From the Faculty Advisors

Dear ASFC Members:

Can two rival schools 200 miles apart co-host a Conclave successfully? YES! By all measures, the 1984 ASFC gathering was a success and we were pleased with the spirit, cooperation, and behavior of all of the participants. We hope you enjoyed your trip to Louisiana as much as we enjoyed having you.

Students in both clubs who saw the project through over a period of 18 months gained the sense of satisfaction that comes with planning, perseverance, and execution. We commend those individuals.

We are also appreciative of the Louisiana Office of Forestry who provided the site, the experts who set up the technical events, and the forest industry support that was a great asset in the printing of this Southern Forester.

From here we pass the torch to the University of Georgia and look forward to visiting their state in 1985 for the 28th Annual ASFC Conclave. Good luck Georgia!

Ben Jackson
Forestry Club Advisor

From the A.S.F.C. President

April 26, 1984

Dear Southern Foresters,

At last, the 27th A.S.F.C. Conclave is over. Although it is a relief not to wonder if things are going to work right at Conclave, there is also a note of sadness that it will be another year before we all get together to raise a little Hell at Conclave. That's a long time before foresters from all across the South can get together again to sing crazy songs, tell stories, and have fun.

I am proud to have served as President of the A.S.F.C. It was a lot of work for all the foresters at LSU and Tech. This was a chance for us to put back a little of what we have gotten out of Conclave over the years. Co-hosting the Conclave provided an excellent opportunity for the LSU foresters and the Tech foresters to work together and become friends.

There were a lot of bright moments at this Conclave. The weather was the biggest surprise of all! That was the only four days of sunshine in a row all spring. Competition was once again keen. Arkansas's pole felling was the best I have seen through six Conclaves. Competition was also stiff among the log birlers from LSU, SFA, and Arkansas. The pole climbing event showed us some excellent climbers from SFA, Texas A&M, Arkansas, and LSU. But my special congratulation goes out to Bob Davidge -- he's LSU's 67-year old log chopper. Let's hope that we have that much spirit and stamina at that age!

This Conclave was also the first time that the Conclave vice-presidents selected the recipient of the Sportsmanship Award. Arkansas showed us that they can have a good time, be a good sport, and still win. Congratulations not only to the Arkies, but also to Clemson and VPI for their 2nd and 3rd place finishes.

Last of all, I wish Mindy and the rest of the Georgia foresters a lot of luck and cooperation. Conclave really brings your club close together! Ya'll are going to need this because you have got lots of hard work and fun ahead of you.

See ya in Athens in '85!

Sincerely,

Julie Harrold

From the Club Presidents

Letter from Presidents

Dear ASFC Members:

The Louisiana foresters were proud to have hosted the 27th Annual Conclave. As it has been said many times and many ways, Conclave is a time for foresters from across the Southeast region to come together and share their "friendship and ideas with others," and this year was no exception.

As most of you know, a lot of time, manpower, and money are the key points of hosting a conclave. But this year, cooperation between two schools was a major factor. This year the efforts of two schools were combined to serve as host. This was a fairly uneasy task but the end results proved to be a success. Julie Harrold served as Conclave President, and we thank her for all the sacrifices she made to give us this pleasure of competition. Also, a special thanks is extended to the faculty and staff of both Universities and also the friends and industry representatives that made contributions and served as judges.

We hope that the Conclave memory book The Southern Forester captures the beauty, fun, and excitement that we experienced in March 1984 at Indian Creek State Park.

Thanks for coming and making our Conclave a memorable success and good time for us. We would also like to wish the Georgia foresters good luck and confidence as next year's host. See you in Georgia.

Sincerely,

Jay Venable

University of Arkansas

The University of Arkansas at Monticello Forestry Club has had an exciting, but busy year. The fall semester work projects included firewood sales and a series of road improvement projects at the school's forest.

In January and February of this year we completed a job for the USDA Forest Service. The club and the SAF student chapter combined efforts in cutting, hauling, and burning sycamore, green ash, and sweetgum research plots for the Stoneville Hardwood Laboratory. Along with providing funds for this year's Conclave we purchased a new crosscut saw and a Stihl chainsaw.

In March, the club hosted the annual alumni Field Day that has been held on the UAM campus since 1946. The winners at Field Day will represent Arkansas at the 27th ASFC Conclave in Louisiana.

Throughout all the work projects we found a little time for school and we hope plenty of time for practicing for Conclave.

Auburn University

The 1983-84 Auburn Foresters have had a very rewarding year. Funds were raised for the club by the sale of firewood. Also the A. U. Forestry Club placed a Christmas tree in the Governor's mansion in Montgomery. We also plan a "social gathering" each quarter to get new members aquainted. We have monthly meetings with speakers from various aspects of the forest industry. Some of these included a wildlife biologist specializing in whitetail deer research, a forester from the Soil Conservation Service, and the head forester and vice-persident of one of the leading paper companies in the South. Our club also showed a good turnout to the Southeast Section SAF meeting in Montgomery. We also held our annual awards banquet winter quarter to honor outstanding forestry students and gave our first annual outstanding alumni award. We look forward to next year (end possibly graduation for some of us) and hope to keep up the high standards associated with Auburn Forestry. We look forward to seeing all of you next year in Georgia, War Eagle!

Clemson University

1983-84 has been a banner year for the Tigers. We had 42 members this year with a record 30 attending Conclave. Nineteen of our members extended their vacation by leaving Monday to detour through New Orleans on the way to Conclave. The fun and excitement of reaping a "Cultural Education" in the France Quarter was stiff competition for that of Conclave '84. To finance transportation, registration, and beer for conclave our club has worked hard selling firewood and Christmans trees. We also operated a corndog stand during homecoming and planted trees for the experimental forest. We ran a close race last year finishing third overall. We felt even stronger this year. Congratulations to LSU and Louisiana Tech for a fine show and good luck to all. See you next year in Athens.

University of Florida

The University of Florida Forestry Club had a busy year in 1983-84 under the leadership of President Tony White. Field Day and Flatwood Frolics helped to prepare the Gator contestants for Conclave in Louisiana. Homecoming weekend the club hosted a barbeque for alumni, and participated in Gator Expo. Other activities the Gators participated in included marking timber for a shelterwood cut, and a pulpwood cut. The club held its annual end of the year party for the seniors in April at Austin Cary Forest.

The Florida Foresters want to thank faculty members Dr. George Blakeslee, Mr. Joel Smith, Mr. Sam Jones and Dr. Ken Munson for their help this year. Special thanks also goes to Carl Leggins, the Conclave Vice-President. See you in Georgia!

University of Georgia

During the fall the club participated in two events. The first was a trip to Lake Lanier Islands. For the past two years Clemson and Georgia have gone to Lake Lanier's Summer Indian Festival and competed in several field events. Our club had a display representing Georgia's Forest Industry and the School of Forest Resources. The trip promoted good public relations for the clubs and for the field of forestry. The second fall event was "Fall Brawl." Conclave events were scheduled during the day with a dance that night.

This past year a Society of American Foresters Student Chapter was chartered for the first time at Georgia. The creation of this chapter was largely due to the efforts of many of the forestry club members.

Winter Field Day and the Snowball Dance were successes. The Snowball Dance featured the "Normal Town Flyers," a local bluegrass band.

This year Clemson hosted the annual pre-conclave competition. We would like to extend thanks to Clemson for their efforts and congratulate them on their outstanding ASFC second place finish.

Future events include a Spring Awards Banquet, seedling sale, and Spring Field Day. Preparation for Conclave 1985 will keep everyone extra busy! We hope to see ya'll in Athens in 1985.

University of Kentucky

The University of Kentucky Forestry Club is a small, but somewhat active club. The club sponsors faculty-student events each semester in the way of a picnic and keg party twice yearly. This gives the department a chance to meet new students, as well as increase its numbers, and also allows the faculty and students to meet on the volleyball court and softball field rather than only in the classroom.

The Forestry Club convenes about once a month and strives to enhance educational experiences of its members. Sponsoring activities such as a yearly fire-training course taught by the U.S. Forest Service, and exposing members to professional personnel in all realms of the forest industry are regular activities of the U.K. Forestry Club.

Fund raising activities include Christmas tree sales, paper and aluminum recycling drives, and firewood sales each year to afford the trip to conclave.

Recently, the club served as the core of the largest student organization ever formed at the University of Kentucky. "Students To Save Robinson Forest" was formed in opposition to the possibility of strip mining in the 15,000 acre land tract in eastern Kentucky where summer camp for all forestry majors is held. SS&F has also opposed commercial timber harvest possibilities in Robinson Forest for purely a money-making project by the U.K. board of directors. Robinson Forest holds many research projects now in progress and also provides a practical laboratory for long-term experiments as well as offering a real life classroom setting for summer camp students.

The U.K. Forestry Club is glad to participate in this year's conclave in Louisiana. Conclave is one of the most exciting activities of the club's yearly schedule. Thanks LSU and Louisiana Tech.

Louisiana State University

The L.S.U. Student Chapter of the Society of American Foresters was proud to co-host the 27th A.S.F.C. Conclave with the Louisiana Tech Foresters. Although Conclave occupied a lot of our time, we managed to sponsor a few other club activities during the year: a fall smoker, firewood sale, a very successful Christmas tree sale, surf-n-turf party, and our own mini-Conclave. The LSU SAF holds monthly meetings which feature speakers from various forestry fields.

We had a blast at Conclave. Thanks goes out to everyone who attended for making it great.

See ya'll in Georgia next year!

Louisiana Tech University

What a great year this has been for the Louisiana Tech student chapter of the Society of American Foresters. Co-hosting this years' conclave with LSU was both a joy and a challenge for the club members as much of our time was spent in putting it together. It was a lot of hard work, which LSU deserves much of the credit for doing, but seeing it all come together made it all the worthwhile.

Conclave, though, was not all we participated in this past year. Meetings were held each month to inform the club members and teachers about the activities going on and to promote fellowship. In addition revenues were raised through firewood and pecan tree sales. Finally the year ended with a party where awards and gag gifts were given to our teachers to show our appreciation for their hard work. Altogether the year of 1983-84 will be a year this club will look back on with satisfaction.

Mississippi State University

The Forestry Club at Mississippi State University has been very active this year. The annual Forestry Smoker started things off with a bang in the fall by giving prospective members a chance to get acquainted with some of the "old timers" in the club. We also stoked up the annual Homecoming bonfire, a tradition the club has upheld for years.

To get in shape for Conclave, the club held fall and spring field days. Funding for all club activities comes from the sale of firewood.

North Carlina State University

N.C. State cranked up this year with a cookout and keg party to welcome freshmen and transfer students. Then we began practicing for the ROLLED, our inter-class "conclave". Of course, the seniors were victorious this year. Next up on the agenda for the fall semester, we sponsored our annual pig pickin' for the School of Forest Resources. Even though it poured, it did not dampen our spirits and fun was had by all.

Spring semester began with plans for our annual service project, "Wood for Warmth". The Forestry Club works closely with N.C. State Volunteer Service to cut and split firewood for needy families in the Wake County area. Over sixty cords of wood were distributed this year. Several other weekends were occupied by tree jobs - our major fund-raising activity.

Then preparations began for Conclave 1984! Excitement built with afternoon practices and event run-offs. Even though the trip was long (26 hours!), we had a wonderful time and look forward to next year!

THANKS LSU and LOUISIANA TECH!!

Oklahoma State University

The OSU Forestry Club has been very busy this year. We began the year with football concessions and firewood cutting that enabled us to all but pay for the trip down. We also supplemented our budget with bake sales and a recycling program.

The main goal of the club this year was to call attention to the fact that Oklahoma has forests and that OSU has a Forestry department. By joining hands with the S.A.F. we have sponsored many projects throughout the year including a Forestry Career Day and a Legislative Conference. This year is also special because of the joining hands of the club with the S.A.F. The two organizations seem to make the whole department stronger.

We're really excited about being here this year and we hope this is the best conclave yet. We Okies take pride in competing this year and we want to tell everyone that "the Blackjack Gang rides again."

Stephen F. Austin

The Sylvan's Club represents the foresters of Stephen F. Austin State University at Conclave. The organization was formed in 1946 to develop leaders, promote an interest in Forestry, and to foster good will throughout the community. Most importantly, the Sylvan's Club teaches practical forestry knowledge to it's members and provides them with entertainment. The money needed to attend each year's Conclave is earned by the club through the tree service they provide for the community. Members attending the tree jobs learn the techniques used in tree pruning and experience in equipment use.

University of Tennessee

A year later and it finds us in Louisiana, the Bayou State and home of that famous Cajun cooking. The months between Florida and Louisiana have been both short and busy for the members of the University of Tennessee Forestry Club.

The year was started off on the right foot with the club's annual bonfire. This event provides an informal setting for both students and faculty members to get to know one another a little better. Again this year the bonfire was a huge success. Credit is also due to the U.T. Wildlife Society Chapter who helped the Forestry Club co-host this shindig. With the bonfire becoming a memory, the club set forth at raising money to help pay the expenses of conclave. During the fall quarter the club sponsored numerous bake sales and began its major fund raiser - a firewood sale. Winter quarter found us still deeply involved in the firewood sale with the highlight of the quarter being the Natural Resources Banquet. Another important source of income for the club occurred during registration for spring quarter. This was our shade tree and seedling sale

Although small in force this year, the Tennessee foresters left Knoxville (bright-eyed and bushy tailed) in the pre-dawn hours, strong in determination and high in spirits. Best of luck to the Georgia Bulldogs. Hope to see you there in 1985.

Texas A&m University

It has been an exciting and successful year for the Fightin' Texas Aggie Foresters. The club had the biggest Christmas tree sale in club history.

The club also started up a new current student/former student newsletter that has been very successful. On the more relaxed side were the undergraduates vs. graduate students and faculty softball game (losers buy the beer), and a number of parties and barbeques.

The Spring Banquet will close out yet another good year down in Aggieland. If you happen our way, drop by and say "Howdy!"

Virginia Tech University

The Virginia Tech Forestry Club, 65 members strong, started the year with its main fund-raising project, firewood sale. A spring seedling sale is a source of additional income. Recently the Hokie foresters have started a Christmas tree plantation.

In the fall and spring, new members are initiated at our "Possum Hunt," where the potential members serve as possums.

For excitement the Hokies have parties throughout the year, along with the annual Timberbeast Dance, attended by both faculty and alumni. And, of course, much of our time is spent preparing for CONCLAVE!

Minutes of the 27th ASFC Business Meeting

Thursday, March 29

The meeting was called to order at 8:07 PM, with Julie Harrold, A.S.F.C. President, presiding. All club vice-presidents were in attendance.

A motion was made by Clemson and seconded by Georgia to add Rule 7 to the Pole Felling rules:

> The contestant may clean the front cut in any way. The back cut can also be cleaned in any manner other than by using the hands. The contestant may not return to the front cut after the back cut is started.

The motion passed 10-4.

A motion was made by Kentucky and seconded by Texas A&M to add Rule 10 to the Wildlife rules:

> Contestants will be allowed to use a 10 X hand lens in the wildlife exam and nothing else.

The motion passed unanimously.

Friday, March 30

The meeting was called to order at 8:30 PM. All vice-presidents were in attendance.

A motion was by VPI and seconded by Clemson that Rule 5 be added to Part E of the General Rules:

> Events will be conducted according to the written rules and according to unanimous decisions between contestants and the judges prior to the event.

The motion passed 13-1.

A motion was made by Clemson and seconded by NCSU:

> Cleated birling will no longer be a mandatory non-point event. The birling contest will remain the same as it is now.

The motion was passed 12-2.

A motion was made by Kentucky and seconded by Clemson:

> Jack-and-Jill Crosscut will no longer be a point event.

The motion failed 6-8.

A motion was by Stephen F. Austin and seconded by OSU:

> Archery will no longer be a point event.

The motion failed 2-12.

A motion was made by MSU and seconded by Clemson to change Rule 6 in the Wildlife rules:

> Contestants may be required to sex white-tailed deer by pelvic girdle and assign age at exact 6-month age classes (1, 1½, 2, 2½, etc. years) from jaw examination.
>
> The rest of the rule is unchanged.

The motion passed 13-1.

A motion was made by Florida and seconded by Clemson to change Rule 3 in the Wood Technology rules:

> Only those woods given in the "Key to Coniferous Woods-Gross Features" and the "Key to Hardwoods-Gross Features" in Volume I (Fourth Edition) of the Textbook of Wood Technology by Panshin and deZeeuw may be used as test material.
>
> The rest of the rule is unchanged.

The motion passed unanimously.

A motion was made by Clemson and seconded by NCSU to add to Part G of the Constitution:

> A contestant is limited to competing in four (4) Conclaves.

The motion failed 6-4.

A motion was made by OSU and seconded by VPI to add to Part G, Article 8 of the Constitution:

> A contestant is limited to competing in five (5) Conclaves.

The motion passed 11-3.

A motion was made by Florida and seconded by Clemson to make Rule 11 in the Log Birling rules permanent.

The motion passed unanimously.

Saturday, March 31

A motion was made by Texas A&M and seconded by Clemson to change Rule 3 in the Men's Crosscut Sawing, the Women's Crosscut Sawing, and in the Jack-n-Jill Crosscut Sewing rules to read:

> The use of lubricants will be left to the discretion of the contestants. The lubrication may not be applied over the cant or once the cut has been started.

The motion passed 10-0.

Respectfully submitted,

Julie Harrold

Julie Harrold
A.S.F.C. President

Constitution
Association of Southern Forestry Clubs

ARTICLE I. NAME
The name of the organization shall be the Association of Southern Forestry Clubs.

ARTICLE II. OBJECTIVES
A. To benefit the forestry clubs of the various southern schools by an interchange of ideas and stimulation of good fellowship among the club members.
B. To establish and maintain:
1. Unity of purpose and action within and among the southern forestry clubs.
2. A high standard of professional ethics.
3. Closer cooperation and relationship between students and professional foresters.
C. To hold an annual conclave.

ARTICLE III. MEMBERSHIP
A. Qualifications
1. Any forestry club of a university or college of Alabama, Arkansas, Florida, Georgia, Kentucky, Louisiana, Mississippi, North Carolina, Oklahoma, South Carolina, Tennessee, Texas, Virginia, or West Virginia granting a baccalaureate degree in forestry, or equivalent, with a major of forestry, shall be eligible for voting membership in this association upon a majority approval of a petition submitted to the voting member clubs; or by applicatin by representation at the Annual Conclave.
2. Charter Members: Louisiana State University, University of Florida, Stephen F. Austin College, Mississippi State University, Oklahoma State University, University of the South, University of Arkansas at Monticello, Auburn University, University of Georgia, North Carolina State College, and Clemson Agricultural College.
3. Any forestry club of a senior university or college within the states listed in Part I of this section not granting a baccalaureate degree in forestry shall be eligible for associate membership upon a majority approval of a petition submitted to the voting member clubs.
B. Privileges
Members (each club) are entitled to one vote and full participation in all conclave activities.
C. Dues
1. The annual dues shall be two hundred dollars ($200) for each member club. Entering clubs shall pay a reduced rate to be set by the Association.
2. The dues shall be used to pay for correspondence, publications, and other association expenses of the host club, and any excess funds shall be divided between the member clubs equally.
3. The dues for the year will be paid to the host school by January 1, preceding the Conclave.

ARTICLE IV. OFFICERS
A. The officers of the association shall be:
1. President - elected from and by the host club.
2. Vice President - one elected from and by each member club.
3. Secretary - elected from and by the host club.
4. Treasurer - elected from and by the host club.
5. Editor - elected from and by the host club.

B. The duties of the officers:

1. The duties of the President shall be:

a. To preside at all meetings of the association.

b. To appoint committees.

c. To be responsible for submitting an officer's report to the accumulative files upon the completion of ASFC Conclave.

d. To be responsible for obtaining reports from each of his committees and officer heads of the host club.

e. To perform all other duties necessary.

2. The duties of the Vice President shall be:

a. To act as a representative of his club.

b. To notify the president of his election.

c. To complete a report of the activities of the association, and be responsible for submitting materials to the host club for annual publication.

d. To be responsible for submitting member club publications within his club and maintaining an accumulative file of ASFC correspondence.

3. The duties of the Secretary shall be:

a. To keep the minutes of all meetings of the association and to conduct all correspondence relative to the business of the association.

b. To submit an officer's report for the accumulative files upon the completion of the ASFC Conclave.

4. The duties of the Treasurer shall be:

a. To receive and have custody of all monies paid to the association.

b. To keep a careful record of all receipts and expenditures.

c. To prepare a financial report for publication in the annual issue of THE SOUTHERN FORESTER.

d. To be responsibYe for the collection of the dues.

5. The duties of the Editor shall be:

a. To gather and edit all material for the annual publication, THE SOUTHERN FORESTER.

b. To see that the provisions of Article VII are carried out.

C. Tenure of Office.

Officers are to hold office until the next Annual Conclave with the exception of the editor, who will serve until the publication is distributed.

D. Election of Officers.

1. The President, Secretary, Treasurer, and Editor of the Association shall be elected by the host club at their first club meeting following the Conclave.

2. Vice President of the Association shall be elected by their respective clubs at their first meeting following the Conclave.

ARTICLE V. MEETINGS.

A. Time of meetings

1. The business meeting will be held on the Friday preceeding the ASFC field day.

2. In case of the tie, the President shall cast the deciding vote.

3. No club shall be the host more than once in three years.

4. If a previously elected host notified the members of the ASFC, by October 1 of the year before it is to hold the Conclave, that it cannot hold the Conclave, the President shall solicit bids from the members and then send a ballot to each member club to be voted on in writing.

5. The host club shall be alternated from east to west whenever possible.

C. Files.

1. Accumulative files shall be maintained by the host club and shall include all members' reports and correspondence.

2. Each file shall contain a copy of the ASFC Constitution.

ARTICLE VI. AMENDMENTS

The constitution may be amended or revised by a two-thirds vote of the voting member clubs.

ARTICLE VII. PUBLICATIONS

A. Title. The title of the publication shall be THE SOUTHERN FORESTER.

B. The constitution shall be published annually in the publication of THE SOUTHERN FORESTER.

C. The past host club shall publish the ASFC periodical within one month after the Annual Conclave.

D. Securing items for publication.

1. The articles shall be edited by the member club and submitted to the host club.

2. Articles to be printed in the current issue must be in the hands of the publishing editor not later than the time of the Annual Conclave.

E. Distribution. Each Conclave contestant will receive one (1) copy of THE SOUTHERN FORESTER. A minimum of twenty (20) copies will be sent to participating member clubs.

F. Proceedings of the Conclave. Proceedings of each Annual Conclave, including minutes of the business meeting, will be published by the host club in the annual publication.

ARTICLE VIII. CONTESTS

A. Competitive events will be held at each Annual Conclave.

B. There will be 20 standard competitive contests at each Annual Conclave.

1. Standard events:

a. Dendrology
b. Compass and pacing
c. Timber estimation
d. D.B.H. estimation
e. Pole classification
f. Wood technology
g. Chain throwing
h. Axe throwing
i. Knife throwing
j. Pole climbing
k. Pole felling
l. Log rolling
m. Men's crosscut sawing
n. Women's crosscut sawing
o. Log chopping
p. Pole felling
q. Log birling
r. Archery
s. Photogrammetry
t. Wildlife

2. Scoring will be based on the number of schools participating in the Conclave. First place winners in field events will be awarded a number of points equal to the total number of schools participating. Second place winners receive 1 less point than the total number of participating schools, third place winners will receive 2 less points than the total number of participating schools, and so on with each succeeding participant who satisfactorily completes the event receiving one or more points. First place winners in technical events will be awarded a number of points equal to the number of participating schools multiplied by 1.5. Second place winners will receive 1.5 points less than the total number of points awarded first place winners; third place winners will receive 3 points less than the total number of points awarded first place winners and so on with each succeeding participant who satisfactorily completes the events receiving 1.5 or more points.

C. In addition to the 20 standard events established in Section B, there may be a maximum of five (5) contests at the discretion of the host club provided that these contests be specified with rules and explanations at the preceding Annual Conclave. Requests for omission of any standard contest will be made at the preceding Annual Conclave with a two-thirds (2/3) majority vote necessary for approval.

D. The standard set of rules will be made and approved by the voting members of the ASFC.
E. Selection of judges of all contests will be left to the discretion of the host club except in the event the host club participates; then judging will not be done by members of the host club.
F. Only students presently enrolled in school or department of forestry will be eligible to enter ASFC events. In the case of the University of Florida and the University of Georgia, freshman and sophomore students presently enrolled and who have declared an intention of enrolling in the forestry department or school at the beginning of their junior year will also be eligible for participation. Schools without wildlife within their forest departments will be allowed to use wildlife majors who are members of the forestry club.
G. The contestant must meet the same requirements as are specified for individual participation in school athletics. The contestant must be an undergraduate and in credit for athletic participation.
H. In the event that the Conclave delegation or spectators from any member school intentionally or otherwise interfere with progress of any event in the Conclave, that delegation shall forfeit the right to score any points in that event.
I. V.P.I. is hereby considered a member of the ASCF by vote taken on May 4, 1963.
J. A table of random members will be used to choose order of teams participating in each event. This order will be sent to each participating school before the Conclave.
K. Contest protests must be filed with a committee of staff members within 15 minutes of the individual infraction. From an alphabetical list, those schools in odd-numbered positions (1, 3, 5, 7, 9, 11, 13) shall provide one staff member for the protest committee for the 1979 Conclave. Those schools in even-numbered positions (2, 4, 6, 8, 10, 12) shall provide one staff member for the 1980 Conclave. This alternate year rotation system shall be continuous.
L. Contestants in the log chopping event must wear hard-toed footwear. The use of shin guards is left to the individual's discretion.
M. Tennessee is hereby considered a member of the ASFC by unanimous vote taken on April 9, 1967.
N. The University of the South is hereby no longer considered a member of the ASFC after submission of a letter of resignation on April 12, 1969.
O. The University of Kentucky is hereby considered a member of the ASFC by a vote taken on March 29, 1974.
P. Texas A&M University is hereby considered a member of the ASFC by a vote taken on April 12, 1975.
Q. The host club must supply tentative lists for contest involving lists to member schools by November 1. Complaints or suggestions for revision must be mailed back to the host club by December 1. Final lists must be sent to all clubs by February 1, with no changes being made after this date.
R. Louisiana Tech is hereby considered a member of the ASFC by a vote taken on April 6, 1979.
S. West Virginia University is hereby considered a member of the ASFC by a vote taken on March 27, 1981.
T. West Virginia University is no longer considered a member of the ASFC after the submission of a letter of resignation on December 5, 1981.
U. "The Sportsmanship Award will be voted on by the Conclave Vice-Presidents. A confidential ballot will be submitted within one hour after the least event to the host club. In case of a tie, the host club will place the deciding vote, otherwise the host club will not vote. Clubs may not vote for themselves."

A drip torch being applied to brush that has been browned out by Trimec® Brush Herbicide at the North Louisiana Hill Farm Experiment Station of Louisiana State University AG Experiment Station at Homer, La. This experiment was part of an ongoing program by Dr. Terry Clason of the Hill Farm, designed to demonstrate to small land owners how to convert unprofitable land to profitable stands of Pine.

Some of the species controlled by Acme Brush Killer 800:

BRUSH

Ash	Cherry	Multiflora Rose
Aspen	Cottonwood	Oak
Birch	Dogwood	Pine
Blackberry	Elm	Shortleaf Pine
Black Cherry	Gooseberry	Spruce
Black Locust	Honey Locust	Sumac
Brambles	Honeysuckle	Sycamore
Buckbrush	Kudzu	Wild Plum
Cedar	Maple	Willow

WEEDS

Bedstraw	Henbit	Purslane
Black Medic	Knotweed	Ragweed
Buckhorn	Lambsquarters	Sheep Sorrel
Burdock	Lespedeza	Shepherd's Purse
Chicory	Mallow	Speedwell
Chickweed	Morning Glory	Spurge
Clover	Peppergrass	Wild Carrot
Dandelion	Pigweed	Wild Garlic
Dock	Plantains	Wild Lettuce
Ground Ivy	Poison Ivy	Wild Onion
Heal-all	Poison Oak	Yarrow

If You Brown and Burn You Should Take a Look at Acme Brush Killer:

Many forest farmers have found this Trimec Complex to be extremely cost effective. We would like to tell you more about it.

Earl Tracy, Product Manager
Acme Industrial Products
PBI/Gordon Corporation

Acme Brush Killer 800 is a low-volatile ester, which gives it the power to penetrate hard, waxy leaves and tough-bark trees such as Red Maple, Oak and Cherry.

But, even more important, it is a Trimec Complex, which gives it the broad spectrum needed for the wide variety of species encountered in site-prep.

What is Trimec?

Trimec is a complex of Phenoxy Acetic, Phenoxy Propionic and Benzoic acid herbicides manufactured by PBI/GORDON Corporation and protected by U.S. Patent No. 3,284,186.

The resulting Trimec product has unparalleled strength in killing brush and broadleaf weeds because of the synergism that results from reacting these acids into a single product.

And yet, cost-per-acre is low because Trimec is fully effective with a small amount of chemical which translocates to the root system, resulting in a high degree of kill.

Tank Mix with Garlon® 4

In some instances, Acme Brush Killer 800 is recommended as a tank mix with Garlon-4 on the basis of one gallon of Acme Brush Killer 800 plus one pint of Garlon-4, and tests have shown that this mixture can increase the cost effectiveness of both products.

Acme Brush Killer is available in 5s, 30s and 55s.

For further information and specific test data, call us toll-free.

Some forestry basics cannot be bought.

The basics you'll use in your forestry career cannot be bought. They were given to you: your hands, your eyes, your mind.

You develop these basics through education and experience. And you supplement them with man-made tools.

That's where Forestry Suppliers, Inc. fits in. The tools we sell make it easier for you to develop the basics you were given.

Team up your basics with our tools for your success.

"We know where we're growing"

At Boise Southern Company, we're growing the next generation's forest products today. We plant up to six seedlings for every tree we harvest, and we'll nurture and protect them until they come of age. Moreover, we're exploring new growing and harvesting methods that promise more trees per acre and more products per tree. After all, when the resource you depend on takes a generation to renew itself, you plan ahead. We know where we're growing.
