THE SOUTHERN FORESTER

36th Annual ASFC Conclave ♦ University of Tennessee 1993

36th
ANNUAL CONCLAVE
OF THE
ASSOCIATION OF SOUTHERN
FORESTY CLUBS

March 25 - 27
Big Ridge State Park
Maynardville, TN

FROM THE EDITOR . . .

I hope everyone enjoys this 1993 edition of the Southern Forester. Thanks to everyone who participated in this competition; those in the spotlight as well as those individuals and groups who worked diligently behind the scenes to make it happen. Hopefully, all names and photographs are correct. I have incorporated some new items such as information on forestry in Tennessee, tree trivia, and a directory of ASFC-University adresses, phone and fax numbers. I especially want to thank all members of the UT Forestry Club, UT faculty members, friends, associates, participating clubs and sponsors for getting information to me in a timely manner.

LETTER FROM THE CONCLAVE PRESIDENT

With finally stopped raining the Memphis after everyone left. I would like to thank Everyone for coming to Tennessee for the 59th Annual Conclave. It was a pleasure to have everyone as our guests and I hope everyone had a fantastic time.

Our club members were planning last year working hard to provide for an enjoyable and successful event. I would like to thank the faculty and staff of the University of Tennessee Department of Forestry, Wildlife and Fisheries for their support and hard work. I would especially like to thank Drs. Lee Rucker, Bob Hodges, and Ron Wimberley for their leadership and assistance during the past year.

The best of luck to Steve Bowers in the coming year. I hope that the 59th Conclave will be a memorable experience for all.

LARRY LYONS
Conclave President
U.T. Forestry Club

COMMENTS FROM THE U.T. FORESTRY CLUB PRESIDENT . . .

So, how did ya'll like East Tennessee weather? You missed the tornado and the blizzard, but we're glad you made it here for one of our monsoons! What would an East Tennessee Conclave be without a little spin in the Log Roll or a shiver in the Birling? Well, I'll tell you what it would not be...; it would not be in East Tennessee!

The 36th Annual Association of Southern Forestry Clubs Conclave was terrific. All of the members of the U.T. Forestry Club put a lot of work into this production. We also could not have pulled this conclave off without the helping hands of everyone. Thank you!

I extend a special CONGRATS! to Arkansas, Stephen F. Austin and North Carolina for being this year's winners. Cheers to ALL who came and had fun with us here in Tennessee!

CHRISTI ACKERSON
President

A NOTE FROM THE CONCLAVE ADVISORS

Conclave '95 is one for the record books. How many times in the past has it required 30 minutes to complete the sign-in? Although the weather was not all we had hoped it would be, the spirit and work ethic shown by our small club was one that we had hoped... Just about 5 people to put on something as large and complicated as the ASF Conclave is moving short of amazing. During the fall semester we had a one hour class period dedicated to coordinating the initial planning for conclave. One of the primary objectives of this class was to develop organizational and supervisory skills among club members. The fact that conclave went so smoothly suggests that these goals were achieved.

Sure, conclaves are about competition between member clubs. But we see another purpose bigger, role to promote and -- the venturing of long-term friendships. As anyone who has hosted or even attended a conclave can tell you, it is a massive undertaking requiring teamwork and close coordination. Tennessee Tech has not hosted conclave in '98". Several members from the '98 Forestry Club returned to Conclave '95 to get us tulpes, scarves, and bowlers. Over the years, alumni who participated in Conclave 81 have returned as one of the most tightly knit groups ever to graduate from our department. We believe that the same will be true for those club members who made Conclave '95 a reality. We'll see you in 2005!

Bob Little and
Pat Winesteiger

A WORD FROM OUR DEPARTMENT HEAD . . .

With the publication of this issue of the Southern Forester, the 36th Forestry Conclave becomes history. I believe all who attended will agree that the event was successful and enjoyable. I commend the 10 - 15 students and advisors who began working more than a year ago to organize and direct Conclave. The work greatly exceeded our projections (as it always does for an event of this magnitude), but looking back, much was accomplished. These few individuals gained organizational and administrative skills and acquaintances with foresters in other southern schools which will serve them well throughout their professional careers. Those who participated in the events gained many of the same skills as they planned and prepared for Conclave. And after all, isn't our ultimate goal to become members of the profession and to become the best professionals we can? As future Conclaves are planned, I challenge all to provide the best possible event to help future professionals attain these goals.

On behalf of the Department of Forestry, Wildlife and Fisheries, we were pleased to host Conclave for 1993.

G.T. Weaver

FROM OUR DEAN . . .

Our Department of Forestry, Wildlife and Fisheries was privileged to have hosted the 36th Annual Conclave of Southern Forestry Schools during the weekend of March 25-28, 1993. As everyone who has hosted such an event well knows, there is a tremendous amount of planning and hard work associated with doing so. It takes the combined talents and devotion of students, faculty, staff, advisors, sponsors, judges, and contributors to make the conclave a success. From the reports that I heard, all of the efforts put forth did indeed pay off, and a good time was had by all!

Other than having one of the wettest Saturday's that I care to ever have associated with conclave, most things went off without a serious hitch. Every contestant represented their school in a first-class manner. It was most enjoyable to see both keen competition and professional camaraderie displayed throughout the weekend. The spirited rivalry and good-natured fun than ran throughout the conclave is what, I believe, the founders of this event had in mind. That is, bringing together, in an informal setting, individuals who will someday be our future natural resources managers and leaders.

We thank all of the coaches, volunteers and friends that attended, and hope that everyone had a grand time. We are proud of our students and faculty, and of the great job they did as host. And to all of our visitors, please come back and visit the University of Tennessee at any opportunity that you may have. You are always welcome.

GARY SCHNEIDER

PREPARATIONS . . .

ARKANSAS

OVERALL FIRST-PLACE WINNER

Well, this year, just like Conclave '91 at VPI, we busted our butts and earned enough money to charter a bus. Since we didn't have to drive we had a grand 'ole time on the trip to Tennessee.

To Tennessee: thanks for a good time and congrats on a job well done (even though some of us had to walk half a mile to get breakfast!). Congratulations to everyone on victories and good luck next year!

To Stephen F.: thanks for scaring us at Conclave '92 (nice shirts). It'll be interesting competing on your turf. See ya'll in '94 at SFASU(cks - gotcha!). MORALE UP!

AUBURN

Our conclave participation has been improving in recent years. We brought eight people with us to the 1993 conclave, two more than last year. We appreciate all the help, advice and borrowed equipment the UT students loaned us. THANKS YA'LL. We will return even more improved for the conclave in Texas in '94.

CLEMSON

Thank you Tennessee for the great Conclave this year despite the weather. We sold a lot of firewood and Christmas trees to raise enough money to attend this competition. Spring semester was filled with Conclave practice and forestry club parties. We look forward to seeing everyone next year after our long drive to Texas.

BILL REASONOVER

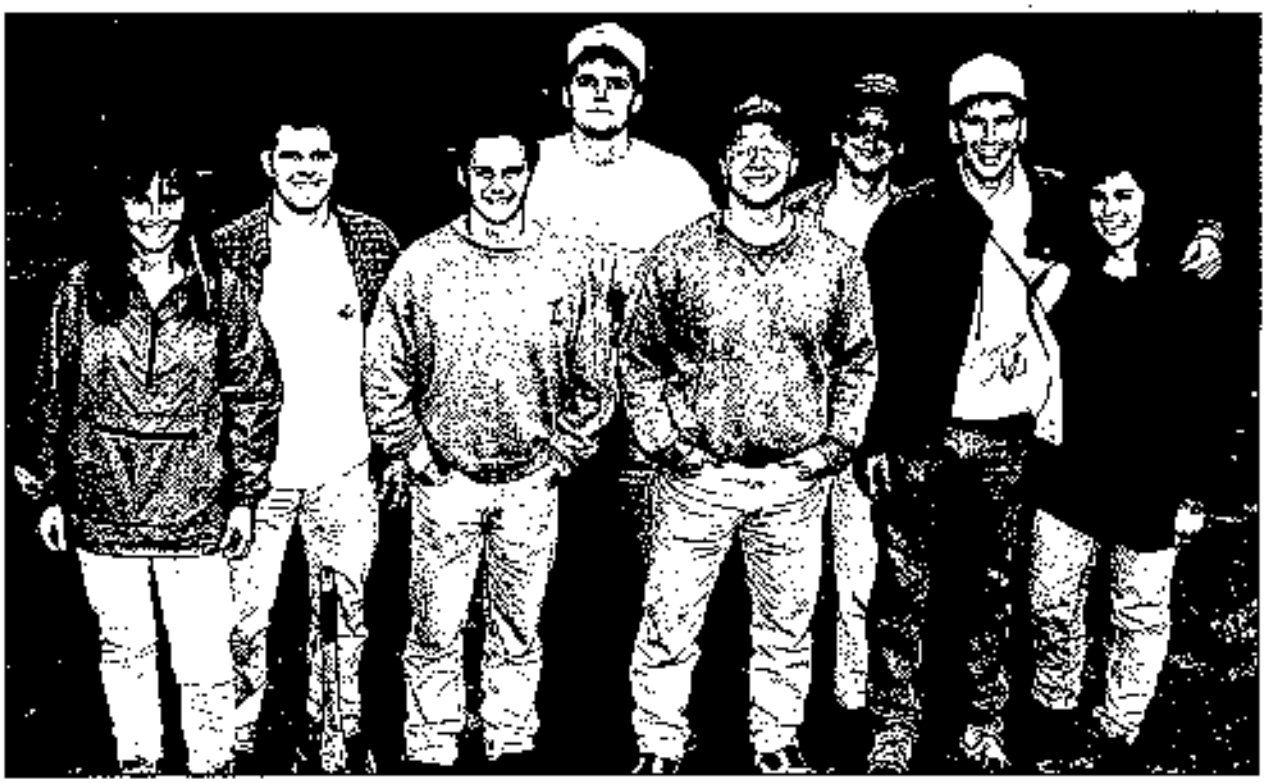

FLORIDA

Our club's membership has been low, but we managed to have a good year. Christmas tree sales and a pulpwood cut enabled us to support our annual events. The club also helped local Girl Scout troops earn badges through PLT activities.

The UF Forestry Club would like to thank UT for hosting a great Conclave. Contrary to popular belief, the University of Florida did come to Conclave this year. We had a really great time and we would like to know where our two rolls of toilet paper are from our last two great showings at Conclave! All we have to say about our performance in the events is, "piece of cake!" See you all next year in Texas.

LAURA DRISKELL

GEORGIA

We had a pretty good year in our Forestry Club. Firewood sales have been our biggest fund-raiser. Thanks to everyone who has helped out with Club activities this year. Our Club participates in intramural sports and we also help judge several Conclave events at the Pine Mountain Soil and Water Conservation Districts' Annual Forestry Field Day for high school students.

Thanks to all of the faculty and staff that supported our Club this year. We especially thank Dr. Scott Merkle,
Mac Lentz and Dean Arnett Mace for their guidance and financial support. We look forward to seeing everyone at Stephen F. Austin next year for the 37th Annual ASFC Conclave.

CHARLES T. WITT
Club President

LOUISIANA STATE

The Louisiana State University Forestry Club would like to thank the University of Tennessee Forestry Club for all the hard work they put in to make the 1993 ASFC Conclave a success. We had a great time in Tennessee. We would also like to thank all the other forestry clubs who participated in this year's conclave.

This past year the "Tin Men" have been busy. We started in the Fall with our annual Smoker. The Smoker allows the new as well as the old students to get better acquanited with faculty in an informal setting. In December, our club kicked off our annual Christmas tree sale which helped with the funds needed for conclave. In March, our club competed in the LSU Agriculture Olympics. We competed in several events including crosscut. We are happy to say that our club won!

Our mini-conclave, held in March, provided the much needed preparation for conclave. We have worked very hard to make a good showing this year, and moving from 13th to sixth over all, we feel that we did.

Again, we would like to thank the Tennessee Forestry Club for putting on a memorable conclave for all of us at LSU.

LOUISIANA TECH

Our Forestry Club would like to thank Tennessee for an exciting Conclave and their great hospitality! Everyone from the Tech Forestry Club had a great time.

The Forestry Club has been very busy this year. We planted trees and sold Forestry Club hats, T-shirts, and Christmas trees. The club's membership has grown considerably this year. We have a lot of freshmen and sophomores in the club, and things are looking good for the future. Our seniors in the club have contributed a lot of work this year. Everyone has! Thanks for everyone's participation. We're looking forward to next year's Conclave! Hope to see ya'll there!

MISSISSIPPI

The MSU Forestry Club kept a busy schedule this year. The club aided in the recruiting of new students by entertaining Community College students at our fall field day by manning a booth at the annual Discover MSU day. A fall resume writing workshop and a spring negotiating skills workshop were sponsored by our club. The club also held its annual fall and spring Field Days to determine the competitors for Conclave. Funds were raised by selling T-shirts, cutting firewood, and receiving dues from over fifty members. Conclave is the highlight of the year and we certainly enjoyed ourselves this year. We are looking forward to next year and we know that SFA will do a great job of hosting Conclave.

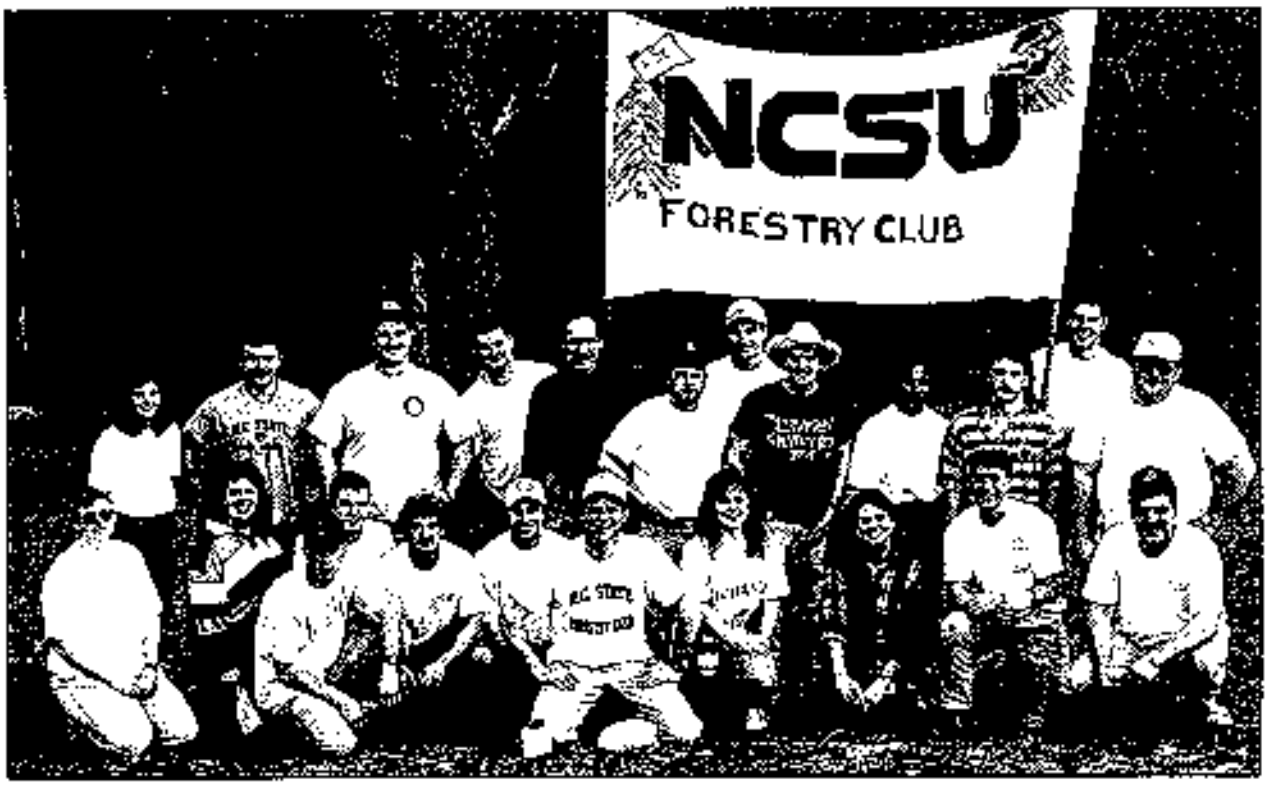

NORTH CAROLINA

The ASFC Conclave is the major event of the year for the North Carolina State Forestry Club. Through continuous hard work and motivation, the Wolfpack Team surpassed several milestones ending with a third place finish in this years annual Conclave. Although we didn't take top honors, we did emerge third; not a bad feat, considering the competition! (Don't worry guys, N.C. State has already set its goal on becoming number 1 in 1994 at Stephen F. Austin!).

Other milestones that the Wolfpack Team surpassed this year was joining the North Carolina Forestry Association. This welcomed responsibility allows the club to have a contributing vote on emerging issues which directly effect the forest industry as well as environmental issues that may someday dictate the role of a forester in North Carolina.

In addition, the Forestry Club received a $5,000 educational package from Stihl Chain Saw, Inc., and a $750 scholarship from the Chesapeake Corporation for our competition with Virginia Tech at Crabfest. Crabfest is an event which Chesapeake puts on every year to promote community involvement within the town of West Point, Virginia, which happens to include a bit of old-time forestry competition. Furthermore, Rolleo, a mini-conclave among undergraduate classes, including graduate students and alumni of NCSU, was pulled off without a hitch in the fall of '92.

Last but not least, N.C. State would like to thank Tennessee for hosting the 36th Annual Conclave and making the best of the wet situation.

OKLAHOMA STATE

Nineteen forestry club members attended this memorable event. We wish to thank Tennessee for having us and providing us with excellent facilities.

OSU Forestry Club members participating in the 36th Conclave were: Gil White, David Lehman, Patty Lehman, Justin Garret, Kelly Kemp, Andy Hollon, Rodney Howell, Tonya Foreman, Les Rymer, Lance Vermeire, Randy Gibbs, Jimmy Herrel, Rhoni Osborn, Dan Stidham, Dave Stokesberry, D.L. Hunter, Phillip Taggert, Sharon White, Marci Tannen, along with faculty advisors Drs. Ed Miller and Chuck Taver.

STEPHEN F. AUSTIN

We would like to thank Tennessee for a great Conclave this year. We know how stressful it was with all the bad weather the week before. We would also like to congratulate Arkansas for winning First Place again. We hope everyone will be able to attend next year when we host Conclave. We have already begun preparations for the big event. Once again, thank you and congratulations to everyone. Ya'll come next year, ya' hear!

TENNESSEE

The University of Tennessee Forestry Club would like to thank all the clubs for participating in the 36th Annual Conclave. We hope you all had as good a time as we did. We would also like to thank all the faculty, students, sponsors, and everyone who helped make this a successful Conclave.

Preparations for Conclave '93 began early last year and funds were raised by selling Christmas trees, T-shirts, planting seedlings and selling ads for the Southern Forester. Many long hours and personal sacrifices were made by each member. Our faculty advisors worked very hard and gave an extraordinary amount of time and resources to ensure the success of this event. The sponsors and friends of our forestry club gave as well and all are greatly appreciated.

We wish every club a successful coming year, and we look forward to seeing everyone in Texas next spring!

TEXAS A & M

The Texas A & M Forestry Club would like to thank the University of Tennessee for putting on a great 1993 Conclave. We were able to see some beautiful country and pass through some interesting towns on our twenty hour journey. Forget Memphis and Nashville. We went through Hope, Arkansas; home of Bill Clinton! Suffice it to say, the only use of that town was for a pitstop.

The treasury started off pretty low but thanks to Mr. STIHL we were able to make enough money to pay for half of everyone's registration fees and get us to Tennessee. This money was raised by removing and trimming trees for the community.

Although we did not do as well in competition as we did in '92, we were satisfied with how everything turned out. We hope this next year is a great one for ya'll and look forward to seeing ya'll in our home state of Texas next year as Stephen F. Austin hosts the 37th Annual Conclave. Thanks for everything! GIG'EM AGGIES!

JOEL HAMBRIGHT
Club President

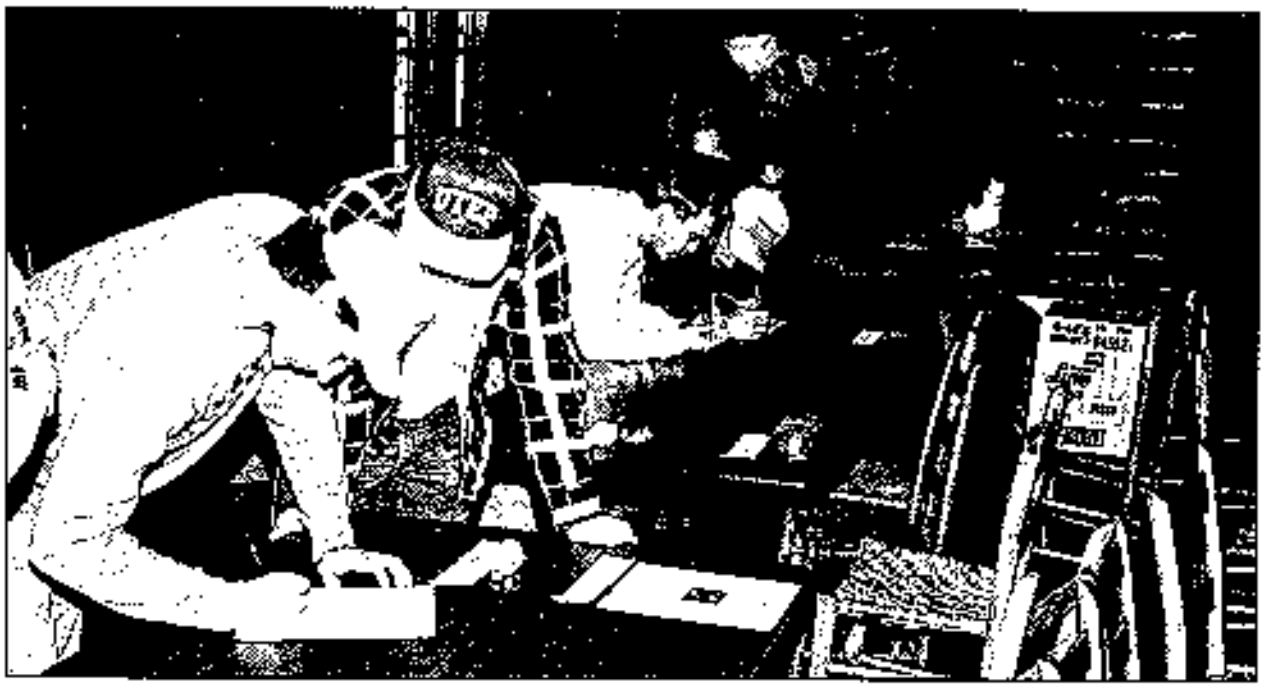

VIRGINIA TECH

We had a busy year at Virginia Tech. Between selling firewood, going to competitions, and selling Christmas trees, we somehow managed to get ready for Conclave. We would like to thank Tennessee for a good, although wet, Conclave. We're looking forward to seeing everyone next year at SFA and improving on our fourth place finish. You may not like us, but you better get used to us!

Misc. (Gas, mailings, targets, etc.)	510.62
TOTAL	**$22,660.00**

MINUTES
ASSOCIATIONN OF SOUTHERN FORESTRY CLUBS 36TH ASFC CONCLAVE
UNIVERSITY OF TENNESSEE
MARCH 25, 1993

The meeting was called to order at approximately 7:45 p.m. by Christy Ackerson, 1992/93 UT Forestry Club President. The roll was taken and representatives were present from **ARKANSAS, AUBURN, CLEMSON, GEORGIA, LOUISIANA STATE, LOUISIANA TECH, MISSISSIPPI STATE, N.C. STATE, STEPHEN F. AUSTIN, TENNESSEE, TEXAS A & M, AND VIRGINIA TECH. OKLAHOMA STATE** was not represented.

The minutes from the 1992 business meeting were not read. General comments were made and the floor was opened for discussion.

MOTION from N.C. State to amend rules and regulations for bow sawing to include the availability and subsequent use of a second saw at discretion of contestants with the clock continuing to run. N.C. State offered to make available a second saw for any clubs with only one saw. VPI seconded. Motion opposed and discussion followed. Discussion consisted of defining terms for saw replacement. Arkansas stated that it might not be a good idea to replace the bow saw once the competition has begun, and also asked for a clarification of "deformity". Concensus was reached on what constitues a deformity: "any breakage of teeth or warp of saw blade."

MOTION made by N.C. State to amend rules and regulations for bow sawing to include the availability and subsequent use of a backup saw, at the discretion of the contestants, with the clock continuing to run. Replacement of bow saw may be made only in the event of a deformity or dysfunction of the original bow saw. An inspection of the saw by the judges will follow the completion of the event to determine saw deformity. If the judges rule that the original saw was not deformed the contestant will be automatically disqualified and no points will be awarded. The hosting club will make a backup saw available for all participating clubs.

These changes will be in effect for the 1994 37th Annual Conclave. Those in favor:
AUBURN, LOUISIANA STATE, LOUISIANA TECH, MISSISSIPPI STATE, N.C. STATE, VIRGINIA TECH, STEPHEN F. AUSTIN AND TENNESSEE. MOTION CARRIED.

MOTION made by Tennessee to amend the Conclave Rules, Penalties and Disqualifications, to include an automatic disqualification with no points awarded in the event of any display of unsportsmanlike behavior with the final determination made by the Protest Committee.
MOTION CARRIED UNANIMOUSLY. EFFECTIVE MARCH 26, 1993.

MOTION made by N.C. State to include, for the 1994 37th Annual Conclave, award plaques for 1st, 2nd, and 3rd Place Overall for Technical and Physical events.
MOTION CARRIED UNANIMOUSLY.

DISCUSSION initiated by N.C. State regarding cants. It was agreed upon and decided that the cants provided by Tennessee will be removed from the plastic-covered pile and placed in the pond at 8:00 a.m., March 26, 1993, in order to ensure a more uniform moisture content.

DISCUSSION and suggestions for more practice cants to be made available prior to event. Clubs agreed that when events are scheduled back-to-back they need to provide extra time for participating contestants.

DISCUSSION initiated by Clemson, N.C. State and Arkansas regarding pole classification. There was concern over the initial maps given out to early arrivals as to whether they could have already located and classed the specified poles. Additional concern was expressed over methodology used to classify, e.g., cubic feet. Clubs agreed to meet in early morning on March 26 for clarification.

DISCUSSION - SFA will initiate a new tradition in 1994 by mailing to all participating shcools the schedule and species lists together, at the same time, to allow contestants to plan ahead and be better prepared.

ANNOUNCEMENT: Louisiana State University and Louisiana Tech will not host a joint Conclave in the future.

CONSTITUTION
ASSOCIATION OF SOUTHERN FORESTRY CLUBS

ARTICLE I. NAME

The name of the organization shall be the Association of Southern Forestry Clubs.

ARTICLE II. OBJECTIVES

A. To benefit the forestry clubs of the various southern schools by an interchange of ideas and stimulation of good fellowship among the club members.
B. To establish and maintain:
   1. Unity of purpose and action within and among the southern forestry clubs.
   2. A high standard of professional ethics.
   3. Closer cooperation and relationship between students and professional foresters.
C. To hold an annual conclave.

ARTICLE III. MEMBERSHIP

A. Qualifications
   1. Any forestry club of a university or college of Alabama, Arkansas, Florida, Georgia, Kentucky, Louisiana, Mississippi, North Carolina, Oklahoma, South Carolina, Tennessee, Texas, Virginia, or West Virginia granting a baccalaureate degree in forestry, or equivalent, with a major of forestry, or a higher degree in forestry, shall be eligible for voting membership in this association upon a majority approval of a petition submitted to the voting member clubs; or by application by representation at the Annual Conclave.
   2. Charter Members: Louisiana State University, University of Florida, Stephen F. Austin College, Mississippi State University, Oklahoma State University, University of the South, University of Arkansas at Monticello, Auburn University, University of Georgia, North Carolina State College, and Clemson Agricultural College .
   3. Any Forestry Club of a senior university of college within the states listed in Part 1 of this section not granting a baccalaureate degree in forestry shall be eligible for associate membership upon a majority approval of a petition submitted to the voting member clubs.
B. Privileges
   Members (each club) are entitled to one vote and full participation in all conclave activities.
C. Dues
   1. The annual dues shall be two hundred dollars ($200) for each member club. Entering clubs shall pay a reduced rate to be set by the Association.
   2. The dues shall be used to pay for correspondence, publications, and other association expenses of the host club, and any excess funds shall be divided between the member clubs equally.
   3. The dues for the year will be paid to the host school by January 1, preceding the Conclave.

ARTICLE IV. OFFICERS

A. The officers of the association shall be:
   1. President - elected from and by the host club.
   2. Vice President - one elected from and by each member club.
   3. Secretary - elected from and by the host club.
   4. Treasurer - elected from and by the host club.
   5. Editor - elected from and by the host club.
B. The duties of the officers:
   1. The duties of the President shall be:
      a. To preside at all meetings of the association.
      b. To appoint committees.
      c. To be responsible for submitting an officer's report to the accumulative files upon the completion of ASCF Conclave.
      d. To be responsible for obtaining reports from each of his committees and officer heads of the host club.
      e. To perform all other duties necessary.
   2. The duties of the Vice President shall be:
      a. To act as a representative of his club.
      b. To notify the president of his election.
      c. To complete a report of the activities of the association and be responsible for submitting materials to the host club for annual publication.
      d. To be responsible for submitting member club publications within his club and maintaining an accumulative file of ASFC correspondence.
   3. The duties of the Secretary shall be:
      a. To keep the minutes of all meetings of the association and to conduct all correspondence relative to the business of the association.
      b. To submit an officer's report for the accumulative files upon the completion of the ASFC Conclave.

4. The duties of the Treasurer shall be:
   a. To receive and have custody of all money paid to the association.
   b. To keep a careful record of all receipts and expenditures.
   c. To prepare a financial report for publication in the annual issue of The Southern Forester.
   d. To be responsible for the collection of the dues.
5. The duties of the Editor shall be:
   a. To gather and edit all material for the annual publication, The Southern Forester.
   b. To see that the provisions of Article VII are carried out.

C. Tenure of Office.
Officers are to hold office until the next Annual Conclave with the exception of the editor, who will serve until the publication is distributed.

D. Election of Officers
1. The President, Secretary, Treasurer, and Editor of the Association shall be elected by the host club at their first club meeting following the Conclave.
2. Vice President of the Association shall be elected by their respective clubs at their first meeting following the Conclave.

ARTICLE V. MEETINGS

A. Time of Meetings
1. The business meeting will be held on the Friday preceding the ASFC field day.
2. In case of the tie, the President shall cast the deciding vote.
3. No club shall be the host more than once in three years.
4. If a previously elected host notified the members of the ASFC, by October 1 of the year before it is to hold the Conclave, that it cannot hold the Conclave, the President shall solicit bids from the members and then send a ballot to each member club to be voted on in writing.
5. The host club shall be alternated from east to west whenever possible.

C. Files.
1. Accumulative files shall be maintained by the host club and shall include all members' reports and correspondence.
2. Each file shall contain a copy of the ASFC Constitution.

ARTICLE VI. AMENDMENTS

The constitution may be amended or revised by a two-thirds vote of the voting member clubs.

ARTICLE VII. PUBLICATIONS

A. The title of the publication shall be The Southern Forester.

B. The constitution shall be published annually in the publication of The Southern Forester.

C. The past host club shall publish the ASFC periodical within one month after the Annual Conclave.

D. Securing items for publication.
1. The articles shall be edited by the member club and submitted to the host club.
2. Articles to be printed in the current issue must be in the hands of the publishing editor not later than the time of the Annual Conclave.

E. Distribution.
Each Conclave contestant will receive one (1) copy of The Southern Forester. A minimum of twenty (20) copies will be sent to participating member clubs.

F. Proceedings of the Conclave.
Proceedings of each Annual Conclave, including minutes of the business meetings, will be published by the host club in the annual publication.

ARTICLE VIII. CONTESTS

A. Competitive events will be held at each Annual Conclave.

B. There will be 20 standard competitive contests at each Annual Conclave.
1. Standard events.
   a. Dendrology
   b. Compass and pacing
   c. Timber estimation
   d. D.B.H. estimation
   e. Pole classification
   f. Wood technology
   g. Chain throwing
   h. Axe throwing
   i. Knife throwing
   j. Pole climbing
   k. Bow sawing
   l. Log rolling
   m. Men's cross-cut sawing
   n. Women's cross-cut sawing
   o. Log chopping
   p. Pole felling
   q. Log birling
   r. Archery
   s. Photogrammetry
   t. Wildlife
2. Scoring will be based on the number of schools participating in the Conclave. First place winners in field events will be awarded a number of points equal to the total number of schools participating. Second place winners receive 1 less point than the total number of participating schools, third place winners

will receive 2 less points than the total number of participating schools, and so on with each succeeding participant who satisfactorily completes the event receiving one or more points. First place winners in technical events will be awarded a number of points equal to the number of participating schools multiplied by 1.5. Second place winners will receive 1.5 points less than the total number of points awarded first place winners; third place winners will receive 3 points less than the total number of points awarded first place winners and so on with each succeeding participant who satisfactorily completes the events receiving 1.5 or more points.

C. In addition to the 20 standard events established in Section B, there may be a maximum of five (5) contests at the discretion of the host club provided that these contests be specified with rules and explanations at the preceeding Annual Conclave. Requests for omission of any standard contests will be made at the preceding Annual Conclave with a two-thirds (2/3) majority vote necessary for approval.

D. The standard set of rules will be made and approved by the voting members of the ASFC.

E. Selection of judges of all contests will be left to the discretion of the host club except in the event the host club participates; then judging will not be done by members of the host club.

F. Only students presently enrolled in school or department of forestry will be eligible to enter ASFC events. In the case of the University of Florida, the University of the South, and the University of Georgia, freshmen and sophomore students presently enrolled and who have declared an intention of enrolling in the forestry department or school at the beginning of their junior year will also be eligible for participation. Texas A & M can use forestry majors that are in wildlife and enrolled in the School of Natural Bioscience.

G. The contestant must be an undergraduate enrolled in an ASFC eligible school (see Article III, Section A., 1-3) during the term of the Conclave in which he/she will be competing.

H. In the event that the Conclave delegation or spectators from any member school intentionally or otherwise interfere with the progress of any event in the Conclave, that delegation shall forfeit the rights to score any points in that event.

I. V.P.I. is hereby considered a member of the ASFC by vote taken on May 4, 1963. J. A table of random numbers will be used to choose order of teams participating in each event. This order will be sent to each participating school before the Conclave.

K. Contest protests must be filed with a committee of staff members within 15 minutes of the individual infraction. From an alphabetical list, those schools in odd-numbered positions (1, 3, 5, 7, 9, 11, 13) shall provide one staff member for the protest committee for the 1979 Conclave. Those schools in even-numbered positions (2, 4, 6, 8, 10,12,) shall provide one staff member for the 1980 Conclave. This alternate year rotation system shall be continuous.

L. Contestants in the log chopping event must wear hard-toed footwear. The use of skin guards is left to the individual's discretion.

M. Tennessee is hereby considered a member of the ASFC by unanimous vote taken on April 12, 1967.

N. The University of the South is hereby no longer considered a member of the ASFC after the submission of a letter of resignation on April 12, 1969.

O. The University of Kentucky is hereby considered a member of the ASFC by a vote taken on March 29, 1964.

P. Texas A & M is hereby considered a member of the ASFC by a vote taken on April 12, 1975. Q. The host club must supply tentative lists for contests involving lists to member schools by November 1. Complaints or suggestions for revision must be mailed back to the host club by December 1. Final lists must be sent to all clubs by February 1, with no changes being made after this date.

R. Louisiana Tech is hereby considered a member of the ASFC by a vote taken on April 6, 1979. S. West Virginia University member of the ASFC.

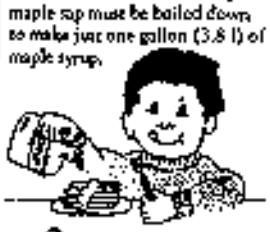

T. West Virginia University no longer considered a member of the ASFC after handing in a letter of resignation.

U. The Sportsman Award will be voted on by the Conclave Vice-Presidents. A confidential ballot will be submitted within one hour after the last event to the host club. In case of a tie, the host club will place the deciding vote, otherwise the host club will not vote. Clubs may not vote for themselves.

TREE TRIVIA

1 Bark can be very thin or very thick. The bark of a birch tree may be only ¼ inch (6.3 mm) thick, while the bark of a giant sequoia can be as much as 2 feet (60 cm) thick.

2 Thirty to forty gallons (114 to 152 l) of sugar maple sap must be boiled down to make just one gallon (3.8 l) of maple syrup.

3 Some tissue-making machines can produce as many as 6000 feet (1800 m) of toilet tissue every minute!

4 89% of Tennessee's forest is privately owned: 9% is owned by corporations, and 80% is owned by over 250,000 private non-industrial landowners. 11% is owned by government agencies.

5 In the 1300s, France's forests were so reduced and wood so scarce that wooden coffins were often rented and reused.

6 The amount of forest land in Tennessee increased by one million acres between 1950 and 1970, and has stayed the same since.

7 A well-positioned shade tree can keep a house 20% cooler in summer.

8 The slippery elm was "responsible" for the spitball—a tricky pitch thrown by baseball pitchers in the days of Babe Ruth. Pitchers would chew slippery elm seeds, then rub the liquid onto the baseball. The resulting pitch was very hard to hit.

9 Arbor Day is a special day when people learn about, plant, and care for trees. The first Arbor Day celebration took place in Nebraska on April 10, 1872. Today, all fifty states and many Canadian provinces celebrate Arbor Day. (The date varies from state to state and province to province.) Other countries around the world also hold special tree celebrations.

10 Every year in the United States, each person uses enough tree products to make up a tree about 100 feet (30 m) tall and 16 inches (40 cm) in diameter.

11 A large leafy tree may take up as much as a ton (.9 t) of water from the soil every day.

12 Tennessee leads the nation in production of hardwood lumber, hardwood flooring, log homes, and pencils.

13 The Appalachian forests are the most diverse in the temperate zones; only tropical rain forests have more kinds of trees.

14 Tennessee forests and the clean water they provide are the basis for a half-billion dollar per year hunting and fishing industry, and contribute to the four billion dollar per year tourist industry.

15 Oaks make up most of Tennessee's forest. Pines are next most common, then hickories and yellow poplar. White oak (Quercus alba) is the most common species.

16 Roughly 90% of forest wildfires are set purposely by arsonists. Roughly 45% start accidentally from carelessness while burning debris outdoors. The remaining 10% have a variety of causes: smoking, railroads, campfires, children, etc.

17 Only about one third of the wood the forest grows each year is harvested and used by people. The rest continues to accumulate on trees. Trees in Tennessee's forests are getting older and larger on the average.

18 Trees in Tennessee towns and cities are probably worth close to one billion dollars. A single urban tree may be worth several hundred to several thousand dollars because of its shade, beauty, and other environmental benefits.

19 By-products of trees may one day take over the job now performed by oil, gas, and coal. Many types of fuel are already being derived from trees.

20 An acre (.4 ha) of trees can remove about 13 tons (11.7 t) of dust and gases every year from the surrounding environment.

21 The tallest redwood ever measured was 36 feet (120 m) tall. That's 62 feet (19 m) taller than the Statue of Liberty!

22 A cord of wood equals a pile of wood measuring 4 ft. x 4 ft. x 8 ft. and can yield 750,000 toothpicks, 2700 copies of the average daily newspaper or 30 baseball rackets.

23 Over 61,000 people are employed by the forest products industry in Tennessee. This represents one out of every ten manufacturing jobs in the state.

TENNESSEE FORESTRY

The Tennessee Division of Forestry wishes to congratulate the students, the schools and the faculties who participated in Conclave '93. The knowledge and skills displayed by all were impressive. The cooperation and competition in less than desirable weather conditions is commendable. These are the characteristics that will keep Professional Forestry strong for decades to come.

The Tennessee Division of Forestry employs over 60 foresters. These professionals deliver a variety of services to all Tennesseans including landowner management assistance, fire prevention and suppression, water quality, forest products marketing, utilization, urban forestry, reforestation, genetics, and nursery management.

We hope you enjoyed Tennessee and it's diverse and healthy forests. We look forward to working with you in the future!

DEPARTMENT OF AGRICULTURE

THE UNIVERSITY OF TENNESSEE
DEPARTMENT OF FORESTRY, WILDLIFE, AND FISHERIES
AGRICULTURAL EXTENSION SERVICE

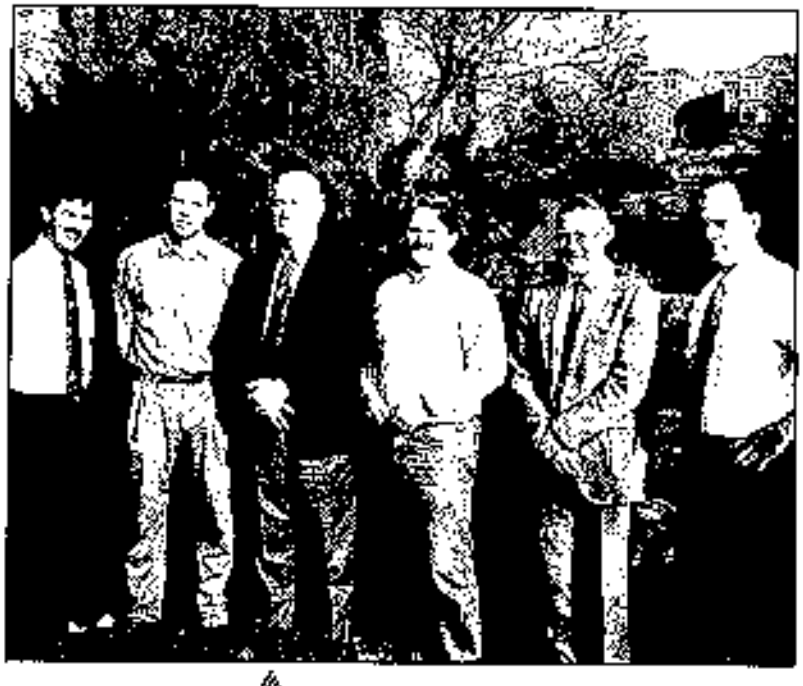

- **LEADERSHIP TRAINING**
  Basic natural resource training offered to county agents, SCS agents, VoAg teachers, etc.

- **TENNESSEE MASTER LOGGER**
  A curriculum based education program developed for professional loggers. Course work includes first aid, OSHA compliance, forest ecology, silviculture, and business.

- **CONTINUING EDUCATION**
  Workshops, seminars, and conferences held for natural resource professionals, business leaders and their employees.

- **LANDOWNER EDUCATION**
  Field days, seminars, and demonstrations provide hands-on training in management and marketing forest resources for private non-industrial landowners.

- **YOUTH EDUCATION**
  Forestry judging trains youth in tree and wood identification. Wildlife judging and FACE contests teach youth ways to improve habitat of selected species. Wildlife Camp offers youth a week long camp experience on wildlife management.

"BE A PART OF THE SOLUTION!"

Wood Is The Only Widely Used Building Material That Is Renewable

- Trees are grown to replace those harvested
- In the U.S. alone, 37% more timber is grown than is harvested
- An average of 4 million trees are planted daily
- Trees and wood store carbon that is harmful to the atmosphere, while steel and other building materials release harmful carbon gases into the atmosphere during the manufacturing process

Westvaco: creative forest management wins national award.

Wildlife management is part of our life at Westvaco. As a major manufacturer of paper and paper packaging we manage our forest lands as a renewable fiber resource. Growing our renewable resource is our prime objective and we plant millions of trees every year.

But we also manage for multiple use, to protect and develop wildlife, preserve the natural habitat of endangered plants and animals, and provide recreational opportunities from hunting and fishing to hiking and nature studies.

Award-winning projects

We are proud of the work we do in this area. And this year we are especially gratified to be the 1992 winner of the National Wetlands Conservation Award from the U.S. Department of Interior, Fish and Wildlife Service. The award was given for the Westvaco Wildlife Management Area established near our paper mill in Wickliffe, Kentucky, improving several thousand acres of habitat for waterfowl and other wildlife. It is the first such public/private cooperative project in the state, and one of the first in the country. We are gratified to be recognized for it.

Investing in the future

Our work in this area is as important to us as the continued development of innovative new products and ever increasing precision in our manufacturing. Advanced forest management is an investment in the future, for our company, and for the wildlife in our forest lands.
