Dear ASFC members and 2015 Conclave Participants:

I would like to begin by thanking everyone for driving to Starkville Mississippi to compete in the mud and rain. I would especially like to thank everyone for keeping a positive attitude even with the poor weather conditions.

Hosting the 58th annual Southern Forestry Conclave was a lot of fun. It was more work than any of us could have imagined, but we had a great crew to take on the task. It was great to see all of the hard work and long hours that our members put into prepping and hosting conclave pay off; however, we could not do it alone. We had lots of help from our forest operations staff in everything from getting and setting the poles, to bringing in wood chips. We could not have put conclave without the help of our faculty whom created and administrated the tests. A special thanks to all of our sponsors who not only donated money and materials, but showed up to help out with anything that came up. I would like everyone to recognize the hard work from everyone involved in hosting the event.

Hosting conclave was a lot of work and many of us had never been to a conclave before, so they weren't sure what to expect. Even with all of the hard work and the unknown, we had a lot of fun over the past year chopping fire wood, working with sponsors, practicing events, and then spring break rolled around and it was time to finalize everything. Just like clockwork, the rain came just in time to make everything a little more interesting. Even with the rain, we were able to get the quickcrete to set, the tents put up, and all of the events in line to go. As the night before rolled in, SFA's crew showed up, and the next day conclave would begin. With a few changes in the schedule, we were able to get all of the events completed on time and with a little bit of diesel we were even able to get the bonfire to burn on the last night. When it finally did light she burned well into the next morning and I'm not sure if we will ever get grass to grow where the fire was again. Looking back on everything, it was a great time. The events went well during the day and the band and fire were fun at night. There was a great group that attended from every school and it was fun to get to meet everyone.

I've always said that there is something special about our profession, and it's difficult to pin it down to one thing. If I had to pin down one thing, it would be the dependability of the individuals in this profession. There are many people I have made friends with during my time in college that I could pick up the phone and ask them for a hand, and they would be more than happy to help me out. Hosting conclave put my opinion to the test, and it held strong every time. It didn't matter if it was asking one of our students for something to set up the events or competitors from other schools helping clean the cants or catching the pole climbers, everyone was willing to help out anyway they could. I feel like that alone has a lot to say about the individuals in our profession and it makes me proud to be a part of it. It makes all of the hard work in hosting conclave worth it, knowing that the work was put into hosting a great event for great people.

With all of that being said, I will finish up by congratulating all of the award winners. There was a lot of good competition this year and the rain put everyone's skills to the test. It truly was impressive to watch people climb a wet pole and role a log through thick mud. All of the competitors did a great job. I would again like to thank all of the workers and competitors for making this conclave a great one. I hope everyone enjoyed their time in Starkville, and I hope our paths cross in the future. I would also like to wish Clemson good luck in hosting the 59th annual conclave.

Zachary Senneff
