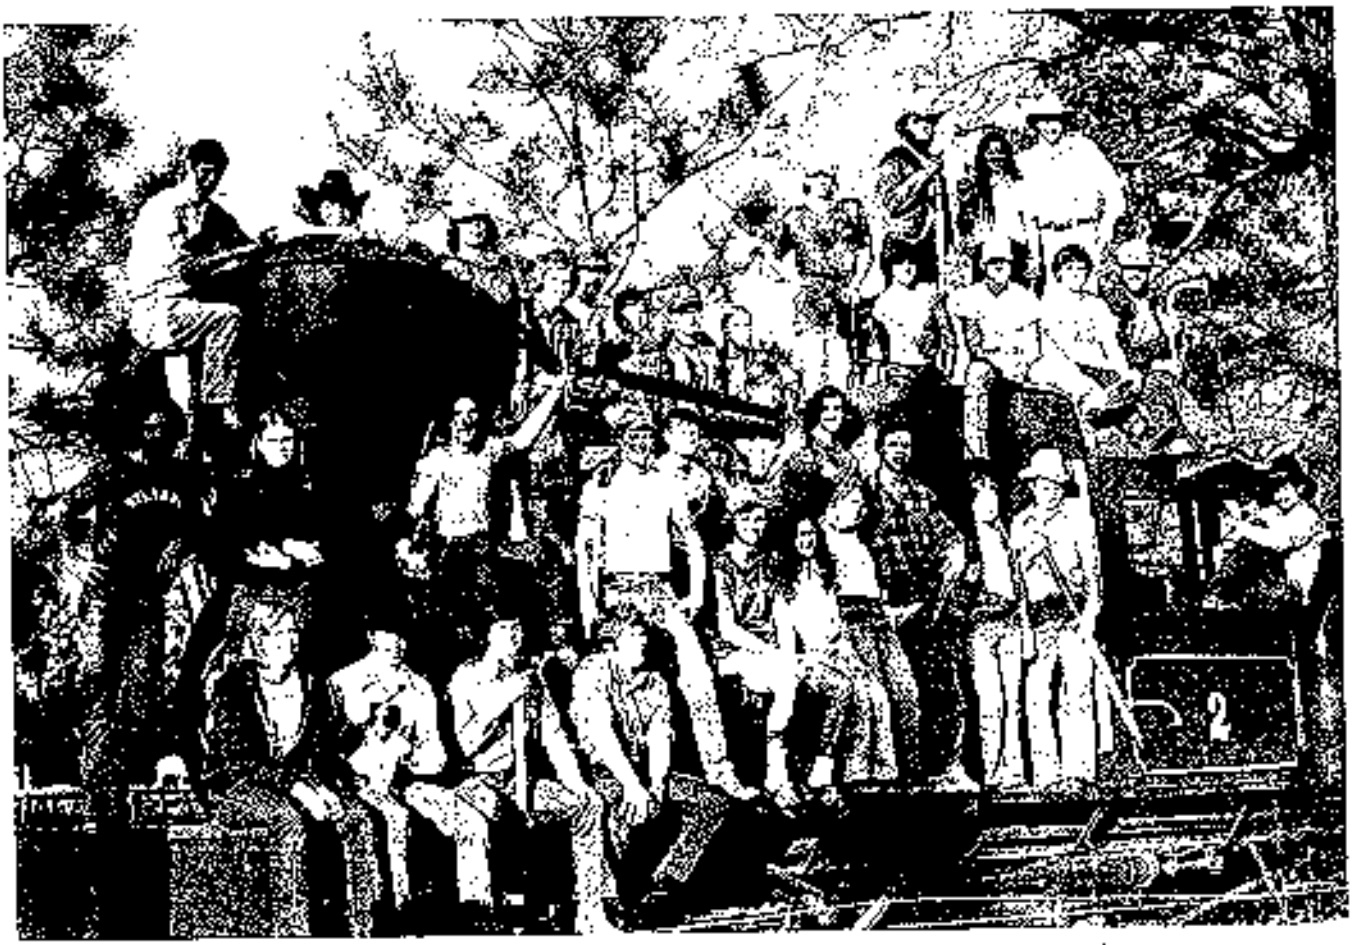

The V.P.I. Forestry Club, which presently has one-hundred and three (103) members, is the largest organization in the Division of Forestry and Wildlife. We attribute this large enrollment to the club's many and varied activities, our outstanding faculty advisor Dr. Richard B. Vasey, and the club's enthusiasm as a whole.

The main objectives of our Forestry Club are to promote academic excellence, to gain an understanding of and appreciation for Forestry as a curriculum and career, to give the members an opportunity to learn and practice certain forestry related activities that aren't encompassed in the classroom, and finally to foster brotherhood and friendship among its members.

Our annual activities commence with a Divisional picnic which provides the opportunity for undergraduates, graduates and faculty members to get to know one another. Fall quarter is high-lighted by initiation week for new club members, concluding with our traditional "Possum Hunt". The Club also sponsors a firewood sale each Fall to stock the residents of Blacksburg with wood for the long, cold winter. By Winter quarter we are well into practicing our events for Conclave, but still take time out for a foot-stomping, rip-roaring Timberbeast Dance, providing fun and entertainment for all. During Spring quarter the Club sponsors a seedling sale to help keep Virginia green. We also attend the Awards Banquet where many faculty members and students alike are awarded for their outstanding achievements and academic excellence in the fields of Forestry, Wildlife and Fisheries.

Spring also brings the event that many of us have been looking forward to all year—Conclave. Although we come with a competitive spirit, our main objective is to have a good time and enjoy the rare opportunity of getting together with three-hundred other foresters.

Our hearts and beer kegs will continue to be open to all!!!

STEPHEN F. AUSTIN
3rd PLACE

Our Sylvan Forestry Club of Stephen F. Austin State University is the oldest student organization on campus and the most functional group of students within the School of Forestry. The Club published The School of Forestry's yearbook, **The Texas Tally**, and the bimonthly newsletter for the School of Forestry, **The Knothole**.

The club sponsors two Intramural teams, SYLVAN's I and SYLVAN's II, which participates in intramural athletics at the University. In the Fall, we sponsor "Lumberjack Day," which is the Friday before homecoming. All student organizations are invited to enter events similiar to those at Conclave. These include bow-sawing, cross-cut sawing, speed power sewing, axe throwing, knife throwing, and fire fighting. We also took first place in the "Deball Day" activities against professional lumberjack of this EAST TEXAS community.

The weekends are filled with "SYLVAN" work projects throughout NACOGDOCHES. We emphasize difficult tree removal as a source of funds for financing our trip to Conclave at Mississippi State and other club projects. Every spring we hold our big field day, Parents Day. This year Parents Day is March 15, with over 1400 invitations sent to parents, alumni, teachers, and people associated to the School of Forestry. They tour the Forestry Building, visit with the faculty, look at slide presentations, listened to classroom lectures, and eat Bar-B-Que chicken, Texas style.

Our team at NCS was composed of rookie freshmen and sophomores. We've got a years seasoning under our belts, more experience. Things will be different this year.

NORTH CAROLINA STATE

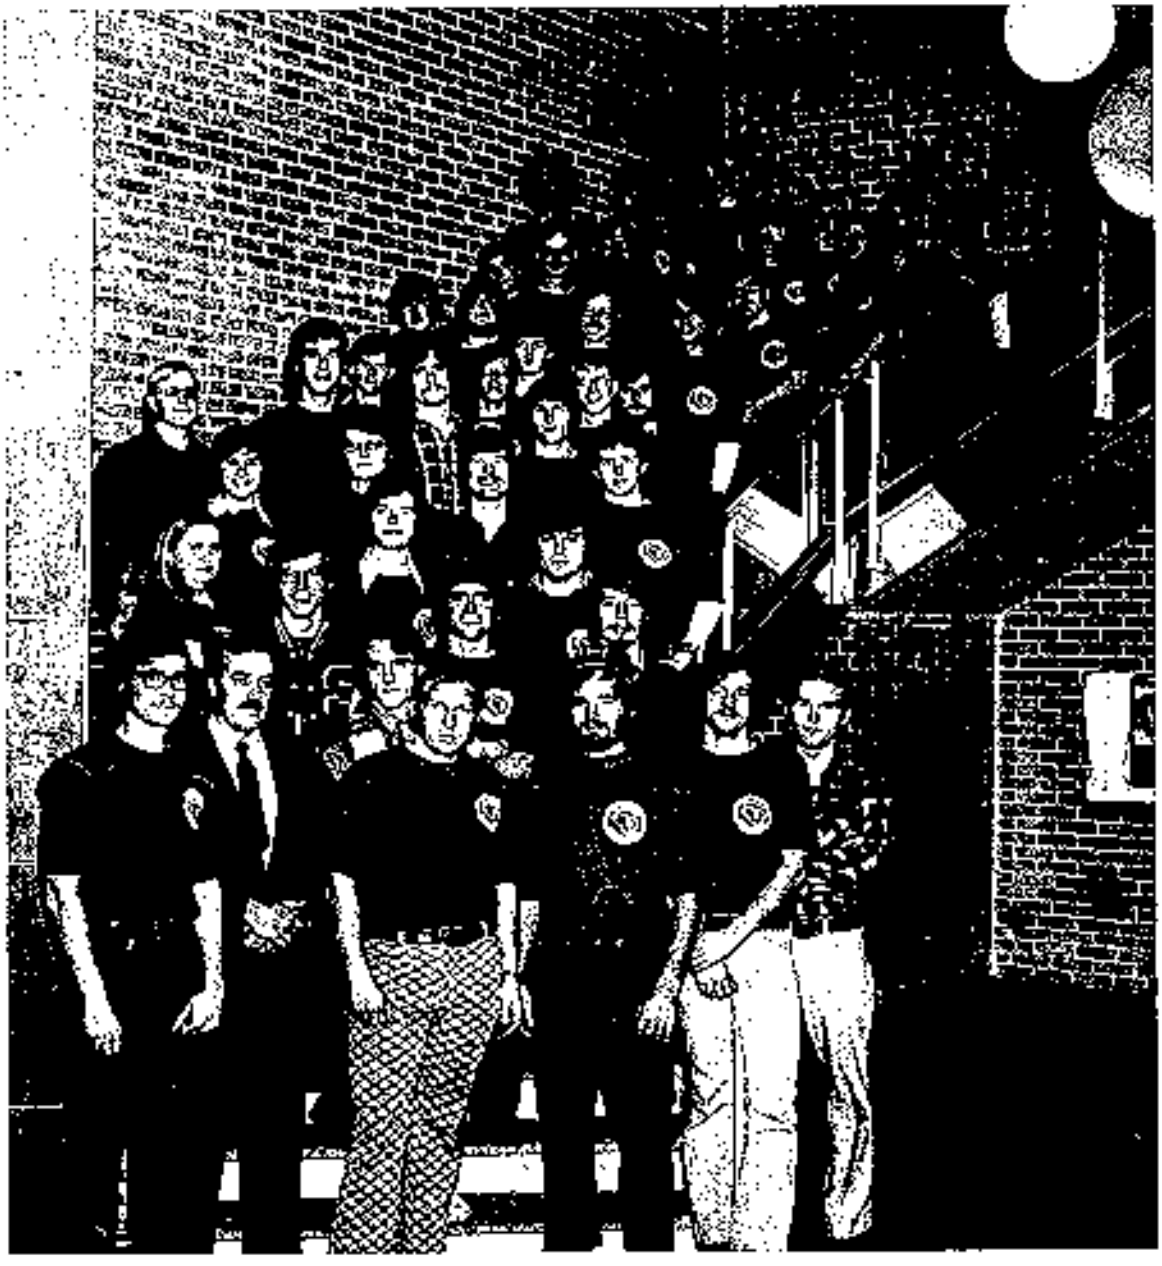

Fall 1974 brought all of us in the Forestry Club together again, fully recuperated from hosting the 17th Annual Conclave and eager to get on with the business at hand.

The first order of business this year was a Pig Pickin' for the benefit of the old members and for prospective new members. It was a great success as much food and many gallons of "refreshment" was consumed. We have also gained a group of "Gung-ho" underclassmen as a result.

With thoughts of this years Conclave spurring us on, work began on raising funds for the trip. As in the past, tree jobs here in Raleigh constitute our main source of revenue. However, this Spring we have added pulpwood salvage of Southern Pine Beetle infestations to our work and have found it to be an educational and rewarding experience.

Our annual Rolleo was held in late October with competition being held between the various classes. Events included all of those found at the Conclave (skilled) and everyone was able to try his or her favorite event. We consider the Rolleo to be a "tune-up" for the annual Conclave.

The Forestry Club meets bi-monthly and offers the student a chance to hear interesting speakers, meet good people and gain some good practical experience to supplement his or her education.

CLEMSON UNIVERSITY

Clemson's Forestry Club allows the student to explore and learn more about forestry while learning to work with others who have the same interests. We have guest lecturers and movies pertaining to the field. This year we are especially honored to have a forestry student from the University of San Palo, Brazil come and visit with us. It is our hope that we can all learn by exchanging different ideas and practices used in our countries.

Our club has continued to grow both in membership and in spirit. Everyone is working hard to assure a good showing at this years conclave.

We are at present selling fire wood and Christmas trees to cover our expenses. This year we tried selling corn dogs and cokes and framed pictures during our homecoming weekend. Selling both items was a big success and we believe that in the future this may become our major source of income.

We believe that the Forestry Club of Clemson University has given all its members a rewarding and fulfilling experience.

OKLAHOMA STATE UNIVERSITY

UNIVERSITY OF KENTUCKY

AUBURN UNIVERSITY

Last Ahpril, the Forestry Club held its annual Awards Banquet at the Heart of Auburn. The guest speaker for the evening was Don Murray, District Gov. of AAAAta. Toastmasters.

The Society of American Forester's Outstanding Senior Student Award was presented to Joseph Williams.

The club held its 1974 Spring party at Swann's Lake just off Wire Road. Several bar-be-qued chickens and a quantity of cold beverages were consumed. Swimming, volley ball, and horse-shoes were also enjoyed.

To raise money for the treasury, the club has engaged in the fence repair projects of Coosa and Barbour County's Research Forests. Additional income has been received from the local sale of firewood. Most of this money will be use to help cover some of the expenses involved with attending the 18th annual ASFC Conclave that will be held at Mississippi State University April 10th, 11th, and 12th.

The Forestry Club is also Auburn's Student Chapter of the Society of American Foresters. The 1974 - 1975 officers are:

Chairman	-	Mike Harmon
Vice-Chairman	-	Stanley Anderson
Secretary	-	William Till
Treasurer	-	Bill Burchfield

UNIVERSITY OF TENNESSEE

The Forestry Club at the University of Tennessee is presently building the largest and most enthusiastic membership seen by the club in many years. Comprised of forest management and wildlife and fisheries science majors, it involves them in both forestry-related and purely social activities and helps build a sense of friendship and respect between students and faculty members.

Activities this year included a "welcome back" Bonfire held at the beginning of fall quarter. Field Day, held in early October, gave all a chance to compete in Conclave events, tell stories from past Conclaves and drink lots of beer. Other fall events included hikes and scheduled club meetings.

Club members were given the opportunity to meet professionals from the field in December when we helped host the winter section meeting of the Society of American Forester's Kentucky-Tennessee Section.

Winter was highlighted by the annual Winter Banquet, where faculty and students were alternately roasted and toasted. Winter quarter also saw the election and induction of new officers.

Work projects, such as various landscaping jobs and the spring seedling sale, sustain the club financially and make possible such things as the "Knothole", the club paper, and the annual trip to Conclave.

IP - THE ACTION COMPANY

WE'VE TAKEN TALK FROM THE CONFERENCE ROOM AND PUT IT INTO ACTION IN THE WOODS

Many conferences have been held on the urgent need to increase timber production on privately owned lands. The report on the South's Third Forest emphasizes the important role you, the private landowner, occupy in this program to insure future supplies of timber.

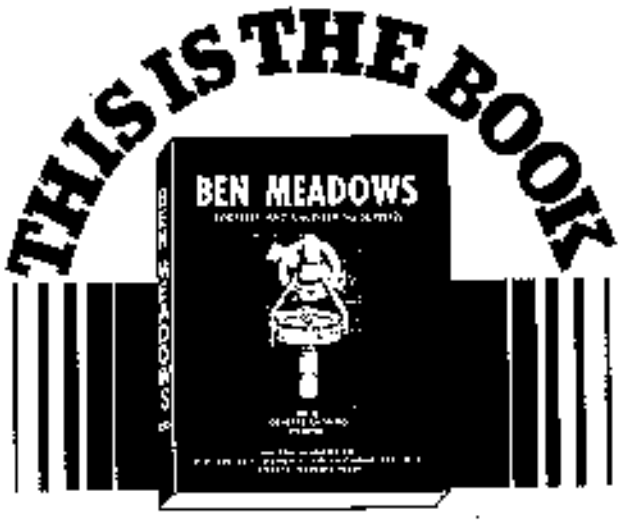

At International Paper Company, the time for talk has passed. IP is taking action — action by providing you with professional forest management advice to increase your forest productivity.

Through its Landowner Assistance Program (LAP), International Paper's professional foresters advise you on the best forest and wildlife management plans to meet your individual requirements.

In addition, IP will help provide site preparation, planting and other required services at cost. The company also guarantees a market for any timber cut, based on market conditions at harvest.

For more information on our Landowner Assistance Program, contact any IP forester or write to International Paper Company, Woodlands Department, P.O. Box 2328, Mobile, Alabama 36601.

INTERNATIONAL PAPER COMPANY

TO GO BUY

All the tools of the trade to help make your job easier, faster, and more efficient. A reliable source for nearly 20 years. Selection...quality...fast service anywhere on the continent... all at a fair price... and we stand behind everything we sell. You'll find the right answer in our catalog...over 5,000 tools for the professional.

YOU'RE RIGHT IF YOU THINK

. . . folks are going to keep using newspapers, magazines, books, boxes, bags, labels, cartons, cups, posters, plates, paneling, plywood, lumber, poles, notebooks, stationary, tickets, tags, scratch pads, wallpaper, calendars, tire wrap, tape and thousands of other products that are made from trees.

That's why growing trees is a good investment!

Talk to the dealer at the St. Regis woodyard in your area.

FORESTRY AND TIMBERLANDS DIVISION ST REGIS

George Bledsoe,
region forest engineer

Tom Terry,
forest scientist

Lamar Canterou,
land and timber manager

Our High Yield Forestry depends on people!

Forests are one of the nation's renewable resources.

With every man, woman and child using the equivalent of a 100-foot tree every year — for building materials, paper and packaging — it takes dedicated people to make sure our forest resource is keeping pace.

In our High Yield Forestry, our people are involved in research; land preparation; forest management; protection from insects, disease and fire; and harvesting and manufacturing. Concern for wildlife and forest recreation are important too.

And our people are coming up with better ways to harvest the wood fiber and use it for new products, so our renewable resource goes further than before.

Weyerhaeuser

The Tree Growing Company

Cut Wood, Not Legs

Chain saw users now have a proven way to protect their legs against chain saw accidents.

Leg-hugging

TIMBER CHAPS

(also referred to as Chain Saw Chaps) are made of four layers of ballistic nylon quilted between two outer layers of heavy cotton duck. A 3-inch strip of heavy-duty nylon webbing is stitched inside down the center front of each leg to provide extra protection.

The straps that fasten TIMBER CHAPS to wearer's legs are double-stitched to the CHAPS, are adjustable for length and have snap fasteners that attach to D-rings.

Woven cotton web belt supports chaps at the waist, is adjustable for size, opens and closes with a steel-insert buckle.

For best protection, TIMBER CHAPS should cover the wearer's front from waist to below the calf of his leg.

Four lengths are offered. Write for a brochure detailing specifications and prices.

IMAGINATION IN MANUFACTURING. SEVENTH IN A SERIES.

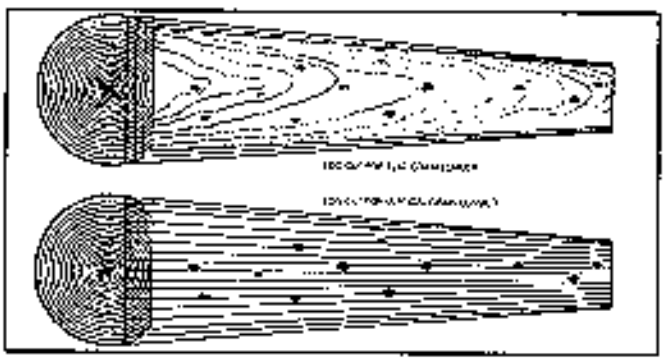

Pine lumber: how we cut it does make a difference.

Traditionally, pine lumber has been manufactured in flat grain boards. Imagine you're looking at the end of a board. In flat grain lumber, the grain runs parallel to the length of the board. But flat grain pine poses several problems in remanufacture. So G-P decided to produce vertical grain pine—the grain running more or less perpendicular to the length of a board when viewed from the end. What happened? Our vertical grain pine is proving easier to work, better looking, less wasteful—more valuable in every way than flat grain pine.

The prime objective in manufacturing pine lumber is to obtain boards of high quality. These boards are remanufactured into window and door sashes, doors and door jambs, furniture, cabinets and other "finish" products.

Flat grain pine which for years had been used for these products has several disadvantages. It is expensive to cut. It develops many narrow width boards, when remanufactured. And a great deal of wood is lost in sawdust. We believed that the vertical grain concept would result in more high quality lumber. And less waste. That vertical grain

lumber would not check or warp as much as flat grain in kiln drying. That vertical grain would machine better with less raised grain and chipping. That vertical grain lumber would present a better appearance when finger jointed. We were right on all counts.

Since we first started manufacturing it, customer demand for 1⅝" x 4¹¾₁₆" vertical grain pine has increased dramatically. Even during the recession years of 1969-70, demand remained firm. What's more, we're using vertical grain pine in our own remanufacturing plants.

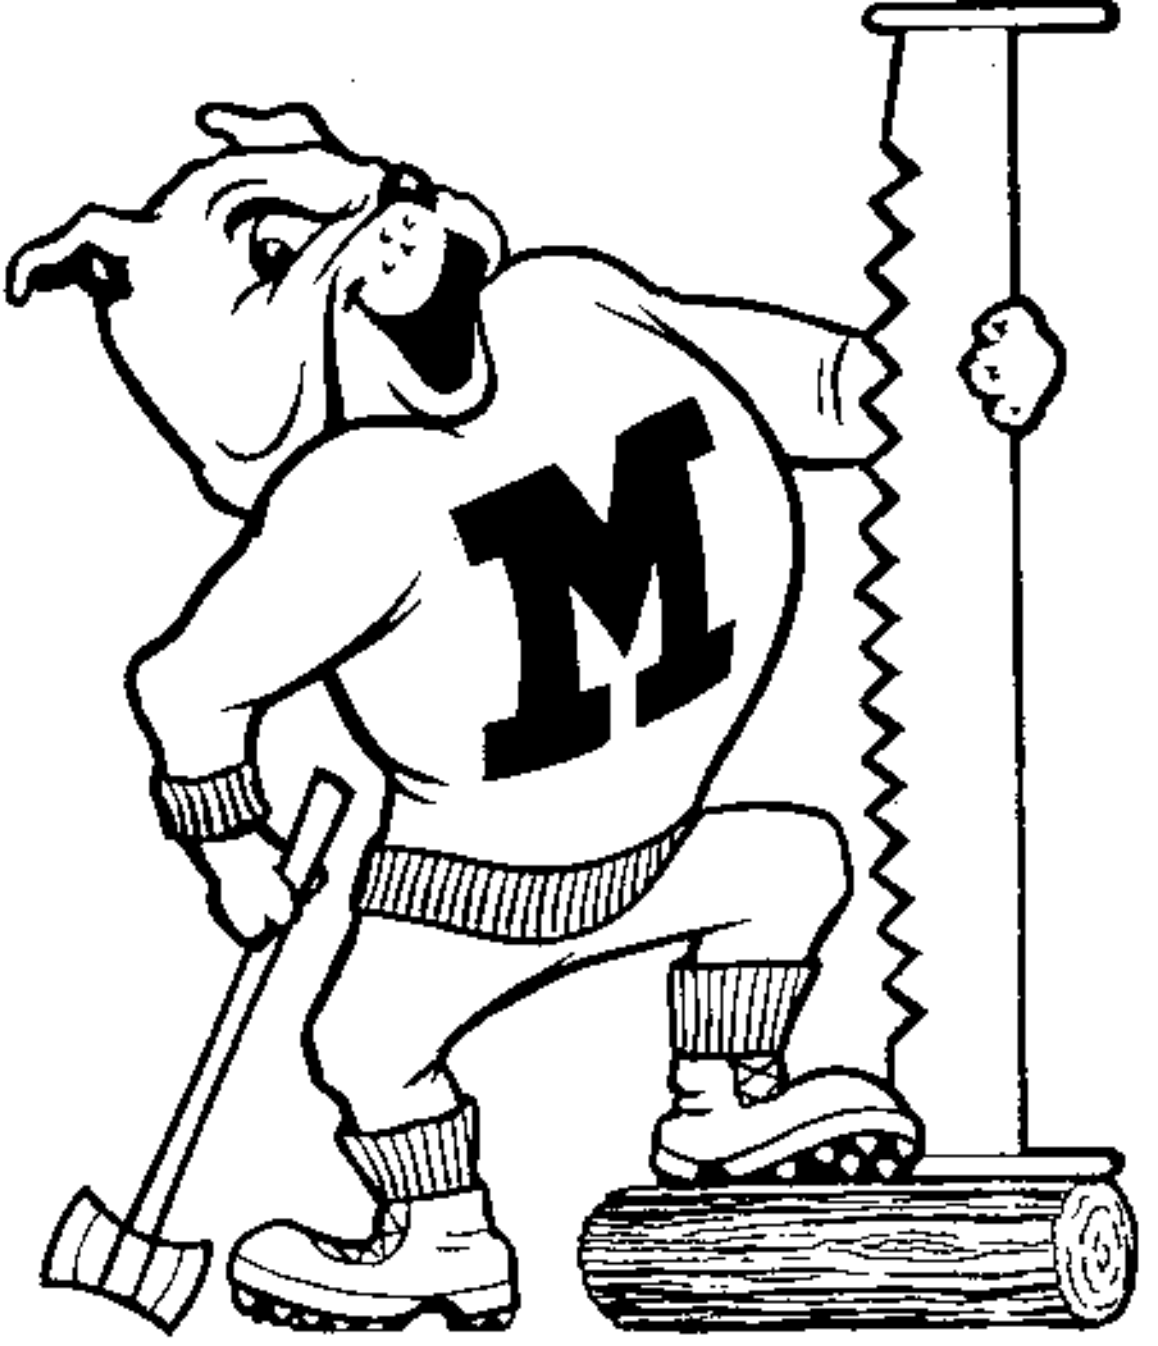

When we first explored the vertical grain concept, old hands in the pine industry regarded us with a jaundiced eye. Some even said "It couldn't be done." But we had the imagination to ask "Why not?"

This is another way imagination pays for G-P. And for you.

MISS. STATE UNIVERSITY FORESTRY ALUMNI

MINUTES OF THE 18TH A.S.F.C.
BUSINESS MEETING

The business meeting was called to order by A.S.F.C. President Bruce Wilson, at 4:40 p.m., April 12, 1975 Roll was called.

Constitution Changes

A motion was made to change the following under Section II:

Fire Fighting - "S2" was changed to the following: Each contestant will be given a water pistol which can be refilled.

Cants - A motion was made and carried that practice cuts will be allowed on contest cants but can't overlap actual cut on competition.

A motion was made and carried that all cants be kept green by soaking with water as soon as possible (preferably two or three days after cutting).

Archery - A motion by the University of Tennessee was made that the following would be added as a rule. "R5" One half of the contestants shoot at one time on two or more targets.

Pole Felling - VPI made the motion that the word "hand" be deleted from rule "P3" and left as just "axe". The motion was carried.

Timber Estimation - The motion was made and carried that rule "5" be changed to read: A duplicate of the volume tables used by the judges and a map to determine the true volume must be given to each contestant two weeks prior to Conclave.

Another rule was added and shall read as follows: Volume table parameters consist of height and dbh. Height will be left up to the host school, either merchantable or total height.

Air Photo - A motion was made and carried that Georgia draw suggestions from the other clubs and draw up a set of rules for Photo. Also, that Photo be on probation at least one other year.

Wildlife - A motion that Wildlife be discontinued was defeated.

A motion that common names from a standardized book, picked by Georgia, be used was made and carried.

The Wildlife test will use Mammal I.D. and Bird I.D.

Also Wildlife will be on probation at least one more year.

A motion was made and carried that Texas A & M University be allowed into the Association.

Larry Doyle asked the Association if they would like to participate in an inter-regional Conclave.

Meeting adjourned at 6:00 p.m.

Respectfully submitted,

Emily M. Devin
Conclave Secretary

ARTICLE VII. PUBLICATIONS.

A. Title. The title of the publication shall be **The Southern Forester.**
B. The constitution shall be published annually in the publication of **The Southern Forester.**
C. The past host club shall publish the ASFC periodical within one month after the Annual Conclave.
D. Securing items for publications.
   1. The articles shall be edited by the member club and submitted to the host club.
   2. Article to be printed in the current issue must be in the hands of the publishing editor not later than the time of the Annual Conclave.
E. Distribution. Each conclave contestant will receive one (1) copy of **The Southern Forester.** A minimum of twenty (20) copies will be sent to participating member clubs.
F. Proceedings of the Conclave. Proceedings of each Annual Conclave, including minutes of the business meetings, will be published by the past host club in the annual publication.

ARTICLE VIII. CONTESTS.

A. Competitive events will be held at each Annual Conclave.
B. There will be 18 standard competitive contests at each Annual Conclave.
   1. Standard events:
      a. Dendrology
      b. Compass and pacing
      c. Timber estimation
      d. D.B.H. estimation
      e. Pole classification
      f. Wood Technology
      g. Chain throwing
      h. Axe throwing
      i. Knife throwing
      j. Pole climbing
      k. Bow sawing
      l. Log rolling
      m. Cross-cut sawing
      n. Log chipping
      o. Bait casting
      p. Pole felling
      q. Log birling
      r. Archery
   2. Scoring will be based on the number of schools participating in the Conclave. First place winners in field events will be awarded a number of points equal to the total number of schools participating. Second place winners receive 1 less point than the total number of participating schools, third place winners will receive 2 less points than the total number of participating schools, and so on with each succeeding participant who satisfactorily completes the event receiving one or more points. First place winners in technical events will be awarded a number of points equal to the number of participating schools multiplied by 1.5. Second place winners will receive 1.5 points less than the total number of points awarded first place winners, third place winners will receive 3 points less than the total number of points awarded first place winners and so on with each succeeding participant who satisfactorily completes the event receiving 1.5 or more points.
C. In addition to the 18 standard events established in Section B, there may be a maximum of five (5) contests at the descretion of the host club provided that these contests be specified with rules and explanations at the preceding Annual Conclave. Requests for omission of any standard contests will be made at the preceding Annual Conclave with a two-third (2/3) majority vote necessary for approval.
D. The standard set of rules will be made and approved by the voting members of the ASFC.

E. Selection of judges of all contests will be lest to the discretion of the host club except in the event the host club participates; then judging will not be done by members of the host club.

F. Only students presently enrolled in school or department of forestry will be eligible to enter ASFC events. In the case the University of Florida and the University of the South, freshmen and sophomore students presently enrolled and who have declared an intention of enrolling in the forestry department or school at the beginning of their junior year will also be eligible for participation.

G. The contestant must meet the same requirements as are specified for individual participation in school athletics. The contestant must be an undergraduate student and he must meet his own schools requirements both scholastically and in credit for athletic participation.

H. In the event that the Conclave delegation or spectators from any member school intentionally or otherwise interfere with the progress of any event in the Conclave, that delegation shall forfeit the rights to score any points in that event.

I. VPI is hereby considered a member of the ASFC by vote taken on May 4, 1963.

J. A table of random members will be used to choose order of team's participating in each event. This order will be sent to each participation school before the Conclave.

K. Contest protests must be filed with a committee of staff members within fifteen (15) minutes of the individual infraction. The protest committee shall be composed of three (3) staff members of schools within the Association. They shall be appointed by the host school and cannot serve as judge in any event.

L. Contestants in the log chopping event must wear hard-toed footwear. The use of shin gards is left to the individual's discretion.

M. Tennessee is hereby considered a member of the ASFC by unanimous vote taken on April 8, 1967.

N. The University of the South is hereby no longer considered a member of the ASFC after the submission of a letter of resignation on April 12, 1969.

O. The University of Kentucky is hereby considered a member of the ASFC by a vote taken on March 29, 1974.

P. Texas A & M University is hereby considered a member of the ASFC by a vote taken on April 12, 1975.
