April 28,1982

Dear Foresters of the Southland:

Conclave 1982 was number 25, marking twenty five years of existence for the A.S.F.C. I hope it was as enjoyable for you as it was for us.

Since the inception of the A.S.F.C., Conclave has changed in scope and magnitude. The events have increased in quality, number, and degree of competition. The physical size of Conclave has also increased dramatically. Cost of materials, food, site selection and preparation have increased to the point where it requires a better part, if not all of a club's resources to host Conclave.

Conclave has become the sole vehicle for the accomplishment of the A.S.F.C. objectives as stated in the constitution. Certainly it is appropriate in this anniversary year to check our course and determine how well these objectives are being met. I feel for the most part, the objectives are well met during the course of Conclave: however, each member shares the obligation to make this judgment personally and let his or her opinion be known.

The future success and growth of the A.S.F.C. depends on your involvement. Who knows, in a few years the Southern Forester may list Conclave as only one of the A.S.F.C. activities instead of the only activity.

The Okies offer a word of encouragement to the University of Florida Foresters and to all future hosts of the A.S.F.C. Conclave. Perhaps the most benefit derived from the annual Conclave is had by you who are most actively involved in the preparation and execution of this event. The experience you will have meeting and working with a variety of people in industry and government service will benefit you greatly. Coordination, cooperation, and planning will take on a new meaning. The Okies of '82 can vouch for this. When all is said and done, your efforts will be worthwhile many times over.

So good luck Gators!

We enjoyed the South that was brought to Oklahoma. We hope you enjoyed the part of the South!

Sincerely,

Robert M. Miller

April 27, 1982

Fellow Foresters & Friends:

With twenty competitive events, torrential rainstorms, boot-stompin' country music, good barbeque, lots of "spirits" and a long ride back home now behind us all, it is clear that the 25th Annual A.S.F.C. Conclave was a success. In the midst of the usual Murphy's Law-style weather that accompanies Conclave year after year, the spirit, fellowship, and camaraderie displayed at this "Silver Anniversary Conclave" was as strong as ever! The competition was as keen and intense as expected, always accompanied by an atmosphere of sportsmanship and cooperation.

Congratulations are to be extended again to Virginia Tech, not only for taking first place overall in the events, but for being selected for the Sportsmanship Award for Conclave '82. The "Hokie spirit" was evident throughout the weekend! I commend all competitors and attendees from all the schools for their enthusiasm and "undampened" high spirits at Conclave.

Hopefully, all of you left Beaver's Bend with a nice perspective of Oklahoma--its people, its country, and its hospitality. We love our hills, forests, plains, and mesas, and we do hope that you will come back to visit us again soon and get to know Oklahoma even better--and get into that cow-boy spirit!

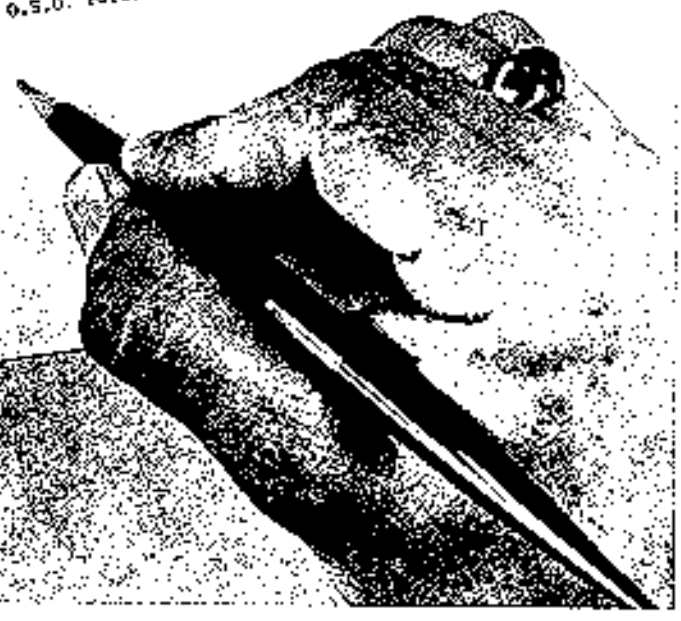

Here's hoping that the next twenty-five Conclaves are as good as the first twenty-five!

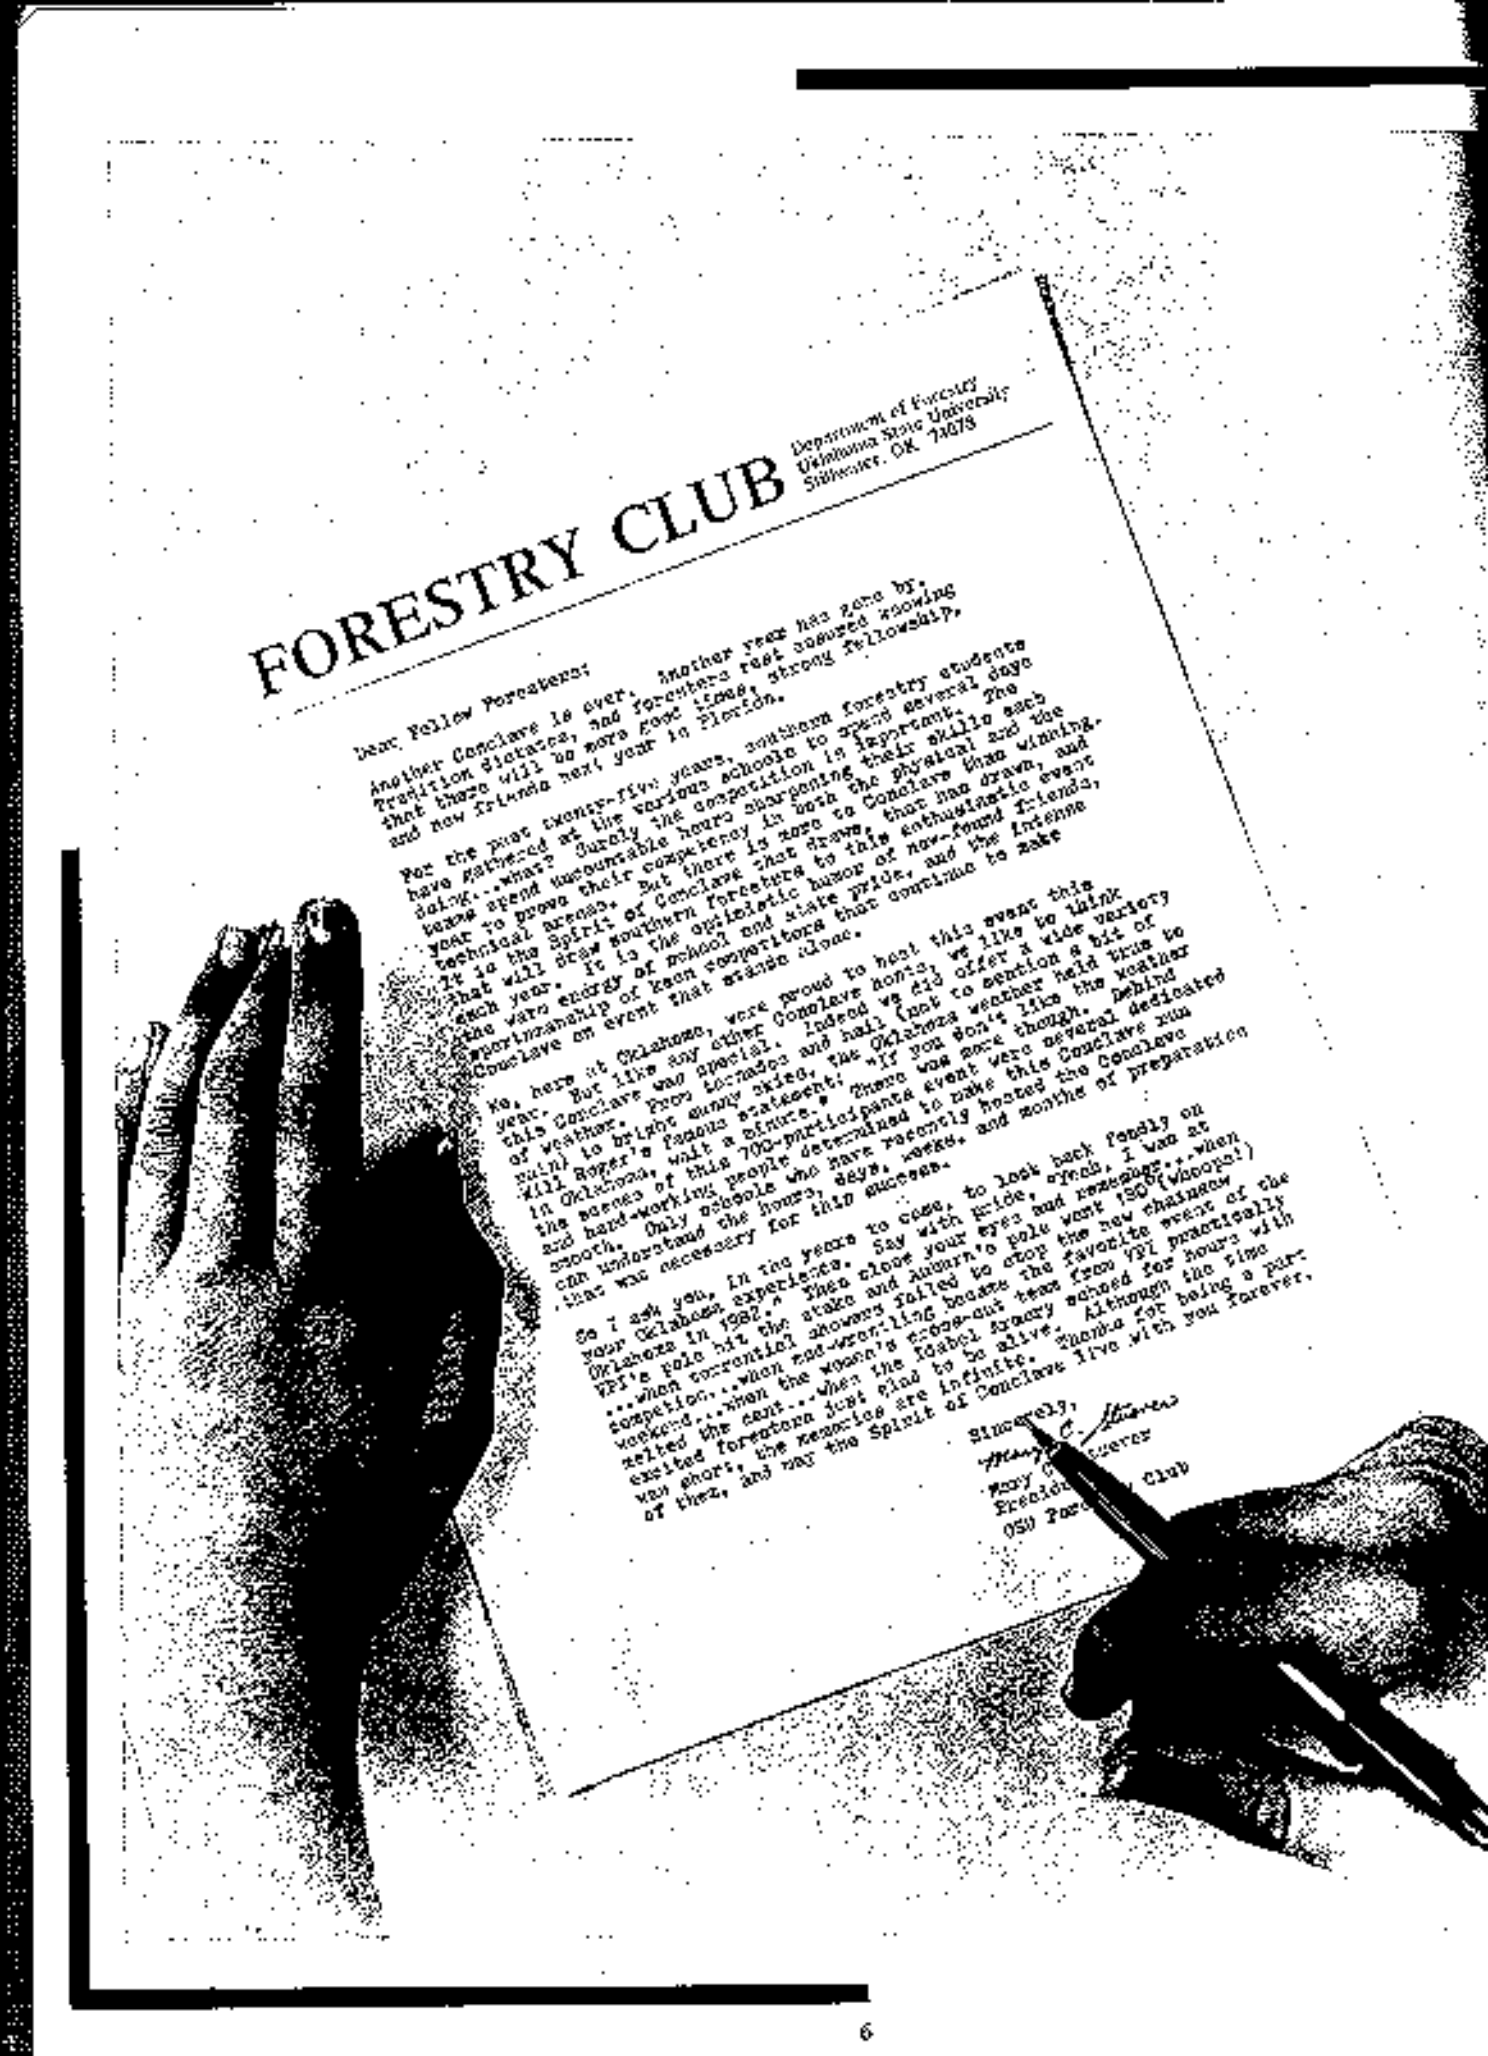

Sincerely,

Tom Kuzmic

Dear Fellow Foresters:

Another Conclave is over. Another year has gone by. Tradition distance, and foresters rest assured knowing that there will be more good times, strong fellowship, and new friends next year in Florida.

For the past twenty-five years, southern forestry students have gathered at the various schools to spend several days doing...what? Surely the competition is important. The teams spend uncountable hours sharpening their skills each year to prove their competency in both the physical and the technical arenas. But there is more to Conclave than winning. It is the Spirit of Conclave that draws, and the Spirit of Conclave that has drawn, and will draw southern foresters to this enthusiastic event each year. It is the athletic pride, and the intense sportsmanship of keen competitors that continue to make Conclave an event that arouses class.

No, here at Oklahoma, were proud to host this event this year. But like any other Conclave host, we like to think this Conclave was special. Indeed we did offer a wide variety of weather. From tornados and hail (not to mention a bit of rain) to bright sunny skies, the Oklahoma weather held true to Will Roger's famous statement, "If you don't like the weather in Oklahoma, wait a minute." There was more though. Behind the scenes of this 700-participants event were several dedicated and hard-working people determined to make this Conclave run smooth. Only people who have recently hosted the Conclave can understand the hours, days, weeks, and months of preparation that was necessary for this success.

So I ask you, in the years to come, to look back fondly on your Oklahoma experience. Say with pride, often, I was at OklaHoma in 1982." Then close your eyes and remember...when VPI's pole hit the stake and Auburn's pole went 150(Whoopa!) ...when convention showers failed to stop the new chainsaw competition...when rad-wearing beats the favorite event of the weekend...when the wagon's cross-cut team from VPI practically reited the cart...when the fiddle frenzy echoed for hours with excited foresters just glad to be alive. Although the time was short, the memories are infinite. Thanks for being a part of them, and may the Spirit of Conclave live with you forever.

Sincerely,

Mary C. Stevens

OSU Forestry

Down Through The Years...

The year was 1958 when eight Southern Forestry Schools converged on Camp Rock Eagle, Georgia for the first annual Conclave. The University of Georgia initiated the concept of Conclave.

The primary objective behind this event was to benefit the forestry clubs through an interchange of ideas and stimulation of good fellowship among the club members. Other objectives were to establish and maintain unity of purpose and action within and among the southern forestry clubs, a higher standard of professional ethics, and closer cooperation and relationship between students and professional foresters.

More than 150 students attended from the University of Florida, Mississippi State College, Alabama Polytechnic Institute, North Carolina State, Clemson University, University of Georgia, Louisiana State University and Stephen F. Austin. Since 1958 the number of students and faculty attending Conclave has risen to over 700 and seven more schools have joined the ASFC. Included in these are the University of Arkansas, University of Kentucky, Oklahoma State University, Louisiana Tech. University, University of Tennessee, Virginia Tech., and Texas A&M.

Hosting a Conclave is not easy. Though Georgia hosted the first two, it was later established that schools would bid on having the honor of hosting Conclave. The school with the most money would win. In the last 25 years Mississippi and Tennessee have hosted Conclave once; Alabama, North Carolina, Stephen F. Austin, and Virginia, twice; Oklahoma, Clemson, and Arkansas, three times; and Georgia, four times. Recently a host rotation list has been established as a fair and equal way of choosing who will host Conclave.

In 1960 the first Constitution was voted on and unanimously passed. It was also decided to put together a yearly publication with the intent of keeping a running history of Conclave. Several names were considered such as "The Blue Ox", "The Lumber Jack" and "The Dixie Forester". "The Southern Forester" submitted by Clemson was finally chosen as the title.

In 1962 rivalry between the schools began to surface with comments such as "Georgia enrolls professionals the semester before the Conclave". This was brought on by Georgia winning four out of five Conclaves. In the past 25 years the University of Arkansas has placed in the top three, 20 times while North Carolina State University and the University of Georgia have finished in the top three, 13 and 10 times respectively.

Some events have been changed since that first Conclave in 1958. The most prevalent was the demise of baitcasting and the addition of womens crosscut, photogrammetry and wildlife. Along with these changes have come a multitude of non-point events ranging from scoot loading, greased pole climb, Jack and Jill crosscut to tobacco spit and the infamous canoe race.

Womens faces began to appear in "The Southern Forester" as far back as 1969. With the exclusion of womens crosscut no event has been altered or made unattainable for women. Just another show of fellowship among foresters!

Though a lot has changed in the past 25 years when dues were only $10 instead of $200 and the price of hosting a Conclave was only $200 as opposed to $19,000, there is still rivalry present between the schools. We at Oklahoma State University feel that the 25th annual ASFC Conclave captured the original concepts of Conclave, and we hope they are maintained in the years to come.

It doesn't look like a soft wood

Auburn University

The Auburn Student Chapter of the Society of American Foresters is an active club on campus. Yearly activities include firewood sales, and the Alabama Forestry Festival. Our activities are not all work oriented, we have our annual awards banquet in February, attend the state , sectional and national SAF meetings, plus hold several parties in the year at the luxurious "Conway's Pig Farm". Mini conclaves are held each quarter in preparation for the ASFC Conclave in the spring. The club's boxing team earned second place in the campus boxing tournament last year.

The Auburn Forestry Club promotes high standards for foresters. We believe in helping one another and combine efforts for the good of the club and the department. We have all grown close through these standards and activities. We are all proud to say we are Auburn Foresters. WAR EAGLE!

Clemson University

CLEMSON FORESTRY

Socializing was one of the main orders of business for the Clemson Forestry Club this year. The year was started off by bolstering club membership with a freshman beach party. During the year, eight practice conclaves were held by the club including one held jointly with Georgia to give the two teams a chance to compare skills. The forestry club also had a hamburger fry and dance with the School of Parks and Recreation , a year end banquet with Xi Sigma Pi and a year end pig roast for anyone who wanted to come.

To raise money for club activities, Clemson foresters sell firewood and Christmas trees. During Homecoming, the Forestry Club feeds the hungry masses by selling corndogs to people working on floats and displays. A Jock-Lot sale topped off the club treasury this year and also helped to clean out a few faculty garages.

Louisiana State University

LSU

The Louisiana State University Forestry Club Made their presence known at Conclave '02 this year with several strategic wins. The LSU group was well represented by the team of Dupree and Lee who took the number one spot in Log Rolling. Dean Simon and Phillip Morrison received first place honors in the Wildlife competition. Albert Meier stold second place in Pole Pelling with a stake driving 0.0' deviation. Not to be outdone on the technical end of the competition, Susan Eggen scored second place in the Photogrammetry competition.

Louisiana Tech

UISIANA TECH FORESTRY

The Louisiana Tech Foresters have had a busy year. Students participated in firewood sales during the fall and tree planting in the winter to earn money for the 25th Annual Conclave. The year has not been all work though, we have had several parties to lighten our spirits. After this year's Conclave, Tech is planning to put on a banquet to end the school year.

Mississippi State

The Forestry Club at Mississippi State University has been moving right along this year. The MSU annual Forestry Smoker started things off with a bang and a boost in the fall by giving potential members a chance to get acquainted with some of the "oldtimers" in the club.

Responding to Mississippi States' need for the expertise of true pyromaniacs, the Forestry Club also stoked up the annual Football Homecoming fire, a tradition the club has upheld for years.

To get in shape for Conclave and to give members a chance to show off their forestry related skills, the club held a fall and spring Field Day .

Funding of club activities comes from the sale of firewood and Christmas trees.

The MSU Forestry Club will never stop in their movement for first place as "top dog" both on campus and in the ASFC.

North Carolina State

The NCSU Forestry Club sponsors two main events in the Fall, an annual Pig-Pickin' and the Rollco, which is an interclub event consisting of a series of logging competitions. During Spring semester, the club sponsors an annual Logger's Brawl Dance in addition to its involvement with Conclave. Weekly tree jobs are held on Saturdays as our main means of raising money for the club.

Oklahoma State University

This has been a very busy and exciting year for the Oklahoma State Forestry Club. The privilege of hosting the 25th Annual ASFC Conclave was taken seriouly by all the club members. Many club members contributed hours of time in weekly "monday night conclave meetings", not to mention the weekends and spring break spent down in S.E. Oklahoma. The strong support for Conclave from the Forestry Department inspired many Okie Foresters to pitch in and get involved. We were a proud crew there Saturday evening in the Idabel Armory , and we really appreciated the wild enthusiasm you ,the members of the ASFC showed us that night.

Spring saw a few new events. A club backpacking trip to Robbers Cave State Park was attended by members representing four summer camps! The forestry club also created campus-wide activites by sponsoring the first annual Scavenger Hunt. This event, designed as a fund raiser to aid with the cost of Conclave, brought city-wide exposure for the club and was a lot of fun for all participants involved. Other club fund raisers included firewood sales, football concessions and an aluminum can recycling campaign which cushioned the club treasury. We at Oklahoma State say thanks to the Schools of the South for the learning experience that Conclave has provided!

Stephen F. Austin

THE SYLVANS CLUB

The Stephen F. Austin State University Forestry Club is dedicated to promoting fellowship among forestry students, increasing their knowledge in forestry practices, and developing competent and aggressive forestry leaders.

Since its modest beginning in the fall of 1946, the club has grown to become one of the most outstanding social and professional clubs on campus. The completion of a log cabin in 1967 has bolstered this growth and now serves as a meeting place for picnics, parties and various club functions. The club now has an active membership of 63 students and two faculty.

The Sylvans Club is active in many worthwile events both on campus and in the surrounding community. The club sponsors the annual SFA Lumberjack Day in conjunction with Homecoming; overseas construction and presentation of the school of forestry's Homecoming float; hosts Forestry parents day and presents lumberjack skill demonstrations at various county fairs and towns forestry days throughout east Texas.

Texas A & M

TEXAS AGGIE FORESTERS

The Texas Aggies are proud of the year they have had under the leadership of president Dan McKenny. The year began with their annual freshman smoker two weeks into school. The club outreach program continued on from there with a booth at career day and an exhibition forestry competition in St. Augustine, Texas with members of the SFA Forestry Club. This field day demonstrated traditional conclave style competition and was complete with informational field trips to nearby forest industries.

A spring Skidadoo was held in College Station to warm up for conclave and select the clubs competitors.

$1200 was earned by the club this year from tree trimming, a new venture that is working out quite well. The aggie forestry club also made money selling firewood and Christmas trees.

University of Arkansas

The '81-'82 school year has been a full and exciting year here in Arkansas. The induction of several new members has greatly strengthened our club. Tree planting has provided most of this year's revenue along with football program sales. In march of this year our club had the opportunity to entertain forestry students from Purdue who were visiting the area. All these activities including practice for Conclave events, have left us with little time for school work but just as in every year it all seems to get done. We've already started getting ready for next year's conclave in Florida so all we have left to say is, Boll Weevil, RRRRRR.

University of Florida

UNIVERSITY OF FLORIDA FORESTERS GROW BIGGER PINUSES

Gator foresters are gearing up for Conclave in "Gator Country" next year. ASFC officers have been elected and preliminary plans are being formulated. One of this years activities was the expansion of the Forestry Compound with the addition of a physical events area for honeing the club's competative skills.

For most of the year Gator life was normal with club participation in the student fair in the early fall.

Old club ties were maintained at the annual alumni banquet.

Club activities were made possible through funds received from firewood and pulpwood sales. Seedlings were also packaged and sold in nearby shopping malls in January.

University of Tennessee

The University of Tennessee Forestry Club holds an annual bonfire at the beginning of each year to welcome all the "new-comers". The bonfire also serves to introduce new students to the faculty and helps them to form academic bonds early in their school careers.

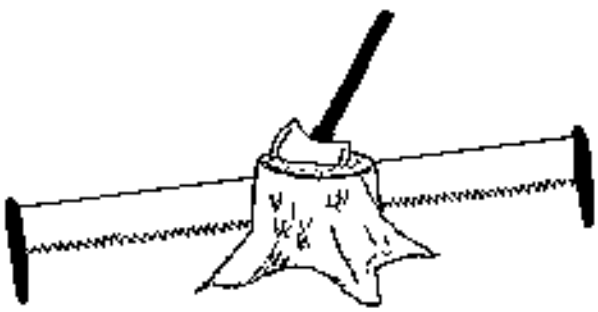

Occurring in the fall is the club's annual firewood sale. This is our major fundraiser for conclave expenses. Another of our annual events occurs in the spring - the Forestry Club seedling sale. This is a much awaited event in Knoxville!

Of course there are always the forestry club parties, Conclave practices, trips and events.

University of Kentucky

KENTUCKY

FORESTRY

The University of Kentucky Forestry Club strives to enhance the educational experiences of club members by exposing them to speakers from a broad range of forestry related backrounds. Speakers include persons from both private industry and goverment agencies. The club offers members a chance to both explore the ideas these speakers represent and make personal contacts that may someday prove valuable in their professional careers.

Each year the club has an introductory party in the fall and a Spring Fling to have a little fun while boosting their numbers.

Club activities are funded through firewood sales in the fall and Christmas tree sales in December. This last Christmas the Kentucky Forestry Club found homes for over 500 Christmas trees. Proceeds from the recycling of paper and aluminum cans helped ease the cost of the long trip to Conclave in Oklahoma this year.

University of Georgia

The University of Georgia Forestry club meets bi-monthly on Tuesday nights. Each meeting features a guest speaker. These speakers discuss various topics ranging from industrial forestry to wildlife conservation.

We hold two field days annually consisting of technical and "lumber-jack" events. The field days are followed by our Fall Brawl in November and Snow Ball in February.

Our fund raising activities include aluminum recycling, seedling propagation and sales, T-shirt sales, and an annual turkey shoot. Money generated by these activities is put back into the club to provide transportation to conclave.

Virginia Tech

The Virginia Tech Forestry club is the largest curriculum club on campus with over 70 members. Some of the club's major purposes are to encourage participation from other fields related to forestry and to explore all areas of natural resource management.

The Hokies main money making venture is firewood sales. Spring seedling sales add to the club's earnings while helping to reforest and beautify the Blacksburg area.

Some of the big wing-dings the club holds each year are the Halloween and Christmas parties and a Timberbeast dance in the winter quarter to give members a chance to demonstrate their clogging expertise. Wa-whoo awards are held in the spring to recognize special members such as the Right Hand Man and the Closet Redneck of the Year.

Congratulations for taking the Silver Anniversary Conclave by storm this year Hokies,you were a team that got what you deserved.

Minutes of The 25th ASFC Business Meeting

The 1982 Conclave business meeting was called to order by A.S.F.C. President, Bob Miller, at 4:30 p.m., April 2.

All members were present.

Rule changes were discussed as follows:

ARCHERY - The University of Florida moved that rule #13 be dropped from the rules. The motion was unanimously striked. Stephen F. Austin then moved that rule #13 be changed to read "Any arrow rebounded from target face shall be reshot". It was seconded and passed 8-3-2. Virginia Tech. made a motion to change rule #16 to read "Six practice shots at any distance, which will be left to the discretion of the competitor, will be allowed prior to competition". The motion was seconded and carried 8-6-1.

CHAIN THROWING - Clemson moved that "fully laid out" be deleted from rule #8. The motion was seconded and after much discussion, the question of the definition of "fully laid out" arose. The motion failed unanimously. Virginia Tech. then moved to define "fully laid out" as: "no loops or kinks present (chain must not cross over itself)". The motion was seconded and failed to pass, 2-11-2. After more discussion, Stephen F. Austin made a motion to insert into rule #8 after "fully laid out", "completely unwound from original coil". Further deliberation prompted Stephen F. Austin to amend the motion to read "The chain must be completely laid out, not crossing itself, before being taken up, thrown, and dropped..." The motion was seconded and passed 12-3. A motion was made by Louisiana State to strike "not looped back" from rule #9. It was seconded and failed 5-7-2.

COMPASS AND PACING - It was suggested by Kentucky that all judges should be out of sight and earshot when in the field with contestants.

DENDROLOGY - Virginia Tech. made a motion that if a species name shows up on the dendrology, wildlife, or wood technology lists, they will all have the same common name. The motion was seconded and passed unanimously.

WILDLIFE - A motion was made by Stephen F. Austin, that the (*) on the wildlife list be replaced with descriptive wording. It was seconded and unanimously passed. Oklahoma State moved to amend Article VIII, section 2 of the constitution, by adding, "Schools without wildlife within their forestry department will be allowed to use wildlife majors who are members of the Forestry Club at that school". The motion was seconded and carried 11-3

KNIFE THROWING - The University of Arkansas suggested that there be a more descriptive term than "woodsman" knife in rule #3. Virginia Tech. moved to define "woodsman" as being "a single edge knife with a finger guard". It was seconded and passed unanimously.

LOG BIRLING - A motion was made by Stephen F. Austin to start a cleated log birling contest. The motion reads as follows: "Cleated log birling, on a peeled log, will be added as a manditory non-point event for 2 years, after which time rule #2 and #11 will be reviewed for change". It was seconded and carried unanimously. Arkansas moved that rule #11 be striken from the rules. Motion was seconded and failed 3-6-4.

LOG CHOPPING - There was discussion on when a contestant's time ends and influencing the severence of the cant. Stephen F. Austin made a motion that "the contestant may not in any way influence the severing of the cant with anything but the axe". The motion was seconded, unanimously passed.

PHOTOGRAMMETRY - Clemson moved to add to the rules "No textbooks, notes, or equ-

ations may be used". Motion seconded and passed 12-2-1. Virginia Tech. made a motion to add to the rules "judges will inspect all equipment for equations other than what is printed by the manufacturer". After discussion Texas A&M amended the motion to read "manufactured equipment may not be altered in any way i.e. no notes or equations". The amended motion was seconded and accepted 12-3-1. Stephen F. Austin moved to add to the rules "photogrammetry tests will be oriented towards interpretation (50%) and be a maximum of 2 hours long". The motion was seconded and passed 10-3-2.

POLE FELLING - Virginia Tech. moved to insert the word "nylon" between "...full extension of the "and" string attached..." in rule #3. The motion was seconded and carried unanimously.

LUMBER GRADING - A motion was made by Arkansas to accept lumber grading as an optional point event in place of pole classification. The option will be open to the host school. The motion was seconded and passed 8-7 by roll call vote. Stephen F. Austin moved to accept October 1 as the deadline for notifying the schools as to which event will be held (pole classification or lumber grading). Motion was seconded and passed unanimously.

A short meeting was held Saturday afternoon to decide on the host for 1984. Louisiana Tech. brought up the fact that they will be financially unable to hold Conclave in 1984 and would like to join with Louisiana State University. A motion was made that Louisiana Tech. and Louisiana State University have a joint Conclave in 1984 and 1992. It was seconded and passed 11-0-4.

The meeting was adjourned.

Respectfully Submitted,

Debbi Dalrymple

Debbi Dalrymple
1982 A.S.F.C. Secretary

CONSTITUTION

ARTICLE I. NAME
The name of the organization shall be the Association of Southern Forestry Clubs.

ARTICLE II. OBJECTIVES
A. To benefit the forestry clubs of the various southern schools by an interchange of ideas and stimulation of good fellowship among the club members.
B. To establish and maintain:
1. Unity of purpose and action within and among the southern forestry clubs.
2. A high standard of professional ethics.
3. Closer cooperation and relationship between students and professional foresters.
C. To hold an annual conclave.

ARTICLE III. MEMBERSHIP
1. Any forestry club of a university or college of Alabama, Arkansas, Florida, Georgia, Kentucky, Louisiana, Mississippi, North Carolina, Oklahoma, South Carolina, Tennessee, Texas, Virginia, or West Virginia granting a baccalaureate degree in forestry, or equivalent, with a major of forestry, or a higher degree in forestry, shall be eligible for voting membership in this association upon a majority approval of a petition submitted to the voting member clubs; or by application by representation at the Annual Conclave.
2. Charter Members: Louisiana State University, University of Florida, Stephen F. Austin College, Mississippi State University, Oklahoma State University, University of the South, University of Arkansas at Monticello, Auburn University, University of Georgia, North Carolina State College, and Clemson Agricultural College.
3. Any Forestry Club of a senior university or college within the states listed in Part 1 of this section not granting a baccalaureate degree in forestry shall be eligible for associate membership upon a majority approval of a petition submitted to the voting member clubs.
B. Privileges
Members (each club) are entitled to one vote and full participation in all conclave activities.
C. Dues
1. The Annual dues shall be two hundred dollars ($200) for each member club. Entering clubs shall pay a reduced rate to be set by the Association.
2. The dues shall be used to pay for correspondence, publications, and other association expenses of the host club, and any excess funds shall be divided between the member clubs equally.
3. The dues for the year will be paid to the host school by January 1, preceding the Conclave.

ARTICLE IV. OFFICERS
A. The officers of the association shall be:
1. President-elected from and by the host club.
2. Vice President-one elected from and by each member club.
3. Secretary-elected from and by the host club.
4. Treasurer-elected from and by the host club.
5. Editor-elected from and by the host club.
B. The duties of the officers:
1. The duties of the President shall be:
a. To preside at all meetings of the association.
b. To appoint committees.
c. To be responsible for submitting an officer's report to the accumulative files upon the completion of ASFC Conclave.
d. To be responsible for obtaining reports from each of his committees and officer heads of the host club.
e. To perform all other duties necessary.
2. The duties of the Vice President shall be:
a. To act as a representative of his club.
b. To notify the president of his election.
c. To complete a report of the activities of the association, and be responsible for submitting materials to the host club for annual publication.
d. To be responsible for submitting member club publications within his club and maintaining an accumulative file of ASFC correspondence.
3. The duties of the Secretary shall be:
a. To keep the minutes of all meetings of the association and to conduct all correspondence relative to the business of the association.

b. To submit an officer's report for the accumulative files upon the completion of the ASFC Conclave.

4. The duties of the Treasurer shall be:

a. To receive and have custody of all money paid to the association.

b. To keep a careful record of all receipts and expenditures.

c. To prepare a financial report for publication in the annual issue of THE SOUTHERN FORESTER.

d. To be responsible for the collection of the dues.

5. The duties of the Editor shall be:

a. To gather and edit all material for the annual publication, THE SOUTHERN FORESTER.

b. To see that the provisions of Article VII are carried out.

C. Tenure of Office

Officers are to hold office until the next Annual Conclave with the exception of the editor, who will serve until the publication is distributed.

D. Election of Officers.

1. The President, Secretary, Treasurer, and Editor of the Association shall be elected by the host club at their first club meeting following the Conclave.

2. Vice President of the Association shall be elected by their respective clubs at their first meeting following the Conclave.

ARTICLE V. MEETINGS

A. Time of Meetings

1. The business meeting will be held on the Friday preceding the ASFC field day.

2. In case of the tie, the President shall cast the deciding vote.

3. No club shall be the host more than once in three years.

4. If a previously elected host notified the members of the ASFC, by October 1 of the year before it is to hold the Conclave, that it cannot hold the Conclave, the President shall solicit bids from the members and then send a ballot to each member club to be voted on in writing.

5. The host club shall be alternated from east to west whenever possible.

C. Files

1. Accumulative files shall be maintained by the host club and shall include all members' reports and correspondence.

2. Each file shall contain a copy of the ASFC Constitution.

ARTICLE VI. AMENDMENTS

The constitution may be amended or revised by a two-thirds vote of the voting member clubs.

ARTICLE VII. PUBLICATIONS

A. Title. The title of the publication shall be THE SOUTHERN FORESTER.

B. The constitution shall be published annually in the publication of THE SOUTHERN FORESTER.

C. The past host club shall publish the ASFC periodical within one month after the Annual Conclave.

D. Securing items for publication.

1. The articles shall be edited by the member club and submitted to the host club.

2. Articles to be printed in the current issue must be in the hands of the publishing editor not later than the time of the Annual Conclave.

E. Distribution. Each Conclave contestant will receive one (1) copy of THE SOUTHERN FORESTER. A minimum of twenty (20) copies will be sent to participating member clubs.

F. Proceedings of the Conclave. Proceedings of each Annual Conclave, including minutes of the business meetings, will be published by the host club in the annual publication.

ARTICLE VIII. CONTESTS.

A. Competitive events will be held at each Annual Conclave.

B. There will be 20 standard competitive contests at each Annual Conclave.

1. Standard events:

a. Dendrology
b. Compass and pacing
c. Timber estimation
d. D. B. H. estimation
e. Pole classification
f. Wood technology
g. Chain throwing
h. Axe throwing
i. Knife throwing
j. Pole Climbing
k. Bow sawing
l. Log rolling
m. Men's Cross-cut sawing
n. Women's Cross-cut sawing
o. Log chopping
p. Pole felling
q. Log birling
r. Archery
s. Photogrammetry
t. Wildlife

2. Scoring will be based on the number of schools participating in the Conclave. First place winners in field events will be awarded a number of points equal to the total number of schools participating. Second place winners receive 1 less point than the total number of participating schools, third place winners will receive 2 less points than the total number of participating schools, and so on with each succeeding participant who satisfactorily completes the event receiving one or more points. First

place winners in technical events will be awarded a number of points equal to the number of participating schools multiplied by 1.5. Second place winners will receive 1.5 points less than the total number of points awarded first place winners; third place winners will receive 3 points less than the total number of points awarded first place winners and so on with each succeeding participant who satisfactorily completes the events receiving 1.5 or more points.

C. In addition to the 20 standard events established in Section B, there may be a maximum of five (5) contests at the discretion of the host club provided that these contests be specified with rules and explanations at the preceding Annual Conclave. Requests for omission of any standard contests will be made at the preceding Annual Conclave with a two-thirds (2/3) majority vote necessary for approval.

D. The standard set of rules will be made and approved by the voting members of the ASFC.

E. Selection of judges of all contests will be left to the discretion of the host club except in the event the host club participates; then judging will not be done by members of the host club.

F. Only students presently enrolled in school or department of forestry will be eligible to enter ASFC events. In the case of the University of Florida and the University of Georgia, freshmen and sophomore students presently enrolled and who have declared an intention of enrolling in the Forestry department or school at the beginning of their junior year will also be eligible for participation. Schools without wildlife within their forest departments will be allowed to use wildlife majors who are members of the forestry club.

G. The contestant must meet the same requirements as are specified for individual participation in school athletics. The contestant must be an undergraduate and in credit for athletic participation.

H. In the event that the Conclave delegation or spectators from any member school intentionally or otherwise interfere with progress of any event in the Conclave, that delegation shall forfeit the rights to score any points in that event.

I. V.P.I. is hereby considered a member of the ASFC by vote taken on May 4, 1963.

J. A table of random members will be used to choose order of teams participating in each event. This order will be sent to each participating school before the Conclave.

K. Contest protests must be filed with a committee of staff members within 15 minutes of the individual infraction. From an alphabetical list, those schools in odd-numbered positions (1, 3, 5, 7, 9, 11, 13) shall provide one staff member for the protest committee for the 1979 Conclave. Those schools in even-numbered positions (2, 4, 6, 8, 10, 12) shall provide one staff member for the 1980 Conclave. This alternate year rotation system shall be continuous.

L. Contestants in the log chopping event must wear hard-toed footwear. The use of skin guards is left to the individual's discretion.

M. Tennessee is hereby considered a member of the ASFC by unanimous vote taken on April 9, 1967.

N. The University of the South is hereby no longer considered a member of the ASFC after the submission of a letter of resignation on April 12, 1969.

O. The University of Kentucky is hereby considered a member of the ASFC by a vote taken on March 29, 1974.

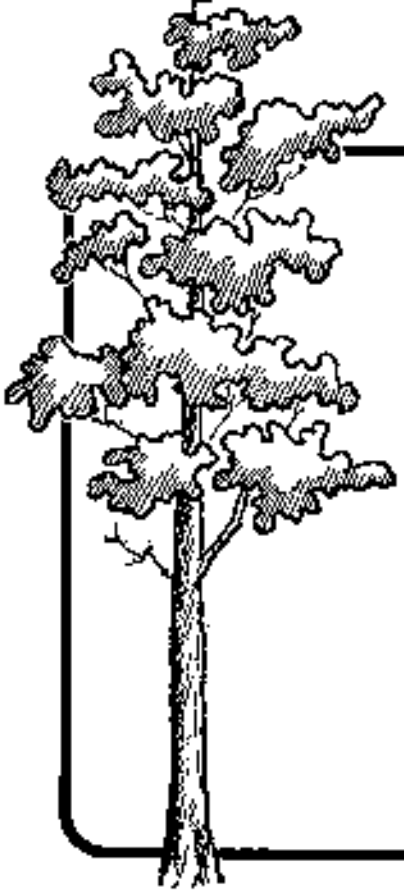

P. Texas A&M University is hereby considered a member of the ASFC by a vote taken on April 12, 1975.

Q. The host club must supply tentative lists for contests involving lists to member schools by November 1. Complaints or suggestions for revision must be mailed back to the host club by December 1. Final lists must be sent to all clubs by February 1, with no changes being made after this date.

R. Louisiana Tech is hereby considered a member of the ASFC by a vote taken on April 6, 1979.

S. West Virginia University is hereby considered a member of the ASFC by a vote taken on March 27, 1981.

T. West Virginia University is no longer considered a member of the ASFC after the submission of a letter of resignation on December 5, 1981.

Some forestry basics cannot be bought.

The basics you'll use in your forestry career cannot be bought. They were given to you: your hands, your eyes, your mind.

You develop these basics through education and experience. And you supplement them with man-made tools.

That's where **Forestry Suppliers, Inc.** fits in. The tools we sell make it easier for you to develop the basics you were given.

Team up your basics with our tools for your success.

FOR FOREST LAND MANAGEMENT

Champion is planting seeds for the future.

Subject:
Growing in the South.

Champion is one of America's leading forest products companies.

The foundation of our business is a national timber base of some 3.4 million acres. And nearly half of that acreage is in the South: Texas, Alabama, North Carolina, South Carolina, Tennessee, Georgia, Virginia and Mississippi. Champion's Timberlands division in the South operates three major nurseries with a combined capacity of 61 million seedlings a year, nine producing seed orchards, and five more orchards in the pre-production stage.

From our 16 million professionally managed acres in the South come the wood and fiber for plants and mills that make plywood, lumber, building products, pulp and fine paper, melamine and paper packaging.

Champion's commitment to the South goes beyond the present. Because of the long-term nature of tree-growing—25 to 60 years—we have to be concerned about the future. That's why we have recently announced an aggressive capital spending program of $3.2 billion over the next five years.

We'll be building new mills. Modernizing and expanding existing ones. Becoming more energy efficient. And also adding timberlands. A major portion of our investment will be made in the South.

We view the South as having a vital role in our future. So we're planting seeds for its future, now.

Champion
Champion International Corporation

Forest

From Kerr-McGee's forest lands in central and southern United States, some of our nation's finest hardwoods go to Kerr-McGee mills to be processed into a wide variety of wood products.

From the growing, selection and harvesting of hardwoods ... to seasoning and pressure treating ... our people take pride in producing the finest cross ties, switch ties, timbers and lumber available to the railroad industry.
